[The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.]

1. Until further notice the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Executive Engineers in the Public Works and State Railway Departments of the Government of India.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the Engineering profession.

In 1924 it is intended that 15 appointments shall be made.

The Selection Committee will probably sit in May.

3. Candidates must have attained the age of 21 and not attained the age of 24 years on the 1st August 1924.

[N.B.—*Indians must obtain a certificate of age and nationality in the form explained in Appendix II. As the production of this certificate is a necessary condition of appointment intending candidates are advised to procure it without delay. The certificate should be forwarded to the India Office together with the candidate's form of application or at the earliest subsequent opportunity.*]

4. Every European candidate must be a British subject and, except as provided in Regulation 5, if he or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must at the time of the candidate's birth have been a British subject and still be (or have continued to be until his death) a British subject. The decision of the Secretary of State in Council whether a candidate satisfies these conditions shall be final. A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department.

Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience.

7. Selected candidates will be required to undergo further training on works in India for a period of at least one year. During this period they will be on probation and their final appointment will be made dependent upon the result of such probation.

* It has been decided that the present rule under which 10 per cent. of the appointments made in this country are reserved for Indians shall continue up to and including 1924, when the question of the recruitment of Indians in England will be further considered.

APPENDIX V.

(See paragraph 16 of the Regulations.)

NOTE.—This Appendix is merely intended to show the principal leave rules in the Fundamental Rules and the Pension Rules in the Civil Service Regulations at present applicable to Engineers appointed to the Indian Services from the United Kingdom without going into minute details, and does not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Fundamental Rules or Civil Service Regulations for the time being.

LEAVE.

1. Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" for which an officer is eligible is five-twenty-seconds of the period spent on duty.

2. Subject to certain maxima and minima an officer may draw, at his option, leave salary equal to the average pay of the last 12 months of completed duty or to half such average pay. All leave on average pay and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career is the equivalent of leave on average pay for three years *plus* one-eleventh of the period spent on duty, of which not more than one year *plus* one-eleventh of the period spent on duty may actually consist of leave on average pay. Leave not due and carrying half average pay may be granted on medical certificate, and within certain limits for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty an officer draws quarter average salary, subject to certain maxima and minima.

3. Leave salary is ordinarily payable in rupees if the officer spends his leave in India or Ceylon, and in sterling if he spends it elsewhere. The rate of exchange for the conversion of leave salary is prescribed from time to time by the Secretary of State.

4. It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

PENSIONS.

5. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Services by the Secretary of State from the United Kingdom.

Ordinary Pensions.

6. An officer is entitled, on his resignation being accepted, to a retiring pension after completing qualifying service of not less than 20 years.

7. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

8. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service.

9. If before completing this period of service an officer is permitted to retire voluntarily after completion of 20 or more years' qualifying service (paragraph 6) or is compelled to retire on attaining the age of 55 (paragraph 7), he will be eligible for pension on the following scale :—

Years of Completed Service.	Maximum Limit of Pension Per annum. Rs.	Years of Completed Service.	Maximum Limit of Pension. Per annum. Rs.
20	4,000	28	5,600
25	5,000	29	5,800
26	5,200	30	6,000
27	5,400		

10. Government may retire any officer after he has completed 25 years' service without giving reasons, and without any claim for compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

11. An officer who is compelled to retire through ill-health not occasioned by irregular or intemperate habits will be eligible for gratuity or pension as follows:—

(*a*) After a service of less than 10 years a gratuity not exceeding (except in special cases and under the orders of the Government of India, up to a maximum of 12 months' emoluments) one month's emoluments for each completed year of service. If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to sanction the gratuity, be substituted for emoluments.

(*b*) After a service of not less than 10 years, a pension not exceeding the following amounts:—

Years of Completed Service.	Scale of Pension.		Maximum. Rs. Per annum.	Years of Completed Service.	Scale of Pension.		Maximum. Rs. Per annum.
				20	20	Sixtieths of average emoluments.	4,000

19	19	Ditto	3,800	30 and above	30	Ditto	6,000

Additional Pensions.

12. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year for each completed year of effective service in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments listed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

13. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes the Consulting Engineer to the Government of India, Chief Engineers of the Indian Service of Engineers, Agents of State Railways (if in pensionable service) and Chief Engineers, Railways.

The lower grade includes Superintending Engineers, Indian Service of Engineers, Deputy Secretary to the Government of India, Department of Industries and Labour, Public Works Branch (when the appointment is held by an officer of the Indian Service of Engineers), Deputy Agents of State Railways (if in pensionable service) and the Secretary, Railway Board (if in pensionable service).

PROVIDENT FUND.

14. A general Provident Fund, to which contribution is compulsory, has also been established on the following basis:—

(1) The contribution is compulsory up to 6¼ per cent. on salaries, with voluntary contributions of not more than a further 9⅜ per cent. Subscriptions on leave of any kind are optional.

(2) Compound interest on such payments is annually credited by Government to each officer subscribing.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the Service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

(4) An occupier who makes any payment for which he is not primarily liable under this section shall, in the absence of any contract to the contrary, be entitled to be reimbursed by the person primarily liable for the payment, and, if so entitled, may deduct the amount so paid from the amount of any rent from time to time becoming due from him to such person.

68. (1) The Cantonment Authority shall, at the same time, give public notice of a date, not less than one month thereafter, when it will proceed to consider the valuations and assessments entered in the assessment list, and, in all cases in which any property is for the first time assessed or the assessment is increased, it shall also give written notice thereof to the owner and to any lessee or occupier of the property.

(2) Any objection to a valuation or assessment shall be made in writing to the Cantonment Authority before the date fixed in the notice, and shall state in what respect the valuation or assessment is disputed, and all objections so made shall be recorded in a register to be kept for the purpose by the Cantonment Authority.

(3) The objections shall be inquired into and investigated, and the persons making them shall be allowed an opportunity of being heard either in person or by authorised agent, by an Assessment Committee appointed by the Cantonment Authority.

(4) The Assessment Committee shall consist of not less than three persons, and, where there is a Board, it shall not be necessary to appoint to the Assessment Committee any member thereof.

Authentication of assessment list.

69. (1) When all objections made under section 68 have been disposed of, and the revision of the valuation and assessment has been completed, the assessment list shall be authenticated by the signature of the members of the Assessment Committee who shall, at the same time, certify that they have considered all objections duly made and have amended the list so far as is required by their decisions on such objections.

(2) The assessment list so authenticated shall be deposited in the office of the Cantonment Authority, and shall there be open, free of charge, during office hours to all owners, lessees and occupiers of property comprised therein or the authorised agents of such persons, and a public notice that it is so open shall forthwith be published.

Evidential value of assessment list.

70. Subject to such alterations as may thereafter be made in the assessment list under the provisions of this Chapter and to the result of any appeal made thereunder, the entries in the assessment list authenticated and deposited as provided in section 69 shall be accepted as conclusive evidence—

(*i*) for the purpose of assessing any tax imposed under this Act, of the annual value or other valuation of all buildings and lands to which such entries respectively refer, and

(*ii*) for the purposes of any tax imposed on buildings or lands, of the amount of each such tax leviable thereon during the year to which such list relates.

Amendment of assessment list.

71. (*1*) The Cantonment Authority may, at any time, amend the assessment list by inserting the name of any person whose name ought to have been or ought to be inserted, or by inserting any property which ought to have been or ought to be inserted, or by altering the assessment on any property which has been erroneously valued or assessed through fraud, accident or mistake, whether on the part of the Cantonment Authority or of the Assessment Committee or of the assessee, or, in the case of a tax payable by an occupier, by a change in the tenancy, after giving notice to any person affected by the amendment of a time not less than one month from the date of service, at which the amendment is to be made:

Provided that no person shall by reason of any such amendment become liable to pay any tax or increase of tax in respect of any period prior to the commencement of the financial year in which the amendment is made.

(*2*) Any person interested in any such amendment may tender an objection to the Cantonment Authority in writing before the time fixed in the notice, and shall be allowed an opportunity of being heard in support of the same in person or by authorised agent.

Preparation of new assessment list.

72. The Cantonment Authority shall prepare a new assessment list at least once in every three years, and for this purpose the provisions of sections 66 to 71 shall apply in like manner as they apply for the purpose of the preparation of an assessment list for the first time.

Notice of transfers.

73. (*1*) Whenever the title of any person primarily liable for the payment of a tax on the annual value of any building or land to or over such building or land is transferred, the person whose title is transferred and the person to whom the same is transferred shall, within three months after the execution of the instrument of transfer or after its registration, if it is registered, or after the transfer is effected, if no instrument is executed, give notice of such transfer to the Executive Officer.

(*2*) In the event of the death of any person primarily liable as aforesaid, the person on whom the title of the deceased devolves shall give notice of such devolution to the Executive Officer within six months from the death of the deceased.

(*3*) The notice to be given under this section shall be in such form as the Executive Officer may direct, and the transferee or other person on whom the title devolves shall, if so required, be bound to produce before the Executive Officer any documents evidencing the transfer or devolution.

(*4*) Every person who makes a transfer as aforesaid without giving such notice to the Executive Officer shall continue liable for the payment of all taxes assessed on the property transferred until he gives notice or until the transfer has been recorded in the registers of the Cantonment Authority, but nothing in this section shall be held to affect the liability of the transferee for the payment of the said tax.

Notice of erection of buildings.

74. (*1*) If any building is erected or re-erected within the meaning of section 179, the owner shall give notice thereof to the Executive Officer within thirty days from the date of its completion or occupation, whichever is earlier.

(2) Any person failing to give the notice required by sub-section (1) shall be punishable with fine which may extend to fifty rupees or ten times the amount of the tax payable on the said building, as erected or re-erected, as the case may be, in respect of a period of three months, whichever is greater.

Remission and Refund.

Demolition, etc., of buildings.

75. If any building is wholly or partly demolished or destroyed or otherwise deprived of value, the Cantonment Authority may, on the application of the owner, remit or refund such portion of the tax payable thereon as it thinks fit.

Remission of tax.

76. In a cantonment other than a hill cantonment, when any building or land has remained vacant and unproductive of rent for ninety or more consecutive days during any year, the Cantonment Authority shall remit or refund, as the case may be, such portion of the tax payble thereon in respect of that year as may be proportionate to the number of days during which the said building or land has remained vacant and unproductive of rent.

Power to require entry in assessment list of details of building.

77. For the purpose of obtaining a partial remission or refund of tax, the owner of a building composed of separate tenements may request the Cantonment Authority, at the time of the assessment of the building, to enter in the assessment list, in addition to the annual value of the whole building, a note recording in detail the annual value of each separate tenement. When any tenement, the annual value of which has been thus separately recorded, has remained vacant and unproductive of rent for ninety or more consecutive days during any year, such portion of the tax payable in respect of that year on the whole building shall be remitted or refunded as would have been remitted or refunded if the tenement had been separately assessed :

Provided that no such remission shall be made unless notice in writing of the circumstances in which it is claimed has been given to the Cantonment Authority, and no remission or refund shall take effect in respect of any period commencing more than fifteen days before the delivery of such notice.

What buildings, etc., are to be deemed vacant.

78. (1) For the purposes of sections 76 and 77 no building tenement or land shall be deemed vacant if maintained as a pleasure resort or town or country house, or be deemed unproductive of rent if let to a tenant who has a continuing right of occupation thereof, whether he is in the actual occupation or not.

(2) The burden of proving all facts entitling any person to claim relief under section 75, or section 76, or section 77, shall be upon him.

Notice to be given of every occupation of vacant building or house.

79. (1) The owner of any building, tenement or land in respect of which a remission or refund of tax has been given under section 76 or section 77 shall give notice of the re-occupation of such building or land within fifteen days of such re-occupation.

(2) Any owner failing to give the notice required by sub-section (1) shall be punishable with fine which shall not be less than twice the amount of the tax payable on such building, tenement or land in respect of the period during which it has been re-occupied and which may extend to fifty rupees, or to ten times the amount of the said tax, whichever sum is greater.

Charge on immoveable Property.

Tax on buildings and land to be a charge thereon.

80. A tax assessed on the annual value of any building or land shall, subject to the prior payment of the land-revenue, if any, due to the Government thereon, be a first charge upon the building or land.

Octroi, Terminal Tax and Toll.

Inspection of imported goods, etc.

81. Every person bringing or receiving any goods, vehicles or animals within the limits of any cantonment in which octroi or terminal tax or toll is leviable, shall, when so required by an officer duly authorised by the Cantonment Authority in this behalf, so far as may be necessary for ascertaining the amount of tax chargeable—

(*2*) In case of non-payment of any octroi or terminal tax or toll on demand, the officer empowered to collect the same may seize any goods, vehicles or animals on which the octroi, terminal tax or toll is chargeable or any part or number thereof which is of sufficient value to satisfy the demand.

(*3*) The Cantonment Authority, after the lapse of five days from the seizure, and after the issue of a notice in writing to the person in whose possession the goods, vehicles or animals were at the time of seizure, fixing the time and place of sale, may cause the property so seized, or so much thereof as may be necessary, to be sold by auction to satisfy the demand and any expenses occasioned by the seizure, custody and sale thereof, unless the demand and expenses are in the meantime paid:

Provided that the Executive Officer may, in any case, order that any article of a perishable nature which cannot be kept for five days without serious risk of damage, or which cannot be kept save at a cost which, together with the amount of octroi, terminal tax or toll is likely to exceed its value, shall be sold after the lapse of such shorter time as he may, having regard to the nature of the article, think proper.

(*4*) If at any time before the sale has begun, the person whose property has been seized tenders to the Executive Officer the amount of all expenses incurred and of the octroi, terminal tax or toll, the Executive Officer shall release the property seized.

(*5*) The surplus, if any, of the sale-proceeds shall be credited to the cantonment fund, and shall, on application made to the Cantonment Authority within one year after the sale, be paid to the person in whose possession the property was at the time of seizure, and, if no such application is made, shall be the property of the Cantonment Authority.

Lease of octroi, terminal tax or toll.

83. It shall be lawful for the Cantonment Authority, with the previous sanction of the Officer Commanding the District, to lease the collection of any octroi, terminal tax or toll for any period not exceeding one year; and the lessee and all persons employed by him in the management and collection of the octroi, terminal tax or toll shall, in respect thereof,—

(*a*) be bound by any orders made by the Cantonment Authority for their guidance;

(*b*) have such powers exercisable by officers or servants of the Cantonment Authority under this Act as the Cantonment Authority may confer upon them; and

(c) be entitled to the same remedies and be subject to the same responsibilities as if they were employed by the Cantonment Authority for the management and collection of the octroi, terminal tax or toll, as the case may be :

Provided that no article distrained may be sold except under the orders of the Cantonment Authority.

Appeals.

Appeals against assessment.

84. (1) An appeal against the assessment or levy of, or against the refusal to refund, any tax under this Act shall lie to the District Magistrate or to such other officer as may be empowered by the Local Government in this behalf :

Provided that, where there is a Board and the person to whom the appeal would ordinarily lie is, or was when the tax was imposed, a member of the Board, the appeal shall lie to the Commissioner of the Division, or, in a province where there are no Commissioners, to the District Judge.

(2) If, on the hearing of an appeal under this section, any question as to the liability to, or the principle of assessment of, a tax arises on which the officer hearing the appeal entertains reasonable doubt, he may, either of his own motion or on the application of the appellant, draw up a statement of the facts of the case and the point on which doubt is entertained, and refer the statement with his own opinion on the point for the decision of the High Court.

(3) On a reference being made under sub-section (2), the subsequent proceedings in the case shall be, as nearly as may be, in conformity with the rules relating to references to the High Court contained in Order XLVI of the First Schedule to the Code of Civil Procedure, 1908. V of 1908.

Conditions of right to appeal.

87. No appeal shall be heard or determined under this Chapter unless—

(a) the appeal is, in the case of a tax assessed on the annual value of buildings or lands or both, brought within thirty days next after the date of the authentication of the assessment list under section 69 (exclusive of the time requisite for obtaining a copy of the relevant entries therein), or, as the case may be, within thirty days of the date on which an amendment is finally made under section 71, and, in the case of any other tax, within thirty days next after the date of the receipt of the notice of assessment or of alteration of assessment or, if no notice has been given, within thirty days next after the date of the presentation of the first bill in respect thereof :

Provided that an appeal may be admitted after the expiration of the period prescribed therefor by this section if the appellant satisfies the Court before whom the appeal is preferred that he had sufficient cause for not preferring it within that period ;

(b) the amount, if any, in dispute in the appeal has been deposited by the appellant in the office of the Cantonment Authority.

Finality of appellate orders.

88. The order of an appellate authority confirming, setting aside or modifying an order in respect of any valuation or assessment or liability to assessment or taxation shall be final :

(*2*) Every such bill shall specify the particulars of the tax and the period for which the charge is made.

Notice of demand

91. (*1*) If the amount of the tax for which any bill has been presented is not paid to the Cantonment Authority within thirty days from the presentation thereof, the Executive Officer may cause to be served upon the person liable for the payment of the same a notice of demand in the form set forth in Schedule I.

(*2*) For every notice of demand which the Executive Officer causes to be served on any person under this section, a fee of such amount, not exceeding one rupee, as shall in each case be fixed by the Executive Officer, shall be payable by the said person and shall be included in the costs of recovery.

Recovery of tax.

92. (*1*) If the person liable for the payment of any tax does not, within thirty days from the service of the notice of demand, pay the amount due, or show sufficient cause for non-payment of the same to the satisfaction of the Executive Officer, such sum, with all costs of recovery, may be recovered under a warrant, issued in the form set forth in Schedule II, by distress and sale of the moveable property of the defaulter:

Provided that the Executive Officer shall not recover any sum the liability for which has been remitted on appeal under this Chapter.

(*2*) Every warrant issued under this section shall be signed by the Executive Officer.

(*2*) The person charged with the execution of a warrant of distress shall forthwith make an inventory of the property which he seizes under such warrant, and shall, at the same time, give a written notice in the form set forth in Schedule III to the person in possession thereof at the time of seizure that the said property will be sold as therein mentioned.

Disposal of distrained property.

94. (*1*) When the property seized is subject to speedy and natural decay, or when the expense of keeping it in custody is, when added to the amount to be recovered, likely to exceed its value, the Executive Officer shall give notice to the person in whose possession the property was at the time of seizure that it will be sold at once, and shall sell it accordingly by public auction unless the amount mentioned in the warrant is forthwith paid.

(*2*) If the warrant is not in the meantime suspended by the Executive Officer, or discharged, the property seized shall, after the expiry of the period named in the notice served under sub-section (*2*) of section 93, be sold by public auction by order of the Executive Officer.

(*3*) The surplus of the sale-proceeds, if any, shall forthwith be credited to the cantonment fund, and notice of such credit shall be given at the same time to the person from whose possession the property was taken, and, if the same is claimed by written application to the Cantonment Authority within one year from the date of the notice, a refund thereof shall be made to such person. (*2*) If, on the service of such bill, such person does not forthwith pay the sum so due or about to become due, the amount shall be leviable by distress and sale in the manner hereinbefore provided in this Chapter, except that it shall not be necessary to serve upon the defaulter any notice of demand and the warrant for distress and sale may be issued and executed without any delay.

Power to institute suit for recovery

96. Instead of proceeding against a defaulter by distress and sale as hereinbefore provided in this Chapter, or after a defaulter has been so proceeded against unsuccessfully or with only partial success, any some due or the balance of any sum due, as the case may be, from such defaulter on account of a tax may be recovered from him by a suit in any Court of competent jurisdiction.

STATEMENT OF OBJECTS AND REASONS.

The law relating to criminal tribes has to be collected from five Acts of the Legislature. The original Act, the Criminal Tribes Act, 1911, has been amended on four occasions, and an additional difficulty arises from the fact that some of the amendments were made in Schedules to other Acts. The present Bill, which is, save for one slight alteration, purely a consolidating measure, brings the law together in the compass of one enactment. The alteration referred to is the substitution in clause 14 of the word "who" for the word "which." This is necessitated by the fact that, since the enactment of the amending Act, I of 1923, individual members of a criminal tribe may be restricted to an area or settled in a place of residence.

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF FISHERIES, BENGAL, FOR THE YEAR ENDING 31st MARCH 1923.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Fisheries.

CALCUTTA, THE 25TH FEBRUARY 1924.

RESOLUTION—No. 853.

READ—

The Report of the Department of Fisheries, Bengal, for the year ending 31st March 1923.

Minister in charge: The Hon'ble Hadji Mr. Abdul Karim Abu Ahmed Khan Ghuznavi.

The report concludes with the remark that it will probably be "the last report of the Fishery Department in its present form." This anticipation has proved correct, for the Department of Fisheries has been abolished since the middle of the year 1923 as a result of the recommendations of the Bengal Retrenchment Committee. To the end with its exiguous staff it continued

to do substantially good work as this report will show, but it remains nevertheless true that without an expert head and a much larger organisation it could not be expected to make much impression on the problems presented by the fisheries of the province. It was therefore decided to close the department for the present at least, to preserve the records of its work carefully and to prepare a scheme for a more suitable and more effective organisation in the hope that when the finances of the province improve it will be possible to take up the work where it has been set down and to pursue with it greater promise of more comprehensive and important results.

2. The depletion of the superior staff noticed in the previous years' reports was not remedied, and the temporary arrangement under which the Director of Agriculture was placed in charge of the department pending the appointment of a permanent Director continued.

3. Important work during the year was the confirmation of the previous observation that the carp (*Rahu*, *Katla* and *Mirgal*) breeds in certain bundhs in West Bengal and Chota Nagpur. The breeding commences with the onset of heavy monsoon rain. Another important discovery is that the *jatka* fish well known in East Bengal, where it is caught in large quantities in the early part of the year, is the young of the *hilsa*. The identification was made by Mr. C. Tate Regan of the British Museum. With this discovery the possibility of the artificial culture of *hilsa* becomes much nearer realization.

4. Experiments in the artificial culture of mussels in tanks did not show much progress. The investigation into the mosquito larvæ-eating species of fish was continued and a consignment of such fish was supplied to the Anti-malarial Officer attached to the British Station Hospital at Rawalpindi.

5. Pro aganda work among fishermen had increasing effect, and as a result it is gratifying to notice that fishermen are taking more interest in the practical education of their children. In the Dacca district there are ten schools for the children of fishermen. Among them the most noteworthy is the Rohitpur school where, in addition to ordinary lessons in reading, writing and arithmetic, the boys are taught the elements of pisiculture, fish curing, net repairing, boat-making and boat-repairing. In the district of Faridpur there are two primary schools for the children of fishermen.

6. Considerable progress was made during the year under review in the organisation of fishery co-operative societies. During the year five fishery societies were registered against two in the previous year. The total number of such societies was 54 at the end of the year.

7. The two fishery companies of Madaripur subdivision mentioned in the last year's report have survived the year under review, and the Hon'ble Minister notices with satisfaction the fact that they have been able to get into working order with some prospects of success. Another company "The Faridpur Agricultural and Industrial Association, Limited," was started in that district during the year. The object of the Company is to carry on agriculture on improved methods, to raise poultry and live-stock and to rear fish in tanks. It remains to be seen if this Company will succeed in settling down to work.

8. During the carp season of the year under review 513,000 selected fry were supplied to the public by the department, 304,000 in Bengal and 209,000 in Bihar and Orissa, against the total of 690,000 in 1921-22 The unsteady nature of the monsoon was responsible for a falling off in the supply. One notable feature of the last year's work was the despatch of a consignment of fry to Port Blair for stocking certain tanks in the Andamans.

9. The statistics of fish imported into Calcutta during the year under review show imports of 435,194 maunds as compared with 417,684 maunds in the preceding year. This has exceeded all past records, but the supply appears to be still far short of the demand, a fact which points to the importance of re-establishing an effective Fishery Department when funds permit.

10. During the last years of its existence the Fishery Department has been unfortunate in not having an expert Director with a special knowledge of fisheries. Although the Director of Agriculture, who was in executive charge of the department, carried out the work on the lines laid down by Mr. Southwell, the late Director of Fisheries, it is obvious that he could not be expected to produce the results which a specialist could have hoped to produce. His main occupation was in the Agriculture Department and his special knowledge and training did not concern fisheries.

11. The Hon'ble Minister has much pleasure in acknowledging the services of Mr. G. Evans and Mr. R. S. Finlow who held charge of the department in addition to their own duties as Director of Agriculture, Bengal. The names of the subordinate officers of the department specially mentioned in the report are also noted with pleasure.

By order of the Government of Bengal

(Ministry of Agriculture and Public Works),

Secretary to the Government of Bengal (offg.).

RESOLUTION ON THE REPORT OF THE DIRECTOR OF PUBLIC HEALTH, THE SANITARY BOARD AND THE CHIEF ENGINEER, PUBLIC HEALTH DEPARTMENT, FOR THE YEAR 1922.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

CALCUTTA, THE 1ST MARCH 1924.

RESOLUTION—No. 401P.H.

READ—

The Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1922.

1. **Public Health.**—(Statistical, Epidemiological and General Public Health Administration.)

Population.—For the purposes of this review the total population of Bengal, excluding the Chittagong Hill Tracts, is taken as 46,522,293 (1921 Census).

2. **Birth-rate and Death-rate.**—In 1922, the total number of births recorded in Bengal was 1,275,614 against 1,301,001 in the preceding year, while the number of recorded deaths fell from 1,403,031 in 1921 to 1, 73,246 in 1922.

The provincial birth-rate in 1922 was 27·4 per mille as compared with 28·0 in 1921 and the quinquennial average of 30·2. The birth-rate of 1922 was the lowest since the year 1892, the first year of general birth registration throughout Bengal. Only one other province in India, viz., the North-West Frontier Province, recorded a lower birth-rate (23·7 per mille) during the year. The birth-rate of Bengal for 1922 was 2·1 per cent. below that of 1921 and 12·5 per cent. below the average of the previous ten years. The Director of Public Health has pointed out that the trend of the birth-rate has been going down steadily during the last sixteen years, and he is of opinion that "the declining birth-rate is suggestive of pressure on subsistence resulting from the growth of population outstripping that of production." An important factor contributing to the lowering of the birth-rate in Bengal is the large influx of the surplus population of other provinces which materially affects the economic life of the local population. In this connection the Director of Public Health makes the following observations :—

"For many years past, Bengal has been accommodating a portion o. the surplus population of a number of other provinces. The influx of large numbers of these people into a country, much of which is already more densely crowded than any other rural tract in the world,,must serve as an effective check to the growth of the indigenous population".

There are other contributory factors at work, such, for example, as the gradual postponement of marriage to a later age, but the Director of Public Health is of opinion that economic conditions are the main cause of the declining birth-rate and that the serious depression through which the country has been passing since the middle of 1918 is primarily responsible for the great diminution of births which has followed and which has been specially marked in the year under report.

The provincial death-rate in 1922 was 25·2 per mille as compared with 30·1 in 1921, the quinquennial average being 31·3 per mille. The death-rate of 1922 was lower than that of any year since 1890. The Director of Public

Health points out that the low death-rate, while partly due to improved economic conditions resulting from the relatively favourable harvest of 1921-22, was largely due to the natural reaction following upon the excessive mortality and the low birth-rates of the previous years. In fact the year 1922 was generally noticeable for low death-rates throughout India. Of the other provinces only two, viz., Assam and North-West Frontier Provinces, recorded a death-rate higher than Bengal. As was pointed out last year, it is the rate of natural increase (of births over deaths) and not the death-rate alone which affords the best evidence of a country's health, and judged by this standard Bengal compared very unfavourably with most of the other provinces, two only, viz., Assam and the North-West Frontier Province, showing a small rate of increase.

Comparing the divisional birth-rates of the last few years it is observed that while there was an improvement in the Burdwan and Presidency Divisions, a considerable diminution of births occurred in the other three divisions. The divisions which show a reduced birth-rate are those specially interested in the cultivation of jute, and in the opinion of the Director of Public Health the relatively low price obtained by the cultivator for this commodity during the period from 1919 to 1921 has had an unfavourable influence on the birth-rate of all the jute-growing districts.

The Director of Public Health has drawn attention to the interesting fact that contrary to the general belief, mortality goes down when prices go up, and that *vice versâ*, mortality rises as prices fall, and he explains that the agriculturist benefits most when he can obtain a reasonable return for the produce he has to sell:

"It will be seen that prices underwent a very sudden fall of over 30 per cent. between the summer of 1920 and the cold weather of 1920-21, and that this change was accompanied by a very great relative rise in mortality. On the other hand, the seasonal change in the price level in 1922 was only about 15 per cent.; in other words, prices were much more stable in the latter year; and co-incidentally with this the corresponding fluctuations of mortality were far smaller than in the former year. The most favourable condition for all classes of the population appears to be when prices are neither unduly high nor unduly low but remain at a more or less stable or fixed position, whereas if they fluctuate widely it is merely the small class of middlemen and speculators who benefit at the expense of both the consumer and the producer; and the alternating periods of relative prosperity and economic stress that result are reflected in the oscillations that occur in the birth and death-rate of the community as a whole."

3. **Infant mortality.**—In 1922, 239,451 infants died under the age of one year, as compared with 268,162 during the preceding year, the total mortality showing a net reduction of 11·1 per cent. The rate of infant mortality declined from 206 per mille in 1921 to 188 per mille in 1922. An examination of the figures of infant mortality at different age periods reveals the interesting phenomenon that while deaths of infants under one month and under six months actually increased by 5·1 and ·5 per cent., the mortality of infants between the ages of 6 and 12 months showed a large reduction (33·8 per cent.). In the opinion of the Director of Public Health the small increase of mortality in 1922 among infants aged one to six months and the greater increase among infants below one month is the direct consequence of the increasing number of births that took place in the later months of the year. A healthy year generally keeps down mortality among grown up infants, while improved economic conditions which follow in its wake help to promote the birth-rate. As births increase, however, the mortality of children under one month also increases under existing conditions.

In 1922 only 2,567 deaths from child-births were reported, but the figure is obviously unreliable, and the Director of Public Health estimates that maternal causes must have been responsible for the death of about 45,000 mothers in Bengal.

As the Director of Public Health has pointed out, with few exceptions the death of a mother during child-birth or shortly afterwards leads also to the death of her child, and it is obvious therefore that there is a great scope in Bengal for work in the sphere of maternal and infant welfare.

As noticed last year, infant and maternal welfare centres have been doing good work for some time in Calcutta and Dacca A scheme was inaugurated during the year for the training of indigenous village *dais*, and the Minister is glad to learn that several district boards have arranged to start training centres for this purpose. The Asansol Mines Board of Health have set a good example by employing a small number of trained midwives with considerable success, and it is reported that an increasing number of trained midwives have settled down to private practice within the mining area.

The Minister for Local Self-Government hopes that the widespread interest which has recently been aroused in the subject of maternity and child-welfare throughout the province as the result of the National Baby Week Exhibition held under the initiative of Her Excellency the Countess of Lytton will lead to a systematic organization being formed in every district for the training of *dais*, for the education of mothers, and for the formation of baby clinics and maternity welfare centres.

4. **Child mortality.**—Referring to the older children the Director of Public Health has drawn attention to the fact that over 25 per cent. of the total mortality of the province was made up of child deaths as distinguished from infant deaths, and that the aggregate loss of life among children between the ages of one and 15 years is much greater than that of infants.

It is evident that a serious loss is being occasioned to the community by the deaths of so many young children, and the Minister for Local Self-Government is convinced that vigorous efforts must be made to reduce this evil.

In this connection the Minister lays great stress on the value of school hygiene work and is glad to note that work in connection with school hygiene was continued throughout the year and that a systematic inspection of schools and school children is now proceeding in a number of municipalities under the supervision of an Assistant Director of Public Health and a small staff of assistants specially deputed for the purpose. The Director of Public Health reports that of the total number of boys examined no less than 55 per cent. showed physical defects. The Minister hopes that increasing attention will be paid to the health of the school-going population on whom the future prosperity of the province so largely depends.

5. **Registration of Births and Deaths.**—The Director of Public Health has again drawn attention to the continued neglect by municipal authorities in administrating the law in regard to birth and death registration. In many towns the machinery of registration is still very defective, and incredibly low figures continue to be reported. In 1922, 71 towns out of 117 returned birth-rates below 20 per mille, while in ten towns the rate was lower than 10 per mille. Dinajpur and Suri reported figures as low as 4·9 and 5·5 per mille, respectively.

In the opinion of the Director of Public Health even in the best of years the healthiest town in Bengal has a death-rate not much below 30 per mille. In 1922, however, 78 towns reported death-rates below 20 per mille, while in 12 towns the recorded death-rate was even lower than 10 per mille, Suri and Garulia returning the absurdly low figures of 4·5 and 4·7 per mille respectively.

The importance of the maintenance of an accurate record of vital statistics for the purposes of public health administration was emphasized in last year's resolution, and the Minister for Local Self-Government once more desires to draw the attention of municipal authorities to the urgent need for an improvement in this direction.

The continued neglect of birth registration in towns is an obstacle to infant and maternal welfare work and reveals the urgent necessity for the appointment of responsible officers as registrars of births and deaths in municipal areas.

6. **Cholera.**—The mortality from cholera was 51,712 in 1922 as compared with 80,547 in 1921, giving a death-rate of 1·1 against 1·7 per mille of the population. It is satisfactory to note that the prevalence of the disease is on the decline, and the Minister is glad to learn that the local bodies and

the general public are beginning to realize that cholera is essentially a preventible disease which can be properly controlled by the adoption of effective sanitary measures. The provision of an adequate and pure water-supply in rural and urban areas is obviously of primary importance in this connection. At the same time the Director of Public Health lays very great stress on the importance of taking preventive measures and of starting an anti-cholera campaign on organized lines in order to check the spread of the disease. As successful examples of measures of this kind he refers to the effective steps taken by the District Board of the 24-Parganas to prevent the occurrence of cholera at the last Ganga Saugor Mela, and the strenuous efforts made by the District Boards of Bogra, Rajshahi and Pabna, assisted by large bands of voluntary workers, for the prevention of cholera in areas which suffered from devastating floods in the latter part of the year. Enquiries made by the Director of Public Health have revealed that there are special centres of infection in various parts of Bengal, and that there are grounds for believing that cholera infection is often spread along lines of communication from other provinces. As he has pointed out, it is within the power of municipalities and district boards in Bengal to reduce cholera mortality to a minimum at a very small expenditure. The experience gained in anti-cholera work in several districts has shown that a reduction in cholera mortality is almost automatically brought about by the appointment of a trained sanitary staff, and the Director of Public Health is confident that not only would cholera mortality be almost entirely checked if a small trained staff were provided for every thana in the province, but that many other diseases of a like infectious nature would also eventually be brought under control as a result of the establishment of an organization of this kind in each district under the direct supervision of the District Health Officer. The Minister for Local Self-Government trusts that this suggestion will meet with careful consideration on the part of local bodies.

7. **Small-pox.**—In 1922 the mortality from small-pox remained comparatively low, being 7,864 as compared with 8,157 in 1921, 36,190 in 1920 and 37,010 in 1919. This periodic decline may be followed in the near future by a recrudescence of the disease, and the Director of Public Health draws the attention of the local bodies to the need for carrying out vaccination measures specially in areas where the infection appears to be localized.

The total number of vaccinations reported in 1922-23 was 2,006,140 as compared with 1,761,626 in 1921-22. Of the total operations, 1,526,385 were recorded as primary and 479,755 as re-vaccinations, against 1,266,551 primary and 495,075 re-vaccinations during the year 1921-22. There was thus during the year 1922-23 an increase of 20·5 per cent. in primary and a decrease of 3·02 per cent. in re-vaccination operations.

During 1922-23 out of 998,829 infants requiring vaccination 290,172 or 290·4 per mille were reported to have been successfully vaccinated in the rural areas, as compared with 271·735 or 269·11 per mille during the previous year. In nine districts, including Calcutta, the protection was said to have been over 500 per mille. In municipal areas 553·3 per mille of the surviving infants were protected in 1922-23 against 627·5 per mille during the previous year.

Free vaccination has now been introduced all over the Presidency, but for want of funds most of the local bodies were unable to appoint an adequate staff of paid vaccinators. In several districts, licensed vaccinators were also employed, while some district boards employed paid vaccinators only for short periods. In the district of Dacca, some of the union boards undertook to provide free vaccination and employed a few paid vaccinators. In 1922-23 Government made a total grant of Rs. 25,000 to district boards for free vaccination.

The Minister desires to call the attention of all local authorities to the likelihood pointed out by the Director of Public Health of a recrudescence of small-pox epidemic in the province in the course of the next 12 or 18 months and trusts that all early cases of small-pox will be carefully watched and that every effort will be made to check the spread of infection by the efficient vaccination of all contacts.

8. **Fever.**—In 1922 the mortality from fever was 885,268 as compared with 1,070,368 in 1921, the death-rate falling to 19·0 per mille, against 23·0 per mille in previous year and the quinquennial average of 24·4 per mille. As usual, deaths from fever represented about 75 per cent. of the total mortality. The reduced fever mortality of 1922 was largely influenced by the improved conditions existing in the post-monsoon period of 1921.

(*a*) **Malaria.**—Of the febrile diseases, malaria continues to be the most important, the recorded mortality from malarial fever in 1922 being 11·6 per mille against 15·8 per mille in the preceding year. The actual rate of death from malarious fever per mille of population has declined in every districts of the Presidency. But although the number of deaths has shown a decline, sickness has not diminished and a comparison of the mean fever indices for the period of 1920-22 with that in 1912 shows a very large increase in the prevalence of malarial fever in all parts of the Presidency. The classification of mortality returns under the different kinds of fever is still far from accurate, and the recorded malarial death-rate is vitiated in many instances by the inclusion of figures of mortality from pneumonia, tuberculosis, enteric fever, kala-azar and other febrile diseases. The Director of Public Health estimates that "ordinarily, malaria appears to be the direct or indirect cause of from 20 to 33 per cent of the reported fever deaths."

If to the death-rate caused by malaria be added the physical degeneration of the people among whom it is prevalent, the imperative necessity for a vigorous anti-malarial campaign and for utilising all the available resources of the community for fighting the disease becomes apparent.

The Minister therefore lays great stress on the local bodies initiating the policy of enlisting the services of all the social service organizations in this cause, and in particular of the Central Co-operative Anti-malaria Society, Limited, whose work has been rousing the dormant energies of the rural population and organizing them for taking effective measure not only against malaria but kala-azar and other diseases which present such a menace to the rural population. Government (Ministry of Local Self-Government) will give every possible support to the work of this important organization. The Minister also desires in this connection to impress upon district boards the urgent necessity of organizing the rural population of the province into union boards, so that they may be furnished with an effective machinery for fighting disease by taking preventive measures generally and in particular by providing adequate sources of drinking water supply and maintaining the existing water-supply against pollution.

The Director of Public Health lays great stress on a sufficient use of quinine against malaria for both preventive and curative purposes, and mentions the significant fact that the districts which appear to be least malarious consumed by far the largest proportion of quinine.

Investigations made by the Director of Public Health lead to the conclusion that interference with the natural flow of water across country from field to field, obstruction or silting up of water-courses and any condition which seriously diminishes the supply of water and promotes stagnation either on the surface of the land or in the beds of streams and drainage channels lead to a local increase of malaria. Increase of malaria in parts of Eastern Bengal, which until recently were comparatively free from malaria, is directly attributed to the haphazard construction of embankments which restrict the natural flow of water. On the other hand, experiments made by the Public Health Department in several areas of intense malaria infection, which aim at the restoration of the natural flow of water in stagnant channels and the flushing out of drains, ditches and insanitary tanks, have been attended with successful results, and have definitely led to a reduction in the prevalence of malaria. Reference was made last year to the good results obtained from experiments carried on in the colliery area (Singaran-Toposi) and at Meenglas in the Duars, and to the effect of the Banka Valley scheme in reducing the spleen index in adjacent villages and improving local agricultural conditions. A "flood and flush" scheme was carried out at Jangipur, and the results recorded so far show that there has been a general improvement in the health of the town. A portion of the bed of the Saraswati river has been re-excavated in recent years, and the restoration of the flow in the

channel has had the effect of improving the health of the adjacent villages. There has also been a great diminution of malaria at Kumarkhali where a small scheme has been carried out for flushing out the drains, ditches and hollows in and about the town with an abundant supply of water from the river. The Minister reiterates the policy laid down last year with regard to measures for the abatement of malaria and trusts that local bodies will show their readiness in undertaking projects which aim at the removal of restrictions on natural inundation, the flushing out of swampy areas which breed anopheles, and the general improvement of agriculture.

(b) **Kala-azar.**—The kala-azar survey has been carried out in 13 districts, and up to the present, 23 per cent. of the villages examined have been found infected with kala-azar. The enquiry has served to stimulate general interest in kala-azar, and about 300 medical officers practising in the rural areas have been trained in the diagnosis and treatment of the disease. As a result of this the number of cases of kala-azar admitted into hospitals and dispensaries in Bengal has risen from a total of 4,300 in 1919 to over 18,000 in 1922, which represents an increase of over 70 per cent. on the last year's figures. The Director of Public Health estimates that when investigations have been completed in all parts of Bengal the average incidence of the disease may be found to be as high as in Assam, viz., 2·8 per mille of the total population, which represents roughly 130,000 cases of kala-azar in Bengal. He also refers to pockets of intensive kala-azar infection. The Minister lays very great importance on stamping out this disease in as short a time as possible. As an effective remedial measure has been found, this can be easily effected if a sufficient number of medical men can be encouraged to take part in the work. The Minister is of opinion that the scheme for encouraging medical officers on the subsidy system adopted by the Central Co-operative Anti-malaria Society offers the most economical and efficient method for fighting this disease.

Government (Ministry of Local Self-Government) have in a recent resolution outlined the general line of an effective plan of campaign against kala-azar and have also made substantial grants to district boards towards anti-kala-azar work.

Sanitary Engineering.—A number of municipal water-supply, drainage and sewerage schemes were prepared by the Chief Engineer, Public Health Department. Seven water-works and two sewerage schemes were under construction during the year. Some sanitary works were also carried out on behalf of the Public Works Department at the Bengal Engineering College, Sibpur, and the Kurseong water-supply project was completed. The total capital expenditure on water-supply was Rs. 4,23,601, and the total expenditure on municipal drainage works amounted to Rs. 6,22,015 in 1922. There was no improvement in the general financial position of Government or of the local bodies, and the progress with the execution of sanitary engineering schemes was in consequence hampered.

In 1921 Government (Ministry of Local Self-Government) appointed a committee to enquire into the question of the water-supply of the riparian municipalities on the east bank of the river Hooghly. The committee submitted their report in 1922, and recommended the adoption of cheaper water-supply schemes, based on tube-wells, for the towns lying to the north of Calcutta. Several schemes have accordingly been prepared by the Chief Engineer, Public Health Department, and it is expected that, as soon as funds are available, some at any rate of these schemes will be undertaken by the municipalities concerned. A second committee was appointed during the year to enquire into the question of the water-supply of the municipalities on the west bank of the river, and their report is awaited. Enquiries are being made as to whether tube-wells will be found suitable as sources of water-supply in other municipal towns.

Tube-wells furnish a generally reliable and a comparatively inexpensive source of water-supply. The Minister accordingly hopes that chemical constituents of the water causing brackishness in isolated instances will not stand in the way of an extensive adoption of this method of water-supply, particularly by small municipalities which cannot afford a more expensive system of water-works.

Personal.—The Minister for Local Self-Government desires once more to record his appreciation of the very valuable work done by Dr. C. A. Bentley in his capacity as Director of Public Health, and of the efficient management of the engineering branch of the Public Health Department by the Chief Engineer, Mr. G. B. Williams, during the year under report. Dr. Bentley has presented the public health problems of the province with singular lucidity and has produced a report which will be of absorbing interest alike to sanitarians, medical men, and the general public. The interesting graphs which constitute a new feature in this year's report have considerably added to its value.

The Minister also desires to thank the other officers of the department whose services have been brought to the notice of Government. As the rousing of the sanitary conscience of the people is a most important factor in fighting disease, the Minister appreciates the services of Mr. K. P. Ray, publicity officer of the department of Public Health, and hopes that an improvement in the financial situation will make it possible to strengthen the publicity staff in the near future.

Thanks are also due to the Sanitary Board for advising on a number of sanitary schemes submitted by local bodies.

Among voluntary workers the names of Rai Bahadur Gopal Chandra Chatterjee, M.B., Secretary of the Central Co-operative Anti-malaria Society, Limited, and of Dr. D. N. Maitra, Secretary of the Bengal Social Service League, deserve prominent mention.

The Minister takes this opportunity of recording his thanks to both these gentlemen for their indefatigable services in the cause of public health in the province.

By order of the Government of Bengal,

(Ministry of Local Self-Government),

Secretary to the Government of Bengal (offg.).

Second Forecast of the Wheat Crop of Bengal, 1923-24.

[NOTE.—On an average of the five years ending 1921-22, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1921-22, averaged (a) 44·8 and (b) 18·2 per cent., respectively.]

Character of the season.—The rainfall in September and October was sufficient for the field operations and for the sowings which began in the usual time. Slight showers during the first half of November helped the germination for a while, but subsequent continued drought during December seriously interfered with the growth of the crop. Slight rainfall in January has not generally been beneficial. On the whole the season has been unfavourable.

Area sown.—According to District officers' estimates, the total area sown was 120,200 acres this year against 124,800 and 124,400 acres respectively in the corresponding and final forecasts of last year.

Outturn.—From the District officers' estimates the provincial outturn works out at 63 per cent. of the normal against 74 and 75 per cent. reported respectively in the corresponding and final forecasts of last year.

Second Forecast of the Spring Oilseed Crops of Bengal, 1923-24.

(NOTE.—On an average of the five years ending 1921-22, the area under linseed in Bengal has represented some 6·4 per cent. and that under rape and mustard 17·5 per cent. of the total area under these crops in British India.)

Character of the season.—As indicated in the first forecast, conditions were favourable in the beginning of the season, but subsequent drought has reduced the outturn in most of the important districts.

Area sown.—Oilseeds are grown chiefly in the Rajshahi, Dacca and Presidency Divisions, the other two divisions contributing little. The total area under these crops (excepting sesamum, for which separate forecasts are issued) is returned at 881,300 acres this year, as against 904,600 acres and 905,400 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—From the District Officers' estimates, the provincial outturn of the different oilseed crops works out at 73 per cent. of the normal as against 78 per cent. reported in the corresponding and final forecasts of last year.

[Sixth publication.]

NOTIFICATIONS.

No. 81.—The 28th January 1924.—The following draft of revised rules and rates of tolls for the Calcutta and Eastern Canals, Tolly's Nala and Sundarbans Steamer Route, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in supersession of all previous notifications on the subject, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 20th March 1924, and any objections or suggestions received by the undersigned before that date will be considered :—

Draft Revised Rules and Rates of Tolls.

The rules shall apply to the following navigable channels which are included under the designation " Calcutta Canals and Tolly's Nala " and the " Sundarbans Steamer Route."

I. The Circular Canal comprising the still-water canals between the Dhapa and Chitpore Locks and the New Cut Canal from Ultadingi to Dhapa Lock, together with its junction with the river Hooghly and Orange Soorah at Dhapa.

II. The Central Lake Channel from its junction with the Circular Canal at the Dhapa Lock to its junction with the Bidyadhari at Bamunghatta.

III. The Nowbhanga khal extending northwards for a mile from its junction with the Central Lake Channel below the Dhapa Lock.

IV. The Soorah from its junction with the Central Lake Channel below the Dhapa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhapa Inspector's residence.

V. Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Bidyadhari river at Samukpota.

VI. The Kristopore Canal extending from a point in the New Cut Canal, 1 mile 4,700 feet from the Chitpore Lock to a point where it joins the Bhangore khal at Kantatala.

VII. The outfall channel of the Thakurdhari sluice, 4,180 feet in length, extending from a point in village Thakurdhari near the 5th mile-post of the Kristopore Canal to the Thakurdhari sluice on the Paran Chaprasi's khal.

VIII. The Sundarbans Steamer Route as defined in notification No. 71 of the 22nd July 1922.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, the persons appointed by the Governor in Council to collect tolls and officers to whom such persons are subordinate shall have authority to enter upon and again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build, including *saltees* and *hapars* (fish cages).

Class II.—To include all steamers, flats and barges, and other square built vessels.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches : the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D.—**Saltees.**—The product of one quarter of the inside length of the vessel measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.—

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way-bills, the gross maundage of cargo shown by the way-bills, or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which toll will be charged :

Provided that firms or individuals, who wish to make use of this rule, must be approved by the Superintending Engineer of the Southern Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed: Provided that the Superintending Engineer of the Southern Circle may at his direction permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a sum of one rupee and annas eight. Provided that for tickets on which the total tollage is less than six rupees the fee to be charged for a duplicate shall be one quarter of the total tollage. The minimum fee will be eight annas per ticket.

7. A vessel which has been detained under these rules or under section IX of the Act may not be removed from the canals without the order of the collector of tolls until the toll due has been paid and a ticket obtained for presentation at the exit station. During such detention the manjee, owner or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those specially exempted under any Government orders in force for the time being.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the supervisor appointed by the Governor in Council under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank. No vessel may be launched in the canal without the previous written permission of the supervisor.

10. At places where mooring posts have been provided by the supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the supervisor may direct and shall not be moored in any other manner.

11. The Superintending Engineer, Southern Circle, may fix the limit within which vessels are permitted to remain free of toll, and may also define the limits within which no loading or unloading shall be permitted.

12. No vessel whose extreme breadth including overhanging cargo exceeds 35 feet will be permitted to enter the locks at Chitpore or Dhapa: in the case of the Kulti and Bamunghatta Locks the maximum width allowable is 29 feet.

13. The supervisor may, by written notices to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the supervisor, and no vessel shall be made fast or be placed outside of vessels so secured. No vessel or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels. Every vessel shall at all times have some responsible person on board when the vessel is within the locked canals between toll stations or on Tolly's Nala.

15. Vessels passing through the canals shall keep in separate lines, in accordance with the rules in force as laid down by the Superintending Engineer, Southern Circle from time to time.

16. No person shall deposit goods of any description on the berms of the canals between the frontage roads or towpaths and the canals, except during the actual process of loading or unloading vessels, without the previous permission of the supervisor.

17 Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle irons so as to prevent them from causing damage to the lock.

18. No fire or open or unprotected light of any description shall be used on vessels containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals. No vessel which is obviously overloaded or unseaworthy will be permitted to proceed along any part of the canals until made safe to the satisfaction of the supervisor or his staff.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take immediate steps to remove the same.

21. When a sunken vessel has been recovered, the supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo; should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section IX of the Act.

22. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canals on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered or when, any laden vessel has been seized under the provisions of the Act, or of these rules, the supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 23 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal or Kristopore Canal within toll limits.

26. **Lights and signals.**—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light properly protected from the weather on the forepart of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

27. **Speed of vessels.**—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

28. For any contravention of rules 7, 11, 13, 14, 15, 16, 18, 19, 25, 26 and 27 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

29. No boats will be allowed to remain in the entrance channels to the Dhapa and Chitpore Locks.

30. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

Orders and Notifications by the Government of India.

Secretary to the Government of Bengal (offg.).

NOTIFICATIONS.

ESTABLISHMENTS.

Delhi, the 1st March 1924.

No. F.-868—22.—The following reprint of the rules relating to premature retirement on proportionate pension, which were made on the 15th January 1924 by the Secretary of State in Council, in virtue of the powers conferred on him by section 96-B (2) and (3) of the Government of India Act, in which certain verbal inaccuracies contained in the version of the rules published in the *Gazette of India*, dated the 19th January 1924, have been corrected, is published for general information.

2. The rules are in the main a reproduction in the form of Statutory rules of existing orders. Apart from amplifications and clarifications, the only changes of substance made in those orders are the following :—

(*i*) It has been made clear that the rules apply to members of the services specified however and wherever they were appointed, but that previous service in a provincial or subordinate service cannot be counted for proportionate pension by officers promoted from such a service to an all-India service. (Second Schedule, paragraph 1).

(*ii*) Passage-gratuity is made admissible to officers who retired as the result of an application submitted while they were on leave out of India, if their leave commenced before the date of the issue of these rules. After that date passage-gratuity will—as was originally intended—be admissible only to an officer whose application is submitted while he is on duty in India. (Rule 3 (2).)

(*iii*) Provision has been made for the refund by instalments of passage-gratuity paid to officers who are subsequently permitted to return to duty. (Rule 11 (8).)

(*iv*) Conditions have been prescribed under which acceptance of further employment under the Crown may involve suspension or reduction of proportionate pension. (Rule 9.)

(*v*) The arrangements admissible in respect of family pensions of officers of the Indian Army in civil employ have been prescribed. (Rule 13.)

PREMATURE RETIREMENT ON PROPORTIONATE PENSION.

Rules under Section 96-B (2) and (3), Government of India Act.

1.—(1) These rules may be called the Premature Retirement Rules.

(2) They shall be deemed to have come into force in respect of officers serving elsewhere than in Burma on the 8th November 1921, and in respect of officers serving in Burma on the 2nd January 1923.

2. Any officer whose active service as a member of one of the services specified in the First Schedule commenced before the 1st January 1920, and who is not permanently employed directly under the Governor-General in Council, may be permitted by the Secretary of State in Council to retire under these rules :

Provided that no officer of the Indian Army in civil employ who has not been placed on the supernumerary list, and no officer of the Indian Medical Service who has completed less than 17 years' total service, shall be eligible to retire under these rules unless the competent military authorities are unable or unwilling to absorb him in military employment.

3.—(1) Every application for such permission shall be addressed in the first instance to the Local Government under which the officer is employed, and shall be accompanied by the following declaration, which shall be signed by the applicant :—

"In view of the changes in the conditions of my service occasioned by the Government of India Act, 1919, I desire to retire on the terms set forth in the rules relating to premature retirement."

(2) An application under this rule may be submitted by an officer while he is on leave out of India, and in that case, unless the Local Government considers his return to duty necessary before his application can be considered, the rules shall apply to him in the same manner as if his application had been submitted while on duty :

Provided that an officer who has made an application under this rule while he is on leave out of India and whose application is sanctioned by the Secretary of State in Council before his leave expires shall not, unless his leave commenced before the *19th January 1924*, be eligible for the gratuity described in Rule 11, except to the extent admissible under sub-rule (*6*) of that rule.

4. On receipt of an application the Local Government shall forward it with their recommendations to the Governor General in Council, who shall transmit it with his recommendations to the Secretary of State in Council for orders.

5. An officer who has been permitted by the Secretary of State in Council to retire under these rules, or whose application has been forwarded by the Local Government to the Governor General in Council with a recommendation that his retirement be sanctioned, shall, unless the Local Government sees reason to the contrary, be permitted to avail himself, in anticipation of his retirement, of the full amount of leave which is due to him and which may be granted to him at one time (otherwise than on medical certificate) under the regulation for the time being in force and applicable to him :

Provided that if the Local Government considers that leave in anticipation of retirement should not be granted, or that less than the full amount of leave available under regulations for the time being in force should be granted, the proposal to withhold or reduce the leave applied for shall be submitted with the reasons therefor for the orders of the Secretary of State in Council.

6.—(1) The Local Government shall have discretion to fix the date on which leave granted under Rule 5 shall commence :

Provided that an officer who has been granted by the Secretary of State in Council permission to retire under these rules shall not be detained in India beyond the date on which he desires to leave, unless his detention cannot be avoided without prejudice to the public interest.

(2) If the Local Government considers that suitable arrangements cannot be made for the relief of any officer at the date on which he desires to proceed on leave preparatory to retirement under these rules, it may, when forwarding his application to the Governor General in Council, recommend that the Secretary of State in Council should postpone the grant of permission, and in that case shall specify the period during which such postponement should extend.

7. An officer who has submitted an application for permission to retire under these rules, and has been granted leave under Rule 5, shall not be at liberty to cancel his application and to return to duty without the consent of the Local Government under which he was employed.

8.—(1) An officer who has submitted an application for permission to retire under these rules may be permitted to take up other employment during the currency of his leave preparatory to retirement.

(2) Such permission may be granted by the Governor General in Council if the proposed employment lies in India, and by the Secretary of State in Council if the proposed employment lies elsewhere than in India :

Provided that an officer who has been granted permission to take up employment under this rule shall be precluded, save with the specific consent of the Secretary of State in Council, from withdrawing his request for permission to retire and from returning to duty in India.

(3) The Secretary of State in Council and the Governor-General in Council, as the case may be, hereby reserve to themselves the right to withhold permission to take up employment under this rule in cases where the employment appears to them to be such as could not with propriety be held by a person who is still in the service of the Crown in India; or alternatively, to grant the desired permission in any such case subject to such conditions or restrictions as they may think necessary.

9.—(1) The right of any officer to receive or retain a pension under the provisions of these rules is subject to the right of the Secretary of State in Council—

(*a*) to reduce or withhold any pension, if the past service of the applicant is not approved, or if the pensioner after retirement is convicted of serious crime or is guilty of grave misconduct; and

(*b*) in cases where an officer obtains, prior to, or within two years from, the date of his retirement under these rules, other employment under the Crown, to suspend payment, wholly or in part, while the officer continues to be employed under the Crown, or the proportionate pension admissible under these rules.

(2) In cases where a proportionate pension is suspended wholly or in part under clause (*b*) of the preceding sub-rule, the services of the officer shall be transferred to the authority under which he is to be employed, on the understanding that on the termination of his employment under the Crown he shall have the option of receiving either (i) a pension in respect of his total service calculated under the rules made by the Treasury under section 7 (*1*), Superannuation Act, 1909, or (ii) a proportionate pension under these rules in respect of his Indian service together with such pension or pensionary award (if any) as he may earn under the rules of the authority re-employing him, in respect of his services under that authority:

Provided that if the department employing the officer does not consent to a pension calculated under the said Treasury Rules, or if the said Treasury Rules are inapplicable, the services of the officer shall be transferred on the understanding stated in the second alternative in the preceding paragraph.

(3) For the purposes of this rule, the expression "employment under the Crown" shall be deemed to include employment under the Governments of Crown Colonies, Protectorates, and territories mandated to the British Government, but does not include employment under the Government of a self-governing Dominion or a State in India, or under a Local Authority.

(4) A proportionate pension shall not be liable to suspension either wholly or in part under sub-rule (*1*) (*b*) of this rule unless the proportionate pension, when combined with the initial pay of the officer in his new appointment, would exceed the initial pay which he might have received under Rule 51 of the Fundamental Rules if his new employment had been on deputation from India.

10. Subject to the provisions of Rule 9, an officer who is granted by the Secretary of State in Council permission to retire under these rules shall be entitled, if he has completed less than five years' total service, to a gratuity equal to one month's pay (at the rate drawn by the applicant while last on duty before his retirement), multiplied by the number of completed months of total service at the officer's credit and divided by 12, and converted at the rate of 1*s*. 9*d*. per rupee; and, if he has completed five years' total service, to a pension of the amount shown in the Second Schedule.

11.—(1) In addition to the pension or gratuity referred to in Rule 10, any officer who has been permitted to retire under these rules (other than an officer who is entitled to the pension specified in the Second Schedule as the maximum pension admissible under these rules to the service to which he belongs, and when more than one method of calculating a pension is prescribed, for the method of calculating the pension actually adopted), and who proceeds on retirement or on leave preparatory to retirement to some part of the British Empire intending to settle there permanently, shall, subject to the provisions of Rule 3 (2), be entitled to receive a gratuity equal to the cost of first-class fares and passages from the last place of his employment in India to his destination for himself, and for his wife and children if they were in India at the time of his proceeding on leave preparatory to retirement.

(2) For purposes of payment of this gratuity to officers proceeding to or *viâ* the United Kingdom, first-class fares and passages, in the case of officers last employed in India, excluding Burma, shall be first-class steamer or railway fares to Bombay *plus* cost of first-class passage at B rates by the P. and O. Steam Navigation Company to London (all sea route); and in the case of officers last employed in Burma, first-class railway or steamer fares to Rangoon *plus* cost of first-class passage by the Bibby Line to London (all sea route): and in both cases, railway fares from London to destination. These rates are payable irrespective of the line or class by which an officer or his family travels.

(3) Payment of the gratuity (excluding that portion representing railway fares from London, which shall be paid by the High Commissioner) shall be made by the Local Government concerned before the officer leaves India.

(4) A Local Government may at its discretion sanction the payment of a gratuity calculated as in sub-rules (*1*) and (*2*) of this rule, but excluding the fares and passages of the officer himself, to the families of officers who are obliged by climatic or analogous reasons to leave later than the officer himself, or in advance of the officer but subsequent to the submission of his application to retire.

(5) An officer who applies in India for permission to retire and who is permitted to leave India in anticipation of the sanction of the Secretary of State in Council is eligible for the gratuity. In such cases, if the officer proceeds to the United Kingdom, the Local Government shall authorise the High Commissioner to make payment.

(6) Officers who apply to retire while on leave in England and whose families are in India at the time when their retirement was sanctioned by the Secretary of State in Council, shall receive a portion of the gratuity equal to the cost of first-class railway fares and passages for their families when the latter leave India.

(7) In no case shall a gratuity or any portion thereof be payable until the Secretary of State in Council has sanctioned the officer's retirement under these rules.

(8) The gratuity paid to an officer under this rule shall, in the event of his being permitted to return to duty in India, be refunded. Such refunds may be made by deductions of 36 equal monthly instalments from the officer's pay-bill, commencing with the first pay-bill drawn after return.

12.—(1) A member of the Indian Civil Service who retires under these rules may adopt at his option any one of the three following methods of retaining for his wife and children benefits admissible under the Indian Civil Service Family Pension Regulations, namely :—

(*a*) He may cease to make any contributions and payments under the regulations and shall then retain only the right to a proportion of the contingent benefits under the regulations for his wife and children existing on the date of retirement, and for any children subsequently born to that wife. This proportion shall be equal to the number of his completed years' total service divided by 25, and the calculation shall be based upon the pension admissible to the widow of an officer of the class to which he belonged at the time of his retirement.

(*b*) He may continue up to his 51st birthday to make contributions under the regulations at the rates payable by him at the date of retirement, and shall then retain the right to the full contingent benefits admissible under the regulations, according to his class on the date of his retirement, for his wife existing at the date of retirement, and for any children by her, whether born before or after retirement. Under this alternative subscriptions will be payable under the ordinary regulations for each child, whether born before or after retirement. In the event of the death of the wife, subscriptions at the bachelor rate appropriate to the subscriber's class on retirement will be payable until age 51.

(*c*) He may continue up to his 51st birthday to make contributions and payments under the regulations at the rates which would have been payable by him from time to time had he remained in the service. In that case he shall retain the full benefits admissible under the regulations as if he had remained in the service until death or retirement with an ordinary pension.

(2) The Secretary of State in Council shall make good to the Indian Civil Service Family Pension Fund under a suitable procedure any loss which may be estimated to be thrown upon it by the operation of this rule.

13.—(1) An officer of the Indian Army or of the Indian Medical Service who retires under these rules may select any one of the three following options with regard to his subscriptions under the Indian Military Service Family Pension Regulations or to the Indian Military Widows' and Orphans' Fund :—

(*a*) He may continue to subscribe at the half rate of subscription under article 28 of the Indian Military Service Family Pension Regulations or Rule 32 of the Indian Military Widows' and Orphans' Fund ; or if a married subscriber under the Indian Military Service Family Pension Regulations, he may withdraw, receiving the refund authorised by article 28. If he continues to subscribe he will retain the same rights to contingent benefits from the funds as if he had retired under the ordinary rules.

(b) He may cease to make any payments under the regulations except in so far as is provided by the last sentence of this clause, and shall then retain the right to contingent benefits at the rates admissible under the regulations to the widow and children of an officer of the class to which he belonged at the date of retirement, for his wife and children existing at that date, and for any children subsequently born to that wife. Under this alternative, any donation payable under the ordinary rules for any child born after retirement must, however, be paid by the officer if he desires to retain any right to continuance of benefits for any such child.

(c) He may continue up to his 55th birthday to make payments under the Regulations at the full rates applicable to the class which he would have attained had he remained in the service until that date, and thereafter at half rates according to the class in which he is then subscribing. Any donation becoming due after age 55 will be payable in full as in the case of ordinary retirements. His wife and children will in this case be eligible for the full benefits appropriate to the class in which he is subscribing at the date of death.

(2) The Secretary of State in Council shall make good to the Indian Military Service Family Pension Scheme or the Indian Military Widows' and Orphans' Fund, as the case may be, any loss which may be estimated to be thrown upon them by the operation of this rule.

(3) The family of a military officer or of an officer of the Indian Medical Service who retires under these Rules shall retain their contingent rights to pensions under the Royal Warrant if the officer had on retirement completed 20 years' service. If such an officer is permitted to retire under these Rules after completing less than 20 years' service the Secretary of State in Council shall, on the death of the Officer, grant, subject to conditions identical with those laid down in the Royal Warrant (other than the condition requiring an officer to have completed 20 years' service in order to entitle his widow or children to pensions)—

to his widow, a yearly pension of 70*l*. divided by 20 and multiplied by a figure corresponding to the number of years' total service completed by the officer at the date of his retirement; and

to each child, a pension of 16*l*. divided by 20 and multiplied by a figure as aforesaid or, in the case of a motherless child, a pension of 25*l*. divided by 20 and multiplied by a figure as aforesaid.

14. An officer awarded a proportionate pension may be permitted to commute a portion of his pension, not exceeding one-third of the whole, unless in the opinion of the sanctioning authority (the Local Government under which the officer was last employed for an officer who draws his pension directly or indirecly from Indian Treasuries, and the High Commissioner in all other cases) there are exceptional reasons for refusing sanction to the application in whole or in part. If the sanctioning authority considers that such reasons exist, the case shall be referred for the decision of the Secretary of State in Council.

15. An officer in Europe desirous of commuting shall make application in writing to the High Commissioner for India, stating his desire so to commute, and furnishing information as to his age and the reasons on which he bases his request. Permission to commute in sterling will not ordinarily be granted by the High Commissioner to an officer residing only temporarily out of India. Commutation in his case will ordinarily be dealt with by the authorities in India.

16. If the High Commissioner for India approves the commutation, the officer shall be so informed and his application shall be referred to the Medical Board at the India Office.

17. The Board shall require the officer to give such information as to his health and habits as is usual in the case of persons proposing to assure their lives in assurance companies, and he shall be required to submit himself for personal examination by the Board at the India Office.

18. NOTE 1.—*These rates are subject to modification by the Secretary of State in Council from time to time.*

NOTE 2.—*In order to ensure payment at the rate shown for any specified age, it is essential that the application to commute should reach the High Commissioner's Office at least one month before the date on which the applicant will attain that age.*

20. When commutation has been sanctioned by the High Commissioner the applicant shall be informed accordingly, and shall have the option of withdrawing his application within one week after receiving notice.

21. If the applicant does not withdraw his application within that period, the decision shall be considered final, the commutation of pension shall become absolute, and payment will be made forthwith, payment of the commuted portion of the pension thereupon ceasing.

22. The capitalised sum shall be payable in India if the commutation is affected there ; in all other cases it shall be payable in England. When commutation of a sterling pension is effected in India by officers residing temporarily in that country the commutation shall be on the basis of the current rate of exchange, the rate adopted being the rate of exchange for telegraphic transfers from Calcutta on London on the 20th of the month preceding that in which the capitalised sum is paid.

23. The commutation of the proportionate pension of an officer, who draws his pension directly or indirectly from Indian Treasuries, shall be governed by the rules contained in the Third Schedule.

SECOND SCHEDULE. (*See* Rule 10.)

1. (*a*) The letter 'N' in the following paragraphs shall be deemed to represent the number of years of active service in one or more of the services specified in the first schedule, or in a service which has been merged in one of those services, or in military employment, at the credit of an officer at the time of his retirement, plus one-twelfth for each completed month of such service in excess of the completed years.

Provided that previous military service of officers appointed during or after the Great War to one of the services specified shall not be counted as active service for the purposes of these rules:

Provided further that service rendered by an officer which would not be reckoned as qualifying service in calculating his ordinary retiring pension or annuity shall not be counted as active service for the purposes of these rules.

(*b*) Active service shall for this purpose be interpreted in the same way as active service for the purpose of pension in article 8 of the Civil Service Regulations, war leave being treated for the purpose of these rules as privilege leave.

(*c*) In the case of an officer who, before entering upon service in India, was employed under His Majesty's Government elsewhere than in India, and whose service elsewhere than in India has already been accepted as qualifying for a combined pension under the rules made by the Treasury under section 7 (*l*) of the Superannuation Act, 1909, the service elsewhere than in India which counts for such combined pension shall also be included in the period of active service.

2. Pensions expressed in rupees in this schedule shall be converted at the minimum rate of 1*s*. 9*d*. per rupee, subject to the conditions stated in Article 936 of the Civil Service Regulations, or in any rule which may be substituted therefor.

3. The pension admissible to an officer who is permitted to retire under these rules shall be as follows :—

Provided that whenever the sum of Rs. 10,666. 10. 8 exceeds 1,000*l*. in value, that sum shall be substituted for 1,000*l*. in both places where it occurs in this clause, and the pension shall be recalculated accordingly.

(*b*) To an officer of the Indian Army in civil employ, £$\frac{N}{28}$ × 800, subject to a maximum of 800*l*. a year :

Provided that the proportionate pension of an officer of the Indian Army in civil employ who is granted after the 19th January 1924 permission to retire under these rules shall be subject to revision, in the same manner as the ordinary maximum pension of 800*l*. of a Lieut.-Colonel of the Indian Army, in accordance with the provisions of Army Instruction, India, No. 448, dated the 29th June 1920.

(*c*) To an officer of the Indian Medical Service in civil employ—

(*i*) if of less than 17 years' total service, £$\frac{N}{14}$ × 400 subject to a maximum of 400*l*. a year ;

(ii) if of more than 17 years' total service, the pension admissible under ordinary regulations :

Provided that the proportionate pension of an officer of the Indian Medical Service in civil employ who is granted after the 19th January 1924 permission to retire under these rules shall be subject to revision, in the same manner as the ordinary pension of 400*l*. of an officer of the Indian Medical Service after 17 years' service for pension, in accordance with the provisions of Army Instructions, India, Nos. 442 and 448, dated the 29th June 1920.

(*d*) To all other officers (other than members of the Women's Branch of the Indian Educational Service) to whom these rules apply Rs. $\frac{N}{26}$ × 7,500, subject to a maximum of Rs. 6,000 a year ; provided that any officer referred to in this clause who has earned an additional pension under Article 475A of the Civil Service Regulations, whether he has or has not completed the 28 years' qualifying service required by that article, may at his option be granted in lieu of the pension specified in the said clause a pension calculated as follows, namely, Rs. $\frac{N}{26}$ × 6,000, subject to maximum of Rs. 6,000 a year *plus* any additional pension earned under Article 475A of the Civil Service Regulations, subject to an aggregate maximum of Rs. 8,500 a year.

(*e*) To members of the Women's Branch of the Indian Educational Service, Rs. $\frac{N}{23}$ × 5,000, subject to a maximum of Rs. 5,000 a year.

4. Any officer to whom the provisions of Articles 403, 404, and 404A of the Civil Service Regulations apply and who is permitted to retire under these rules shall be permitted to deduct from the divisors 26 and 22 in the fractions specified in clauses (*d*) and (*e*) of paragraph 3 of this schedule a number equal to the number of years which he would be entitled to deduct from his age if he were retiring on superannuation pension.

THIRD SCHEDULE. (*See* Rule 23.)

1.—(1) The rules contained in this Schedule apply only to pensioners drawing pensions directly or indirectly from Indian Treasuries.

(2) Pensioners residing in Colonies having an account-current with the Accountant-General, Central Revenues, who draw their pensions from the local Treasuries, the amounts being subsequently adjusted in the books of the Accountant-General, Central Revenues, shall be treated for the purpose of these rules as drawing their pension indirectly from Indian Treasuries.

2. Subject to the conditions stated in these rules, a Local Government may sanction the commutation for a lump payment of a portion not exceeding one-third of the proportionate pension which has been or is about to be granted to any officer serving in its jurisdiction.

3. The incidence of the commutation payment shall in all cases follow that of the pension, and the commuted amount shall be made payable at the Treasury at which the pension is being or is to be drawn. If a pensioner who has obtained commutation of a portion of his pension transfers himself thereafter to another province, a note shall be made on the Pension Payment Order as to the amount of pension which has been commuted.

4. Application for commutation shall be made in Form A appended to these rules.

5. (*a*) If on consideration of the facts stated in the application the Local Government decides to allow commutation, the applicant shall be required to produce a certificate as to his expectation of life, from a medical officer of standing not lower than that of a Civil Surgeon, District Medical Officer or Presidency Surgeon. The Local Government may further, at its discretion, require a second medical opinion or direct the applicant to appear before a Medical Board.

(*b*) The certifying Surgeon or Board shall subject the applicant to a strict medical examination, requiring him to give such information as to his health and habits as is usual in the case of persons proposing to assure their lives in assurance companies, and shall report in the following form :—

I/We have carefully examined ____________ and am/are of opinion that he is/is not in good bodily health and has/has not the prospects of an average duration of life.

I/We, therefore, do/do not recommend compliance with his application to be allowed to capitalise a portion of his pension.

In the case of impaired lives in which compliance with the officer's application is recommended, but with an addition of years of age, the following shall be added :—

" but as he is suffering from ________ his age, for purposes of commutation, should be taken to be ________ years.'

(*c*) The applicant shall himself pay the medical officer's fee for examination except when a second medical opinion is required or the applicant is directed to appear before a Medical Board.

6. The lump sum payable on commutation shall be the amount certified by the Audit Officer to be admissible according to the table of present values appended to this Schedule. This amount may be intimated at the discretion of the Local Government to the applicant for definite acceptance or rejection, within a specified period before final sanction to commutation issues.

7. Commutation, when sanctioned, shall take effect from a date, to be named in the order, which shall ordinarily be one month later than the date of the order; and all calculations shall be made with reference to that date. Payment of the commuted portion of the pension will cease from the date specified and the sum payable on commutation will be paid on that date or as soon afterwards as possible.

8. A commutation once applied for, sanctioned and given effect to, shall not be rescinded, that is to say, the portion of a pension commuted shall not be restored on refund of its capitalised value.

9. If a pensioner whose pension has been commuted dies on or after the date from which the commutation is to take effect under Rule 8, but before he receives the commutation value, this value shall be paid to his heirs.

10. In the case of a pensioner who is re-employed in Government service or in the service of a Local Fund, and who commutes a portion of his pension before or after such re-employment, the amount which the pensioner is entitled to draw under the rules in Chapter XXI of the Civil Service Regulations shall be the amount to which he would have been entitled under those rules had there been no commutation, less the amount commuted.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February 1924 :—

No. 3 OF 1924.

A Bill further to amend the Indian Income-tax Act, 1922, for certain purposes.

WHEREAS it is expedient further to amend the Indian Income-tax Act, 1922, for certain purposes hereinafter appearing ; It is hereby enacted as follows :— XI of 1922.

Short title and commencement.

1. (*1*) This Act may be called the Indian Income-tax (Amendment) Act, 1924.

(*2*) Sections 3, 4, 5 and 9 shall not come into force until the first day of April 1924.

Amendment of section 3, Act XI of 1922

2. In section 3 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), for the words " individual, company, firm and Hindu undivided family " the words " individual, Hindu undivided family, company, firm and other association of individuals " shall be substituted. XI of 1922.

Amendment of section 4, Act XI of 1922.

3. In clause (*iv*) of sub-section (*3*) of section 4 of the said Act, the words " or any Provident Insurance Society to which the Provident Insurance Societies Act, 1912, is, or, but for an exemption under that Act, would be, applicable " shall be omitted. V of 1912.

Amendment of section 15, Act XI of 1922

4. In sub-section (*1*) of section 15 of the said Act, the words " or to any Provident Fund which complies with the provisions of the Provident Insurance Societies Act, 1912, or has been exempted from the provisions of that Act " shall be omitted. V of 1912.

Amendment of section 25, Act XI of 1922.

5. In section 25 of the said Act—

(*a*) In sub-section (*1*) for the words and figures "commenced after the 31st day of March 1922," the words and figures "on which income tax was not at any time charged under the provisions of the Indian Income-tax Act, 1918" shall be substituted ; and VII of 1918.

(*b*) in sub-section (*3*) the words "which was in existence at the commencement of this Act, and" shall be omitted.

Amendment of section 55 Act XI of 1922.

6. In section 55 of the said Act, for the words "individual, unregistered firm, Hindu undivided family or company" the words "individual, Hindu undivided family, company, unregistered firm or other association of individuals, not being a registered firm," shall be substituted.

Amendment of section 56, Act XI of 1922.

7. In section 56 of the said Act, for the words "individual unregistered firm, Hindu undivided family or company" the words "individual, Hindu undivided family, company, unregistered firm or other association of individuals" shall be substituted.

Amendment of section 63, Act XI of 1922.

8. In sub-section (*2*) of section 63 of the said Act, after the words "in the case of a firm or" the words "other association of individuals not being a company or in the case of," and after the word "firm" the words "or association" shall be inserted.

Amendment of section 66, Act XI of 1922.

9. In sub-section (*3*) of section 66 of the said Act, after the words "the assessee may" the words "within one month from the date of the refusal" shall be inserted.

Retrospective effect.

10. The amendments made in the said Act by sections 2, 6 and 7 shall have effect as if they had been made on the first day of April 1923, and income-tax and super-tax shall be deemed to have been chargeable for the year commencing on the date in respect of the income, profits and gains and of the total income, respectively, of the previous year of every association of individuals, not being a company or a registered firm, at the rate or rates applicable for that year to the total income of an individual.

STATEMENT OF OBJECTS AND REASONS.

The Income-tax Act, 1922, does not provide for the assessment of the income profits or gains of an Association or Club which is neither a Company nor a firm nor a Hindu undivided family. This is an omission as it was always intended to tax Associations or Clubs. Clauses 2, 6, 7 and 8 of the Bill give effect to this intention, while clause 10 validates assessments made during the current year.

2. The Provident Insurance Societies Act, 1912, was never intended to apply to the Provident Funds of private companies and firms, but in certain provinces such Funds have been exempted from the provisions of that Act, with the result that they enjoy the concession given by sections 4 (*3*) (*iv*) and 15 (*1*) of the Income-tax Act, 1922. As it was never intended to grant this concession to private Provident Funds, it is proposed to omit all references to Provident Insurance Societies from sections 4 (*3*) (*iv*) and 15 (*1*) of the Act.

3. There is no provision in the Act for the assessment of a business, profession or vocation which was in existence at the commencement of the Act but on which no tax was charged at any time under the provisions of the Income-tax Act, 1918 (VII of 1918). Clause 5 of the Bill rectifies this omission.

4. At present there is no period within which an assessee should apply to the High Court for the issue of a *mandamus* under section 66 (*3*) of the Act, with the result that applications are occasionally made several months after the Commissioner has refused to state the case to the High Court. Clause 9 of the Bill prescribes a period within which such applications should be made.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 6th February 1924:—

No. 5 OF 1924.

A Bill further to amend the Indian Tariff Act, 1894, for certain purposes.

WHEREAS it is expedient further to amend the Indian Tariff Act, 1894, for certain purposes hereinafter appearing; It is hereby enacted as follows:— VIII of 1894

Short title and commencement.

1. (*1*) This Act may be called the Indian Tariff (Amendment) Act, 192 .

(*2*) It shall come into force on the 1st day of April, 1924.

Amendment of preamble to Act VIII of 1894.

2. In the preamble to the Indian Tariff Act, 1894 (hereinafter referred to as the said Act), for the words "crossing the frontier of certain Foreign European Settlements in India and of the territories of certain Native Chiefs" the words "imported into or exported from British India by land" shall be substituted. VIII of 1894

Substitution of new section for section 5, Act VIII of 1894.

3. For section 5 of the said Act the following section shall be substituted, namely:—

Duties on imports and exports by land

"5. Where a duty of customs of any rate prescribed by or under this Act or any other law for the time being in force is leviable on any article when imported into, or any article when exported from, a port in British India, the Governor General in Council may, by notification in the *Gazette of India*, direct that a duty of customs at the like rate shall be leviable on any such article when imported or exported, as the case may be, by land from or to any territory outside British India, which he may, by a like notification, declare to be foreign territory for the purposes of this section."

Amendment of section 8, Act VIII of 1894

4. In section 8 of the said Act, the words, figure and brackets "sub-section (*1*), clause (*b*)," shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

It has come to notice that matches, cigarettes, etc., on which import duties are leviable when imported by sea are being brought into India in considerable quantities over certain land frontiers. The Government of India have not at present power to levy duties on articles following these land routes as the Indian Tariff Act, 1894 (VIII of 1894) only authorises the levy of duty on goods crossing the frontier of certain Foreign European Settlements in India and of such territory of any Indian Chief as is declared to be foreign territory for the purposes of section 5 of that Act. The object of this Bill is to revise this Act to enable the Government of India to levy customs duties on any articles imported or exported, as the case may be, by land from or to any territory outside British India which is declared to be foreign territory for the purposes of the Act.

STATEMENT OF OBJECTS AND REASONS.

The Indian Retrenchment Committee, 1922-23, in paragraph 19 of Part IV of their Report recommended that, in order to free the Government of India Secretariat proper from the functions of detailed administrative control exercised by it in the past, the scope of the present Board of Inland Revenue should be enlarged to include Customs Salt, Opium and also Excise and Stamps, so far as the Central Government was concerned with these subjects.

The Government, with the approval of the Secretary of State, have decided to adopt this recommendation, and to constitute a Central Board of Revenue in which the Board of Inland Revenue created by the Indian Income-tax Act, 1922, will be merged.

The present Bill is designed to provide for the constitution of such a Board on a statutory basis, to transfer to it the functions of the Board of Inland Revenue under the Income-tax Act, and also to appoint it as the Chief Customs-authority under the Sea Customs Act, 1878. The Bill further provides for the transfer to the Central Board of Revenue of most of the powers and duties assigned by the Sea Customs Act to Local Governments. This centralization of the administration of the Customs Department is a natural consequence of the clearer delimitation under the Reforms Scheme of the respective spheres of the Central and Provincial Governments, and this concentration of authority in the hands of an administrative body in close touch with the Departments of the Government of India will render it possible to give the desired relief to the Secretariat.

The Bill reserves to the Governor General in Council power to transfer to Local Governments any of the functions of the new Chief Customs-authority, and this power will be exercised in regard to certain minor Customs Ports, and to the administration of the Cotton Duties Act, 1896, except where the working of that Act is in the hands of Customs-officers

Amendments of minor importance consequential upon the centralization of the Customs Department are also proposed to be made in two other Acts by the present Bill.

REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR 1922-23.

CHAPTER I.

Introductory.

Institutions and pupils.

The report describes briefly the progress of education in Bengal for the year ending the 31st March 1923. The number of recognised and unrecognised institutions including University classes and Intermediate Department of the Eden High School, Dacca, rose from 53,770 to 54,162 (41,465 for males and 12,697 for females) or by 392; and pupils attending them from 1,892,153 to 1,950,929 or by 58,776. Recognised institutions increased in number from 51,930 to 52,864, while unrecognised institutions fell from 1,840 to 1,298. Pupils reading in recognised institutions rose from 1,836,716 to 19,06,225 or by 69,509, but in unrecognised institutions the numbers fell from 55,437 to 44,704. The increase of pupils in recognised institutions indicates a recovery from the effect of the recent political agitation on colleges and schools; the decrease in the number of pupils in unrecognised intitutions may be attributed partly to the prevailing economic distress and partly to the growing unpopularity of the schools themselves. Of the total number of pupils in all classes of institutions, 1,602,134 were males and 348,795, females; the number of males and females in the preceding year were 1,543,571 and 348,582, respectively.

Different classes of recognised institutions.

2. The number of recognised institutions on 31st March 1923 included 53 (including university classes) arts and professional colleges; 933 high schools; 1,718 middle schools; 47,688 primary schools and 2,472 special

schools. The corresponding numbers on 31st March 1922 were 49,912; 1,766; 47,783 and 1,420 respectively. Of the recognised institutions 385 were managed by Government and 3,345 by District and Municipal Boards; while 41,843 were aided and 7,291 unaided. In the preceding year the corresponding figures were 386; 3,230; 41,545 and 6,769.

Expenditure on public instruction.

3. The total expenditure on public instruction amounted during the year under review to Rs. 3,31,42,296 compared with Rs. 3,33,87,106 in the year preceding. Towards the total expenditure Provincial Revenues contributed Rs. 1,31,62,947; the contributions from District and Municipal funds amounted to Rs. 15,05,271 and Rs. 3,32,830, respectively; while Rs. 1,28,42,355 and Rs. 52,98,893 came from fees and other private sources. The corresponding figures for the previous year were Rs. 1,35,45,045; Rs. 14,11,184; Rs. 2,42,713; Rs. 1,28,33,684; and Rs. 53,54,480. Thus expenditure increased under all heads except Provincial Revenues and other sources.

Noteworthy features of the period under review.

4. From the administrative point of view the year has been eventful. The drastic proposals made by the Bengal Retrenchment Committee for reducing expenditure on education struck a new note which alarmed many. With these proposals before them Government surveyed the situation and decided to effect some reduction in the staff of Government High schools, to abolish some old-type guru-training schools, and to hand over a number of circle schools (with reduced status) to local bodies with suitable grants. There have been the now usual financial difficulties. The allotment for travelling allowance was curtailed and the touring work of inspecting officers was suspended for about two months towards the close of the year. As a result many schools remained unvisited. A time-scale of pay was introduced for ministerial officers employed in the Education Department. In the sphere of primary education, the attempts made by the Department to establish in certain areas central free primary schools as suggested in Mr. Biss's reports evoked a temporary flicker of interest to which the introduction of the revised curriculum in January 1923 contributed.

CHAPTER II.

Controlling Agencies.

The Indian Educational Service. (i) Men's Branch.

On the 31st March 1922 the Men's cadre of the Indian Educational Service consisted of 67 appointments (including 3 posts in the higher selection grade, 10 in the lower, and one on a special rate of pay for the Principal of the Government School of Art). During the year under review the post of headmaster of the Victoria School at Kurseong, which was previously outside the graded services, was included in the Indian Educational Service with effect from the 29th January 1923. Thus the total number of appointments on 31st March 1923 was 68. During the year under review 3 officers, viz., Messrs. F. C. Turner, E. E. Biss and J. A. Taylor proceeded on leave preparatory to retirement on proportionate pension.

(ii) Women's Branch.

On 31st March 1922 the number of appointments (including 1 in the selection grade) in the Women's cadre of the Indian Educational Service was 4. No change was made in the cadre during the year under review.

The Bengal Educational Service. (i) Men's Branch.

2. On 31st March 1922 the number of appointments in the Men's Branch was 211—206 permanent and 5 temporary. During the year under review 1 of the 5 temporary posts was made permanent and 2 new posts —1 permanent and 1 temporary—were added to the cadre. Thus the total strength on 31st March 1923 was 213 appointments (208 permanent and 5 temporary).

(ii) Women's Branch.

On 31st March 1922 the Women's cadre of the Bengal Educational Service consisted of 20 appointments; no change was made in it during the year under review.

Subordinate Educational Service.

3. During the year ending 31st March 1922 the services below the Bengal Educational Service were reorganised on a time-scale basis on varying rates of pay. During the year under review 15 posts were added to the cadre and 13 abolished. The total number of appointments in the Subordinate Educational Service on 31st March 1923 was thus 2,003 against 2,001 on the corresponding date of the year preceding.

4. Officers holding appointments outside the grades of the Subordinate Educational Service were also placed on a time-scale of pay with effect from 1st September 1921, and were divided into 4 main categories, viz., Teaching, Inspecting, Ministerial and Miscellaneous, according to the nature of work performed by them. Including the office establishment of the Director of Public Instruction and the Assistant Director of Public Instruction for Muhammadan Education, for which the time-scale of pay was introduced with effect from 1st January 1922, there were 477 appointments on 31st March 1923 against 478 on the corresponding date of the previous year. **Posts outside the Educational Services.**

5. During the period under review there was no change in the number of the directing staff of the Department. The Director continued to be assisted by the two Assistant Directors, one of whom did the special work relating to Muhammadan education. Mr. W. W. Hornell, the permanent Director of Public Instruction, returned from leave in November 1922 and assumed charge of the Department. Mr. E. F. Oaten, Assistant Director of Public Instruction, was on leave during part of the year under report, his duties being performed by Mr. J. M. Bottomley and later by Mr. J. A. Taylor. Mr. J. A. Taylor, Assistant Director for Muhammadan Education, proceeded on leave preparatory to retirement on October 16th, 1922. Mr. E. E. Biss performed the duties of the post for a short period, after which he also took leave preparatory to retirement. Mr. J. M. Bottomley then assumed officiating charge of the post. Since February 1923 Mr Bottomley, who has been appointed officiating Principal of the Calcutta Madrasah, has performed the duties of Assistant Director of Public Instruction for Muhammadan Education in addition to those of Principal of the Madrasah. **Direction.**

6 The subjoined table shows the strength of the inspecting agency on 31st March 1923 :—

CHAPTER III.

University and Collegiate Education.

1. The Arts and Science classes of the Post-graduate Department of Calcutta University had 881 and 170 students, respectively on the rolls on 31st March 1923. The reform of Calcutta University has not yet got beyond the conference stage, in spite of the fact, that a Bill was drafted by Government during the year. **Universities.**

The Dacca University had 838 (including 10 research students), students in the Arts and Science classes on 31st March 1923. This has been the first University in India to afford facilities of practical training to psychology students. Extension of the Muslim Hall and the chemical laboratory was effected during the year under review, and a new science library and a hostel for Anglo-Indian students have been provided. Students are beginning to appreciate the value of the new methods of intellectual training, of the residential system, and of the unrivalled facilities for athletics and social organisations provided for them at Dacca.

Board of Intermediate and Secondary Education, Dacca.

2 The Board was appointed in the first instance until 30th June 1922. Its term was then renewed for another year, viz., until the 30th June 1923. Besides controlling Intermediate Colleges and High schools in the town of Dacca, the Board have been entrusted with the work of conducting Islamic examinations (Intermediate and Matriculation) for the whole province. This work was previously done by the office of the Director of Public Instruction, Bengal, with the assistance of an Advisory Board. The Board have opened two vocational courses in dyeing and commerce at the Jagannath Intermediate College; these courses are said to be very popular.

Arts Colleges.

3. On the 31st March 1923 there were 34 arts colleges for men, and four (including the Intermediate classes of the Eden High English School, Dacca) for women, with 19,460 students against 16,942 on the corresponding date of the preceding year. The number of students therefore rose by 2,518; a sign that the non-co-operators' attempt to boycot colleges has failed for the time at any rate. The arts colleges cost altogether Rs 28,26,146 as compared with Rs. 26,51,435 in the year preceding Of the total number of arts colleges nine were maintained by Government, one was under municipal management. 15 were aided and 13 unaided. During the year under review each college cost Rs. 74,372 on an average. The average cost of educating a student in an arts college amounted to Rs. 145-3-8, of which Rs. 59-13-4 was borne by Provincial Revenues.

Arts Colleges for men.

Number of colleges.

4. The number of arts colleges for men stood at 34 as compared with 33 in the previous year, the increase being due to the opening of the second grade college at Feni from the commencement of the session 1922-23. Of these, seven were managed by Government, one by a Municipal Board, and 26 by private associations.

Number of students.

5. Students in arts colleges for men rose from 16,741 to 19,219; of these 16,169 were Hindus and 2,589 Muhammadans, while 461 came from other communities. The corresponding figures for the preceding year were 14,260; 2,173; and 308 respectively.

Expenditure.

6. The total cost of maintaining the arts colleges for men amounted, during the year under review, to Rs. 27,27,532 towards which Provincial Revenues contributed Rs. 10,89,172; while Rs. 111; Rs. 13,87,549; and Rs. 2,50,700 came from Municipal Fund, fees, and other sources, respectively.

Grants to private colleges.

7. Twenty-two private colleges received during the year under review, special grants aggregating Rs. 1,24,000 mainly for the improvement of libraries and laboratories. Sixteen non-Government colleges were given maintenance and capital grants amounting to Rs. 2,00,200.

Government colleges. (1) Presidency College.

8. On the 31st March 1923 the Presidency College had 960 (including two research scholars) students on its rolls as against 979 on the corresponding date of 1922. Of these, 797 were Hindus and 146 Muhammadans; the rest belonged to other communities. The total direct expenditure amounted to Rs. 4,97,534 of which Rs, 3,79,502 came from Provincial Revenues. The average cost per pupil was Rs. 513-15-8, of which Rs. 392-0-9 was borne by Government.

The work of the year was uneventful. Some inconvenience was felt, as the result of the college session beginning very early, while the results of the University examinations were published unusually late. A dark room has been provided for the Astronomical Observatory; this removes a long-felt want. The Principal records with regret the departure of Dr. Cullis, who took leave preparatory to retirement, and of Dr. Harrison, whose services were lent to the Admiralty The Physiological Department of the college bore during the year under review, the entire responsibility of providing Post-graduate instruction in physiology for the University and this was in addition to giving complete courses of lectures and laboratory training up to the I. Sc. and B. Sc. standards. A co-operative society has been started at the college with 73 members at the outset. Social activities among boarders residing in the Eden Hindu Hostel were at a low-ebb last year.

9. The Dacca Intermediate College had on 31st March 1923, 357 students as against 327 on the corresponding date of 1922. Of the students 213 were Hindus and 144 Muhammadans. The Principal notes with satisfaction that Moslem students are coming forward in large numbers for admission to the I. Sc. course. The college cost Rs. 1,30,952 by way of direct expenditure including Rs. 1,00,069 from Provincial Revenues. The cost of educating each pupil amounted during the year under review to Rs. 374-2-5, of which Rs. 285-14-7 was borne by Provincial Revenues. The regulations of the Board of Intermediate and Secondary Education, Dacca, came into force in July 1922, and the heavier syllabuses of the Board demanded greater expenditure and entailed heavier work on the teachers. Still larger expenditure is necessary for making adequate provision for the teaching of botany, physiology or geography. The college is accommodated in temporary and inadequate quarters. The Provost of the Dacca Hall kindly allowed the students the use of the Dacca Hall grounds for certain days of the week, for the college has no play-ground of its own. The college was visited by His Excellency the Governor in Augsut 1922 and by Mr. P. C. Lyon, C.S.I., C.I.E. in December 1922. The discipline has been good on the whole, although three boarders had to be rusticated for persistent misconduct. (2) Dacca Intermediate College.

10. The Hooghly College had 258 (as against 234 in 1922) students on the rolls on 31st March 1923, including 230 Hindus, 27 Muhammadans and 1 Indian Christian. The total direct expenditure on the college amounted during the year under review to Rs. 1,27,278, of which Rs. 1,07,718 came from Provincial Revenues. The cost of educating each student was Rs. 521-10-1, of which Rs. 441-7-6 was borne by Government. In course of the year the college was affiliated to the honours standard in English and history. It will be necessary in the near future to increase the hostel accommodation available for Muhammadan students. (3) Hooghly College.

11. As previously the Sanskrit College had two departments—the English Department and the Oriental or *Tol* Department. The English Department had 74 students (all Hindus) on the 31st March 1923, as compared with 72 on the corresponding date of the preceding year. In the Oriental Department there were 57 students. In view of the extremely limited nature of affiliation enjoyed by the college, its students are allowed as before, to attend honours classes in history and philosophy at the Presidency College without any additional charge. Twenty-two trust funds are attached to the college for the benefit of the students and staff. The maintenance of the college department cost Rs. 50,630 (including Rs. 47,225 from Provincial Revenues). The average cost per pupil amounted to Rs. 675-1, of which Rs. 629-10-8 was borne by Government. (4) Sanskrit College.

12. The number of students on the rolls on the 31st March 1923, was 181, as compared with 204 on the corresponding date of 1922. Of these students 166 were Hindus, 12 Muhammadans and 3 Indian Christians. A system of periodical examinations was introduced during the session. The cost of maintaining the college amounted during the year under review to Rs. 1,11,912 to which Provincial Revenues contributed Rs. 94,555. The cost of educating each pupil was Rs. 608-3-6, of which Rs. 513-14-2 was borne by Government. (5) Krishnagar College.

13. The Chittagong College had 455 students on the rolls on 31st March 1923, as compared with 353 on the corresponding date of 1922. Of the total number of students 287 were Hindus and 136 Muhammadans, the rest came from other communities. The total direct exprenditure on the college amounted during the year to Rs. 85,788 (including Rs. 51,348 from Provincial Revenues). The average cost of educating each student amounted to Rs. 219-15-6, of which Rs. 131-10-7 was borne by Provincial Revenues. Although sanction was accorded to the affiliation of the college in philosophy up to B. A. (Pass) standard in the year 1921, the class was actually opened last session. To carry on the work of the philosophy class a professor in the Bengal Educational Service has been appointed since September 1922; a special grant of Rs. 500 was also sanctioned for the purchase of books on the subject. Some twenty poor students are helped with a monthly stipend of of Rs. 3 each from the college benevolent fund, to which the staff and the (6) Chittagong College.

students as also the public contribute. The college co-operative stores practically suspended its work during the year under report, and has since applied for dissolution. Exemplary punishment was meted out to some students, who were found guilty of using unfair means at examinations. Discipline was otherwise satisfactory.

(7) Rajshahi College.

14. There were 894 students on the rolls of the college on 31st March 1923, against 819 on the corresponding date of the previous year. Of these, 690 were Hindus, and 204 Muhammadans. The total direct expenditure of the college amounted to Rs 1,74,875 towards which Provincial Revenues contributed Rs. 96,878. The average cost of educating each pupil was Rs. 215-5-9, of which Rs. 119-4-11 was borne by Government. The scheme for opening M. A. and B. L classes at the Rajshahi College, has been held in abeyance. The scheme for opening classes in botany and zoology made no progress. The arrangement for the medical examination of the college students referred to in the last Quinquennial Review is still being carried on. The results of the medical examination show that 43·3 per cent. of the students were suffering in 1922-23 from malnuitrition as against 63·7 per cent. in 1921-22. The students of the Rajshahi College were prominent in social service. Their work during the recent Rajshahi flood was highly appreciated by the Flood Committee. Discipline was satisfactory. The college was visited by His Excellency the Governor in August and by the Hon'ble the Minister for Education in September 1922.

Municipal College.

15. The only college in the Presidency, which was managed during the year under review by a Municipal Board was the Midnapore College. On the 31st March 1923 the college had 200 students against 173 on the corresponding date of the previous year. Of these students 93 were Hindus, and 7 Muhammadans; the rest belonged to other communities The college received during the year under review permission to teach mathematics, physics and chemistry up to B. Sc. standard. The total cost of maintaining the college amounted to Rs. 22,848, and the cost per pupil was Rs. 116-9-1. The transfer of the college from the Municipality to a Committee of Management has been agreed to since the close of the year under review and is now being effected.

Aided colleges.

16. The number of aided private colleges for men was 14 with 7,440 students on the rolls on the 31st March 1923, against 12 with an enrolment of 5,704 in the previous year. Of these students 5,928 were Hindus, 1,239 Muhammadans and 273 of other communities. Of the total direct expenditure of Rs. 8,26,257, Rs. 1,82.195 came from Provincial Revenues. The average cost per student was Rs. 111-0-9 of which Rs. 24-7-9 was borne by Government.

Unaided colleges.

17. The number of unaided arts colleges for men was 12 with 8,400 students on the 31st March 1923, as compared with 13 with 7,876 pupils on the corresponding date of 1922. They cost altogether Rs. 6,99,458. The average cost of educating each pupil amounted to Rs. 83-4-4 during the year under review.

Conclusion.

18. The prevailing economic conditions have hit all communities hard, and parents are now unwilling to spend money on purely literary education which is supposed to have no market value. Only the result is that there is now a greater demand for admission into the I. Sc. and B. Sc. classes than there is for admission into the I. A. and B. A. classes. This is all right, so far as it goes, but a smattering of theoretical knowledge of chemistry and physics is not going to enable a student to earn a living. What is needed is an educational system which is responsive to the needs of modern India's complicated life. The non-co-operator was right in his protest against existing conditions, but he had nothing to offer in exchange. There is no money and people are suspicious of any change which Government may initiate. It is difficult to say how long the present impossible position will last, presumably until the general dissatisfaction which is now latent solidifies and demands a remedy. But the readjustment of the general educational system of which the present university organisation is at once the root and the crown is the first step on the road by which alone Bengal can attain to a stable economical. social and political condition.

CHAPTER IV.

Secondary Education.

1. Secondary schools of all grades and types fell from 2,678 to 2,651; the decrease was confined to middle schools both for boys and girls. The number of pupils in secondary schools, however, rose from 328,166 to 340, 266. The cost of maintaining secondary schools in the Province amounted, during the year under review, to Rs. 1,06,53,565 as compared with Rs. 1,02,84,804 in the year preceding. Each secondary school cost Rs. 4,018-11-2 on an average, the cost per pupil being Rs. 31-4-11. **General statistics.**

Secondary Education for Indian Boys.*

(*The secondary education of Indian girls and Europeans is dealt with in the appropriate chapters.)

2. The number of secondary schools for Indian boys declined from 2,563 to 2,533. High schools increased by one; middle schools, on the other hand, fell from 1,685 to 1,654. Of the 19 middle English schools, which disappeared, some were raised to the status of high schools; others closed on account of financial difficulties. The closing of 12 middle vernacular schools marked a further stage in a line of development which has become irresistible; people do not want purely vernacular education. High schools gained 7,162 and middle English schools 4,099 pupils, respectively; but middle vernacular schools lost 167 pupils **Schools and pupils.**

3. The total direct expenditure on secondary schools for Indian boys amounted, during the year under review, to Rs. 87,07,507 of which Rs. 17,32.653 was borne by public funds, and Rs. 69.74,854 was contributed by private sources. In the preceding year public and private funds contributed Rs. 15,47,784 and Rs. 69,42,238, respectively. High schools cost Rs. 65,64.399, middle English schools Rs. 19,93,867; and middle vernacular schools Rs. 1,49.241, respectively. Expenditure increased in all three classes of schools. **Expenditure.**

4. Manual training classes were attached to 22 secondary schools in the Presidency. These classes are waning in popularity, in spite of the incessant demand for more practical and less literary education; manual instruction is not a subject which can be taken at the Matriculation examination. **Manual instruction.**

5. The pay and prospects of the teachers employed under Government have been considerably improved; but the position of the vast majority of teachers employed in privately-managed schools continues much the same as before. The buildings, furniture and teaching appliances of most private schools are unsatisfactory. The situation is one of grave political and social import. All that can be said has been said in previous reports. It is useless to say anything more.

The Board of Secondary Education, Dacca, have made history and geography compulsory subjects for High schools under them, while Elementary science has been made an optional subject. The Board have also sent up a proposal for opening a Science class at the Dacca Collegiate School. Writing on the effects of the non-co-operation movement upon students, the Chairman of the Board observes as follows :—

"It is seen in a dulling of the old keenness for learning, in a vague feeling as of disillusionment and in a general lassitute and demoralisation among the pupils. The only cure for this malady is to give a new and practical direction to secondary education and to bring it into closer touch with the people."

CHAPTER V.

Primary Education.

On the 31st March 1923, there were 47,688 primary schools for boys and girls with 1,465,107 pupils against 47,783 schools and 1,435,906 pupils on the corresponding date of the previous year. The primary schools cost Rs. 54,51,741 as compared with Rs. 54,08,441 in the year before. The average cost of a primary school was Rs. 114-5-2, and the cost per pupil Rs. 3-11-7. **General statistics.**

Primary education of Indian boys.*

(*Primary education of Indian girls and Europeans is dealt with in the respective chapters.)

Schools.

2. Primary schools for Indian boys fell from 35,615 to 35,371 or by 244. This decrease in the number of schools is not real, but apparent, since night schools which teach the Primary school course and were returned previously as primary schools, have been shown (in accordance with special instructions received from the Government of India) in this year's returns as "Schools for Adults." As the distinction between Upper and Lower Primary schools is not recognised by the new general tables issued this year, separate figures for the two classes of schools have not been collected. The table below indicates the number of primary schools for boys in each Division together with the number of pupils on the rolls on 31st March 1923:—

Division.	Number of primary schools in 1922-23.	Number of pupils in primary schools in 1922-23.
Burdwan Division	8,290	258,117
Presidency Division (excluding Calcutta) ...	5,969	215,903
Calcutta	313	18,771
Dacca Division	8,697	296,896
Chittagong "	5,360	192,425
Rajshahi "	6,742	207,494
Total ...	35,371	1,189,606

Pupils

3. The year 1922-23 closed with 1,189,606 pupils (including 53,117 girls reading in primary schools for boys). The corresponding figures for the previous year were 1,164,597 and 55,076, respectively. The number of pupils therefore increased by 25,009. Besides the pupils attending primary schools for Indian boys there were 150,834 pupils in the Primary Department of Secondary schools for boys as against 142,937 in the previous year. Pupils in primary schools for boys and in primary stages of secondary schools together therefore numbered 1,340,440, as compared with 1,307,534 returned the year before, showing an increase of 32.906 pupils in the primary stage.

Relative Progress of Hindus and Muhammadans.

4. Primary schools for Indian boys were attended by 558,995 Hindus and 612,470 Muhammadans. The corresponding figures for the preceding year were 540,406 and 603,213, respectively. Thus the number of Hindu pupils rose by 18,589, and of Muhammadan pupils by 9.257. Of the total male Hindu population 5·4 per cent. and of the Muhammadan population 4·7 per cent. were in primary schools. Comparison with the figures for the preceding year, however, is more or less valueless, inasmuch as the returns of that year did not show the number of Hindu and Muhammadan pupils in purely primary schools for boys, excluding those reading in night schools.

Expenditure.

5. The total direct expenditure on primary schools for Indian boys amounted, during the year under review, to Rs. 44,80,531 against Rs. 44,74,811 in the year preceding. Of the direct expenditure Rs. 22,75,665 or 50·79 per cent. came from public funds, and Rs. 22,04,865 or 49·21 per cent. from private sources. In the preceding year public and private funds contributed 49·36 per cent. and 50·64 per cent. of the total expenditure. The expenditure from public funds was made up of Rs 15,35,851 contributed by Provincial Revenues, and Rs. 6,45,173 and Rs. 94,641 by District and Municipal funds, respectively. The corresponding figures for the previous year were Rs. 15,16,657 ; Rs. 6,04,400 ; and Rs. 87,561.

Panchayati Union schools.

6. Funds were allotted last year for the construction of 84 Panchayati Union schools for boys and 25 schools for girls. The Board Primary schools are said to be losing their old popularity ; the remuneration of the teachers is less than that of the teachers of aided primary schools. Further, the local people have little voice in the management of these schools.

7. The revised curriculum was introduced from January 1923 in all the districts of the Presidency except Murshidabad, Bankura, Faridpur, Noakhali, Malda and Dinajpur. In certain girls' schools of the Presidency and Burdwan Divisions also the revised curriculum was not introduced. The work of the new and the old curricula will be compared in 1924, when the question of retention or further revision of the new curriculum will be considered. The special features of the new curriculum are (1) reduction of the Primary school course from six to five years; (2) introduction of English as an optional subject; (3) simplication of the course by making certain subjects optional; and (4) provision for paying greater attention to the three 'R's. Curricula.

8. During the year under review there was a provision of Rs. 1,50,000 in the budget to give effect to Mr. Biss's schemes of central Primary schools. Government agreed to contribute half the recurring and non-recurring expenditure for starting the schools. Only six municipalities and 12 unions accepted the offer and a sum of Rs. 32,718 was sanctioned for the purpose. The chief obstacle to progress in this direction is the reluctance of local bodies to make larger contribution or to undertake fresh taxation. Free primary schools.

9. The primary schools in the city of Calcutta are almost all proprietary schools held mostly in rented premises which are ill-ventilated and badly lighted. The free primary schools, which have been started by the Corporation in certain parts of the city bid fair to considerable success. Of the total number of pupils, viz 18,771 in primary schools 61·8 per cent. were Hindus and 37·8 per cent. were Muhammadans. Towards the total direct expenditure on primary schools public funds contributed Rs. 55,879 and private sources Rs. 83,806 during the year under review. Primary education in Calcutta.

10. A serious situation was created last year by the objection raised by the Examiner of Local Accounts, Bengal, to the payment of Lower Primary scholarships from District Board funds. It was pointed out that there being no provision in the present Local Self-Government Act for spending money on scholarships from the funds of District and Municipal Boards, such expenditure was illegal. As a result of the objection many of the District Boards discontinued the award of primary scholarships from their own funds. The situation has been readjusted pending the amendment of the Local Self-Government Act. Award of Primary scholarships by local bodies.

11. A large number of primary school houses in the districts of Rajshahi and Bogra was badly damaged in consequence of the recent flood in North Bengal. A sum of Rs. 68,000 was made over to the District Boards of Rajshahi and Bogra for repairing or reconstructing the damaged school houses. Special grant for flooded area.

CHAPTER VI.

The training of teachers for Indian schools.

A.—The training of men teachers.

The two training colleges at Calcutta and Dacca, which prepare candidates for the B. T. degree and L. T. diploma, had 125 students on the rolls against 118 in 1921-22. They admitted, as previously, subordinate inspecting officers of the Department and teachers from Government and aided schools, besides a few outside candidates (stipendiary and non-stipendiary) who desired to be trained for the teaching profession. Training Colleges, General.

2. Thirty-three B. T. and 18 L. T. students were on the rolls of the college on 31st March 1923, all of whom appeared at the University Examinations. Twenty-five students, of whom 6 passed with distinction, were successful in the B. T. Examination; of the L. T. candidates 15 (1 with distinction) passed. The practical work of the students under training was carried on, as before, in the Hindu, Hare and Sanskrit Collegiate schools, and the Y. M. C. A gymnasium was used for drill and games. The difficulty of accomodating the college still continues; the old proposal to house it in new buildings at Baliganj, where lands have been acquired, has been The David Hare Training College.

taken up again and is now under the consideration of Government. The total direct expenditure on the college amounted to Rs. 56,952 as compared with Rs. 61,601 in 1921-22.

The Dacca Training College.

3. Of the 74 (69 B. Ts. and 5 L. Ts.) students who were on the rolls of the Dacca Training College on 31st March 1923, 47 belonged to Bengal, 18 came from Assam, 8 from H. E. H. the Nizam's Dominions and 1 from Hill Tippera. The college had 68 students on 31st March 1922. Besides the 74 students mentioned above, there were three students last session, who did reasearch work for the M. T. degree. During the year under report the college was visited by His Excellency the Governor of Bengal and the Educational Commissioner with the Government of India. The revised curriculum, which has been approved by the Dacca University, will come into force next session. Certain alterations were also made during the year under review in the method of classifying the examination results. The demand for admission of B. T. students is as great as ever. Of the 69 students who appeared at the B. T. Examination, 62 passed —4 in the first division. Four students appeared at the L. T. Examination, and all of them were successful. The college cost Rs. 47,909 in direct expenditure as compared with Rs. 89,341 in the year preceding.

Vernacular Training Schools.

4. There were 6 (5 Government and 1 aided) Normal or first grade Training Schools in the Presidency as previously. These schools had 435 pupils on the rolls as against 469 in 1921-22; they cost Rs. 1,11,920 during the year under review, towards which Provincial Revenues contributed Rs. 1,06,969. The figures for the preceding year were Rs. 1,16,898 and Rs. 1,11,117, respectively. Out of 258 candidates appearing at the final examination, 213 obtained the Teachership certificates.

The question of removing the Calcutta Training School to a more suitable place has received the attention of the Department; the school cannot stay where it is. The scheme of reorganisation in connection with Normal Schools has not yet materialized; meanwhile these schools are losing their old popularity. Most of the Divisional Inspectors of Schools are of opinion that Normal Schools should henceforth train Matriculates instead of Vernacular teachers as at present. The value of the stipends, which had been raised to Rs. 10 a month, has been reduced again to Rs. 6 for lack of funds. This is reported to have caused considerable hardship, as the amount is insufficient and compares unfavourably with the stipend (Rs. 10) paid to teachers of primary schools under training in Guru Training Schools. The number of stipends payable in Normal Schools has also been reduced from 381 to 311.

Guru and Muallim Training Schools.

5. There were 99 Guru and Muallim Training Schools with 1,850 pupils as compared with 102 schools with 2,047 pupils in the year before; of these, 4 were aided and the rest managed by the Department. The total direct expenditure amounted to Rs. 3,12,999 in 1922-23 including Rs. 296,328 from Provincial Revenues. The figures for the year 1921-22 were Rs. 3,02,132, and Rs. 2,87,333, respectively. The Guru Training Schools passed 1,423 students out of 1,746 who appeared in the Final Examination during the year under review; the corresponding figures for the preceding year were 1,412 and 1,692, respectively. New buildings of the improved type were provided during the year for the Guru Training Schools at Natore and Patuakhali, but owing to paucity of funds it was not possible to appoint the improved staff of teachers. The rate of stipends which was raised from Rs. 10 to Rs. 11 a month has been reduced to Rs. 10 again on financial grounds. In connection with the proposals of the Bengal Retrenchment Committee it has been decided to abolish 32 Guru Training Schools of the old type, but this abolition will not be effected until eight new schools of the improved type have been built. Training institutions generally have undoubtedly lost prestige as a result of the attitude of the Retrenchment Committee towards them.

B.—The Training of women teachers.

Training Colleges for women.

6. The Diocesan College (aided) and the Loreto House (unaided) Training Class had 15 and 5 students respectively, on the rolls on 31st March 1923. The former presented 15 B.T. candidates, of whom 12 were

successful; the latter passed 4 L.-T. candidates out of 4 who sat for the examination. The scheme for the establishment of a Government Training College for women is still in abeyance.

7. For the training of women teachers employed in Primary and the Lower classes of Secondary Schools there were 12 (against the same number in 1921-22). training schools and classes with 195 pupils altogether as compared with 200 in the preceding year. Eight of these institutions were managed by Christian and Brahmo Missions. These institutions cost Rs. 84,309 including Rs. 73,522 contributed from Provincial Revenues. *Training Schools for women.*

The Hindu Widows' Training Class was removed from 29-B, Ballyganj, Circular Road to much smaller premises at No. 45, Garcha Road during the year under report. The Moslem Training Class also, which is held in rented premises, has been threatened with ejectment The Vernacular Training Class at Dacca and the Training School for mistresses at Kalimpong are said to be flourishing, but the Inspectress of Schools, Dacca Circle, is of opinion that the English Training Class attached to the Eden High School for Girls at Dacca, which serves no useful purpose, should be closed.

The following table shows the examination results during 1922-23 :—

	Candidates presented.	Candidates passed.	
(1) Senior Vernacular Teachership Examination	18	16	West Bengal.
(2) Junior Vernacular Teachership Examination	63	51	West Bengal.
(3) Senior Teachership Examination ...	5	5	West Bengal.
(4) Junior Teachership Examination	3	1	West Bengal.
(5) Teachership Examination ...	29	21	East Bengal.

CHAPTER VII.

Professional and Technical Education.

Arrangements for the study of law existed, as in the preceding year in the Calcutta University Law College and the Law Departments of the Ripon College and the Dacca University. The total number of students in the three institutions rose from 2,439 to 2,739, of whom 2,365 were Hindus, 352 Muhammadans, and 22 of other communities. The total expenditure on the Calcutta University Law College and the Law Department of the Ripon College amounted during the year under review to Rs. 2,13,809 as compared with Rs. 2,25,647 in 1921-22; the expenditure incurred on the Law Department of the Dacca University has been included under the head "Universities." Of the 1,212 candidates who appeared at the B.L. Examination, 506 were successful. *Law Colleges and Classes.*

2. There were three Medical Colleges in the Presidency, viz, the Calcutta Medical College, the Carmichæl Medical College, Belgachia, and the School of Tropical Medicine, Calcutta (the word school applied to the third is, according to the terminology current in India, a misnomer), during the year under review against two in the year before. The total number of students attending these institutions on 31st March 1923 was 1,710 (including 12 women) as against 1,584 pupils on the corresponding date of 1922. Of these pupils, 1,535 were Hindus, 119 Muhammadans, 37 Christians and 19 of other communities. The three institutions cost altogether Rs. 9,87,344 during the year under review; the total expenditure on Medical Colleges in the preceding year was Rs. 7,29,790. The three Colleges presented altogether 371 candidates at the Final Examination, of whom 197 were successful. *Medical Colleges and Schools.*

On the 31st March 1923 there were in the Presidency seven Medical Schools and classes with 1,664 (including 40 women) pupils on the rolls; they cost altogether Rs. 2,43,528. The corresponding figures for the preceding year were 5; 1,415; and Rs. 2,42,907, respectively.

3. The Bengal Engineering College at Sibpur is still the only institution in the Presidency for higher Engineering training which culminates for the B.E. degree. The increasing demand for higher training in Mechanical *The Bengal Engineering College.*

and Electrical Engineering has rendered it impossible to retain the subordinate or apprentice classes any longer at the Bengal Engineering College while the attempt to combine two entirely different standards of education in the same college is obviously unsound. Hence, in accordance with the decision referred to in the reports of previous years, the apprentice classes were finally closed in July 1922. On the 31st March 1923 the college had 299 students (as against 356 on the corresponding date of 1922), viz., 107 in the Civil Engineer Classes, 135 in the Mechanical and Electrical Engineering and Mining classes, and 57 in the Industrial classes. Of the students, 254 were Hindus, 18 Muhammadans, 25 Europeans and Anglo-Indians, and 2 Indian Christians. The college presented 24 candidates at the B. E. and the same number at the I. E. Examination, of whom 16 and 17, respectively, were successful. The total cost of maintaining the college amounted during the year 1922-23 to Rs. 3,03.180, towards which Provincial Revenues contributed Rs. 2,69,527. The corresponding figures for the preceding year were Rs. 3,25,965 and Rs. 2,93,798, respectively. The college workshops are stated to have run on more economical lines during the year under review, and they turned out work valued approximately at Rs. 12,058.

The sanction of Government was accorded during the year under review to the inauguration of improved classes in Mechanical and Electrical Engineering, and of Associateship courses, which are designed to give Bengali students the opportunity of obtaining instruction to as high a standard as is provided by colleges in Great Britain. Unfortunately the staff required has not been sanctioned yet. Visiting lecturerships were limited during the year to Sanitary and Structural Engineering only. Out of 13 telegraphists, who were deputed to the college during the year, only 7 completed the course. Two of the passed students of the college have been placed at the Steel and Metal Factory at Ichapur, one in the Electrical Department of the B. N. Railway and one at the E. B. Railway workshop at Kanchrapara for 3 years' practical training. In the examination for Mine Managers' certificates held in February 1922, 7 obtained first and second class certificates. All the European and a few of the Indian students of the college belong to different units of the Auxiliary Force. The new servants' quarters, which were started during the preceding year, were completed in 1922-23.

The Ahsanulla School of Engineering, Dacca.

4. Consequent on the closing of the subordinate classes at the Bengal Engineering College, the whole burden of training Overseers and Public Works Department subordinates has devolved upon this institution. The school had on its rolls 417 students on 31st March 1923 against 375 on the corresponding date of the preceding year. Of these students 373 were Hindus and 42 Muhammadans, while 2 were Indian Christians. Owing to pressure of admissions, the 2nd-year Upper Subordinate Class was split up into two sections during the year. The Principal observes "The teaching of the present Upper Subordinate Course in a period of three years is proving too great a pressure on the students and staff, and a return to the previous four-year course is advocated." The school was visited by His Excellency the Governor (Lord Lytton) on 12th August 1922. Field work in practical surveying was carried on, as usual, for about six weeks, and the camp was held at Kishoreganj. The School employment bureau recommended over 26 passed students for employment as, surveyors, draftsmen, overseers and sub-overseers. The Vocational and Technical Education Committee, Dacca have made some important recommendations in connection with the development of the school, which are now under consideration. The artisan students were given, as before, half the amount representing the value of their labour. The school cost Rs 96,216 (including Rs. 78,633 from Provincial Revenues). The total value of the work undertaken by the school workshops amounted during the year to Rs. 6,299. The results of the Final Examination were as follows :—

	Appeared.	Passed.
Upper Subordinate Examination, Part B	39	26
Ditto ditto, Part A	91	64
Lower Subordinate Examination ...	60	41

5. The Survey School at Mainamati has been under the control of the Department of Industries since 1920. The Bengal Retrenchment Committee recommended the abolition of the school, but the proposal has not been accepted by Government. Of late the school has been attracting students with good educational qualifications, viz., Matriculates or students who have received higher education. Owing to insufficiency of accommodation the training of District Kanungoes at the school has been suspended temporarily. The urgent needs of the institution are two, viz., a permanent school house, and revision of the salaries of the staff. There were 51 students on the rolls on 31st March 1923 compared with 53 on the corresponding date of 1922, and the total cost of upkeep amounted during the year under review to Rs. 12,712 (including Rs. 10,013 from Provincial Revenues). In the Final Survey Examination 13 students appeared, and all of them were successful; in the special Amin Examination 25 candidates passed out of 36 presented. The Survey School, Comilla.

6 The Government School of Art, Calcutta, is the most important among Art Schools in the Presidency. The school had 316 students (including 35 from other Provinces and States) on the rolls on 31st December 1922, and cost Rs. 54,963 during the calendar year 1922, towards which Provincial Revenues contributed Rs. 50,446. Passed students of the school obtain employment as draftsmen, painters, designers, illustrators and teachers. An important commission executed by the school during the year under review consisted in designing and constructing a "Roll of Honour" memorial in metal for the Eastern Bengal Railway. Government School of Art, Calcutta.

7. The number of students on the rolls of the Commercial Institute in the day and evening classes together was 332 on 31st March 1923 against 287 on 31st March 1922. The evening classes are said to be more popular than the day classes. Altogether 213 pupils joined the day classes and 429 the evening classes on different subjects. The expenditure for the year amounted to Rs. 41,870 as compared with Rs 37,556 in the year preceding. Twenty minor institutions imparting commercial education are affiliated to the Government Commercial Institute and present candidates at the examinations conducted by it. The number of candidates who passed the Commercial Course Final and Special examinations during the last two years is shown below:— The Government Commercial Institute.

	Final Examination.		Special Examination.	
	Appeared.	Passed	Appeared.	Passed.
1921-22	34	16	44	42
1922-23	47	21	97	74

8. The Board of Intermediate and Secondary Education, Dacca, have opened two courses at the Jagannath Intermediate College, viz., a course in Dyeing connected with the Science Side and a course in Commerce connected with the Arts Side. Examinations in both courses were held for the first time in March 1923; the dyeing course includes a laboratory test and the commercial course includes papers in Commercial Correspondence and Book-keeping besides a practical test in Shorthand. Twenty-three passed out of the 34 candidates who sat for the Intermediate Examination with Dyeing, and in the Intermediate Examination with Commerce 37 passed out of 56. Vocational Courses of the Board of Intermediate and Secondary Education, Dacca.

9. There were 163 students on the rolls of the Weaving Institute on 31st March 1923 as compared with 187 on the corresponding date of 1922. The Institute cost Rs. 42,163 against Rs. 51,826 in the preceding year. Towards the close of the year under review the posts of a carpenter and a mechanic were created for the Institute. Mensuration, Practical Mathematics and Machine-drawing have been added to the curriculum of the first year class. Twenty-two candidates appeared from the Institute at the Final Examination, the results of which have not been published yet. At the last City and Guilds Examination of the London Institute, held at the Institute, 55 candidates appeared in the textile and dyeing subjects, and 30 were successful. From the Artisan classes 88 students passed out. A class has been opened for training women in the higher and artisan classes. Regarding the question of employment for passed students the Principal remarks:— "owing to the uncertainty of times, slackness of business, high cost of The Weaving Institute, Serampore.

living, together with the general unemployment question, it is becoming difficult to get employment for the higher class students." The system of granting loans to *ex*-students referred to in the previous reports is said to have been very successful. The Principal notes that the employees of the Institute have not had their pay revised as yet. The outlying and peripatetic weaving centres, where practical instruction in weaving was imparted during the year under review, numbered 14.

"B" classes.

10. The "B" Final Examination Board has been re-constituted. Mr. Macdonald, Professor of the Bengal Engineering College, has been appointed Secretary of the Board and Inspector of "B" classes. As before, five schools had "B" classes attached to them. They presented 36 candidates at the "B" Final Examination or "School Final Examination, Science Side" of whom 15 were successful.

CHAPTER VIII.

Education of Indian Girls and Women.

Institutions and pupils.

The number of recognised schools of all kinds for girls rose from 12,280 to 12,429 or by 1·2 per cent., and the number of pupils attending them increased by 2,112 or ·7 per cent. Of the 286,383 pupils (excluding 53,861 girls reading in boys' schools) 124,362 were Hindus and 154,447 Muhammadans : the rest were of other communities. The unrecognised schools for girls which numbered 230 during the year under review had an enrolment of 6,127 pupils—2,603 Hindus, 3,357 Muhammadans and 167 of other communities.

Controlling agency.

2. The women inspecting staff of the Department consisted, as previously, of two Inspectresses and 12 (6 for East and 6 for West Bengal) Assistant Inspectresses of schools.

Collegiate education, Arts colleges.

3. During the year under review there were, as previously, four (including the Intermediate classes of the Eden High School) arts colleges for women, three in Calcutta and one in Dacca. Of these the Bethune College and the Eden High School, Dacca, are Government institutions ; while of the Diocesan College and the Collegiate Department of the Loreto House (both under mission management), the former is aided and the latter unaided.

The Bethune College had 120 students on the rolls on 31st March 1923, as against 114 on the corresponding date of the previous year. The teaching of elementary physics and chemistry has been introduced into the college since last July, and a lecturer has been appointed to conduct these classes. A sum of Rs. 2,500 was also sanctioned for the equipment of the laboratory. The officiating Principal complains that although Honours classes in mathematics are held regularly, yet the girls taking up the subject have to appear as non-collegiate students, for want of affiliation. Hostel accommodation is inadequate as before. The students play badminton and tennis. Classes for instrumental and vocal music are held every Saturday. Of the 28 candidates who appeared in the I.A. examination 27 passed (18 in the first division); to the B.A. examination 19 students were sent up, and 17 passed (four with honours). Six senior scholarships of the value of Rs. 20 a month each were awarded on the results of the I.A. examination. The expenditure on the college (and hostel) amounted, during the year under review, to Rs. 88,355 as against Rs. 81,280 in 1921-22. The average annual cost of educating each pupil was Rs. 571-12.

In the Diocesan College and Loreto House the enrolment rose from 71 and 16 to 76 and 22, respectively. Loreto House received, during the year under review, affiliation in Latin and History up to the B.A. (Pass) standard and in Latin up to I.A. The expenditure on the two colleges amounted to Rs. 21,759 and Rs. 8,250, respectively. The former institution presented 9 and 15 candidates to the B.A. and I.A. examination, of whom 9 and 14, respectively, were successful. The latter sent up 4 students at the B. A. and the same number at the I.A. examination, all of whom passed.

In the Intermediate classes of the Eden High School, Dacca, which works under the Board of Secondary and Intermediate Education, there were 23 students on 31st March 1923 A scheme for adding the Intermediate Science course, though approved by Government, has been dropped, as the accommodation available is very limited. Eleven girls were sent up to the Intermediate Examination in Arts, and of these seven passed.

Secondary Education— (1) High School.

4. The number of high English schools for Indian girls remained stationary at 13, but the number of pupils reading in them rose from 2,744 to 2,881. Of the 13 schools, four were managed by Government and the rest aided. All the four Government high schools increased their number during the year under review. Of the aided high schools, the Brahmo Girls' school is reported to have doubled its numbersduring the last few years. Lectures on first-aid, hygiene and home nursing were delivered during the year at the Bethune Collegiate School. At the Eden High School 72 lectures in first aid and hygiene were delivered. This school has also a company of Girl Guides. Several voluntary subjects, such as drawing, instrumental music, gardening, swimming, botany, charka-spinning, first aid, nursing and cooking have been introduced in the Vidyamoyee High School for girls at Mymensingh, which have given the girls a wide choice of subjects. In Dr. Khastagir's High School for girls at Chittagong the progress has been somewhat slow owing to difficulties of hostel and conveyance accommodation The weaving class opened in the school did not receive much support from the guardians ; it is unlikely, therefore, that the music class here would be a success. The Girls' High School at Barisal has secured University recognition for two years for the present ; the school received from the Department a monthly grant of Rs. 300. The undermentioned high schools for girls received, during the year under review, the additional recurring and capital grants noted against them :—

	Recurring.	Non-recurring.
(*i*) Gokhale Memorial School ..	Rs. 250 a month ..	(Rs. 7,000 for furniture and equipment.)
(*ii*) Victoria Institution .	„ 200 „ ..	(Rs. 5,000 for furniture and equipment.)
(*iii*) Brahmo Girls' School ...	„ 200 „ .	
(*iv*) United Missionary High School	„ 100	
(*v*) Diocesan High School		(Rs 3,000 for repairs)

(2) Middle schools.

There were, on 31st March 1923, 32 middle English Schools for girls with 4,050 pupils, as compared with 28 schools with 3,509 pupils on the corresponding date of the preceding year; the middle vernacular schools numbered 27 with 3,004 pupils as against 29 with 3,100 pupils in 1921-22. With reference to middle schools for girls in West Bengal the Inspectress observes "they are all schools of a superior type, staffed almost entirely by trained women teachers, and well equipped. The committees of these institutions take a very keen interest in their welfare, and I believe that in their multiplication lies the best hope of Hindu and Muhammadan education. A large proportion of these schools are well-housed, but three of the best in the city are threatened with extinction owing to high rents." In East Bengal the middle schools at Comilla (a Government institution), Jalpaiguri and Tangail (both aided), are well-reported on.

Primary education.

5. There were 12,302 primary schools for Indian girls with 274,706 pupils on 31st March 1923. as compared with 12,151 schools with 267,618 pupils in the previous year. The primary schools for girls are chiefly of the following categories :—

(*a*) Model primary schools for girls are managed by Government.—The pay of the staff has been considerably increased, as a result of the reorganisation of the services.

(b) Urban Girls' School—these exist in East Bengal only.

(c) Panchayati Union schools for girls—sanction was accorded to the construction of 25 schools during the year under review.

(d) Home Girls' schools are taught, as hithertofore, by a single mistress.

(e) Peasant Girls' schools—22 in number, all in the Presidency Division ; the schools have been given enhanced grants.

(f) Aided Primary schools—the schools aided by Municipalities are better off than those receiving aid from District Boards.

The work of the Nari Shikha Samiti and of the Society for the Improvement of Backward Classes, Bengal, deserves special mention in connection with the expansion of primary education of girls. Both societies are in receipt of substantial grants from the Department.

Special schools. 6. The number of technical and industrial schools for girls was 49 ; they had 1,481 pupils on the rolls on 31st March 1923. The industrial schools teach generally lace-making, knitting, sewing and dress-making, besides imparting general education.

Zenana education. 7. On the 31st March 1923, there were 56 zenana teachers with 1,235 pupils under instruction. All the zenana teachers in West Bengal (except those at Krishnagar), are paid at a uniform rate of Rs. 30 a month and a conveyance grant of Rs. 15 a month. The zenana system of teaching is popular among both Hindus and Muhammadans, but the Inspectress of Schools, Presidency and Burdwan Divisions, is opposed to any further extension of the system ; the work is difficult to control, takes much time, while it gives very poor results. The zenana class at Krishnagar has been a unique success. Absence of pupils and frequent changes of centres also interfere with the work. The proposal for abolishing the scheme of zenana education has been under the consideration of Government.

Needlework. 8. The work of the peripatetic needlework teachers has been satisfactory, and it has been decided to retain them as before on a grant-in-aid basis. Sewing grants were continued to improve the teaching of needlework in girls' schools. The Lady Carmichael Needlework Diploma examination is said to have given a great impetus to the work. The National Indian Association also has instituted a diploma for needlework and many schools compete for it. The Girl Guides Association is also doing valuable work in this respect.

Co-education. 9. There were 53,861 girls reading in boys' schools, as compared with 55,703 in the previous year. The number fell during the year by 1,842, which shows that people generally do not favour co-education.

CHAPTER IX.

Education of Europeans and Anglo-Indians.

Institutions. On the 31st March 1923 there were 66 institutions for European and Anglo-Indian children as against 81 on 31st March 1922. This decrease in the number of schools is apparent rather than real, being due to the fact that the previous practice of counting the supplementary or technical classes attached to the main institutions as separate schools, has been abandoned. Of the 66 institutions 61 were schools for general education, and 5 for special instruction. Of the schools for general education 14 were Higher Secondary, 7 Secondary, 23 Higher grade, 15 Primary and 2 Ungraded. Government directly controlled three of the 66 schools, and the rest were managed by various denominations.

2. The following table shows the distribution of pupils in the different stages of instruction in European schools :— Pupils.

	1921-22.				1922-23.

The above figure includes 1,781 (1084 boys and 697 girls) non-European pupils against 1,570 in 1921-22 who were under instruction in European schools on 31st March 1923.

3. The total expenditure on the education of European and Anglo-Indian children amounted (including the boarding charges of Rs. 13,98,872) during the year under review to Rs. 36,39,763 as compared with Rs. 36,11,840 in the preceding year. Expenditure.

The expenditure was appropriated as follows :—

		Rs.
(a) Provincial Revenues	...	10,52,137
(b) Municipal funds	...	59,638
(c) Fees ...	...	14,42,547
(d) Other sources	...	10,85,441
Total	...	36,39,763

4. A sum of Rs. 32,755 was spent during the year 1922-23 on scholarships; this amount included the expenditure on certain extra-provincial scholarships paid in Bengal. In 1922 the Government of Bengal provided 2 scholarships tenable abroad; one was awarded to Mr. Cedric Dover to enable him to study Zoology at the University of Edinburgh, and the other to Miss Mercia Heynes Wood to take up French at Oxford. Scholarships.

5. Besides the ordinary grants paid under the European School Code, the undermentioned special grants were sanctioned during the year 1922-23 :— Special grants.

		Rs.
(1) St. Andrew's Colonial Homes	... ...	60,000
(2) Calcutta Free School ...	... ...	29,000
(3) Loreto Orphanage, Entally	... ...	20,000

Owing, however, to the prevailing financial stringency the authorities of the schools were informed that there was no prospect of the continuance of the special grants in future.

6. There were 683 teachers employed in European schools on 31st March 1923 as compared with 657 on 31st March 1922. Of the 683 teachers 55 were graduates, 346 (including 21 graduates) were trained, and 337 (including 34 graduates) were untrained. In the preceding year there were 61 graduates and 596 non-graduates. Teachers.

Training of teachers.

7. As previously reported, there are no facilities in Bengal for the training of European male teachers; nor was any candidate deputed from Bengal in 1922-23 to Sanawar for training. Eighteen women teachers, as against 17 in previous year, were under training on 31st March 1923 at the Dow Hill Training Class, Kurseong. In the annual examination held in November 1922, 8 senior or second year students passed out of 9; of the 9 junior or first-year students all passed, 8 being placed in the first class.

Vocational training.

8. The number of schools, which maintained classes following the recognised school final courses as well as commercial or technical classes, was 21. The number of pupils on the rolls of these classes on 31st March 1923 was 236 Special classes for domestic training in plain cookery and needlework were held, as before, in the Dow Hill School and St. Helen's Convent, Kurseong. The Entally Convent held classes for probationary sick-nurses, and St. Andrew's Colonial Homes, Kalimpong had nursing classes for the sick and children. The domestic science subjects continue to be examined by the City and Guilds Examination Committees.

City and Guilds Examinations.

9. These were held in November 1922 at Kurseong, for candidates from Dow Hill and St. Helen's Convent, Kurseong. The entries and results were as follows :—

	Entries.	Passes
Plain needlework	18	17
„ cookery	13	12

The Departmenal Vernacular Examination for secondary schools was abolished in terms of Government Order No. 275T.—Edn. dated the 29th May 1920. and the Cambridge Higher Local Examination was discontinued by the Cambridge Syndicate.

Education of deficient and defective children.

11. The Children's House, Kurseong, continued to deal with physically and mentally defective children with satisfactory results. There were 11 pupils on 31st March 1923. The institution receives a monthly grant of Rs. 150.

The Sussex Trust.

12. The following expenditure was incurred during the year :—

(*i*) Rs. 19.196 on scholarships (and contingent expenses) for 4 boys and 3 girls in the United Kingdom and 4 boys and 1 girl in India.

(*ii*) Rs. 4,313 for construction and maintenance of 3 lower primary schools for pupils of the depressed classes.

(*iii*) Rs. 50,000 towards the construction of the Asansol Orphanage.

(*iv*) Rs. 19,100 / Rs. 92,999 towards the cost of the additional dormitory at Dow Hill.

13. The total amount of receipts during 1922-23 including the balance on 31st March 1922 and the interest up to 31st October 1922 amounted to Rs. 14,702-6; the total expenditure for the period was Rs. 7,626-12-9, leaving a closing balance of Rs. 7,075-9-3. Fifteen scholarships at rates varying from Rs. 40 to Rs. 10 a month were awarded during the year. **Doveton Trust Fund.**

14. Mr. W. F. Papworth continued to officiate as Inspector of European Schools, Bengal, throughout the year. **Controlling Agency.**

15. The year under review witnessed the introduction of those measures of reconstruction in elementary education, which had been discussed at the conference held in January 1921, and finally accepted by Government. The Elementary School Certificate Examination was replaced by a scholarship examination and the Supplementary Class Final examination by the Higher Grade School Final examination. **Noteworthy features.**

A successful exhibition in which many of the European schools in Bengal took part, was held in February 1923 in the premises of the Calcutta Free School. The exhibition was opened by Sir Thomas Richardson and lasted for 4 days. The educative value of the exhibition is great; and it is hoped that it will become an annual feature of the work of European schools in Calcutta.

CHAPTER X.

Education of Muhammadans.

1. During the year under review the number of Muhammadan pupils in all types of educational institutions for Indians rose from 880, 374 to 901, 714 or by 21,340. The proportion of Muhammadan pupils to the total number of pupils under instruction fell, however, from 46·6 to 46·4 per cent. The proportion of Muhammadans to the total number of students in arts colleges rose from 12·8 to 13·3, and in professional colleges from 9·4 to 10·8 per cent.; in the high stage it declined from 17·1 to 15·2; in the middle stage also the proportion fell from 20 9 to 19·4; in the primary stage of instruction, the proportion remained almost stationary; in special schools the proportion was 59·1. The chief causes of decline in the high and middle stages are (1) the general economic depression; (2) the still lingering effects of the political agitation; (3) the unremunerative character of the education at present imparted; and lastly, (4) the popularity of the senior and junior madrasas. **Statistics of Muhammadan pupils.**

2. Of the total Muhammadan pupils 743,910 were reading in schools for males at the close of the year and 157,804 in schools for females. The number of Hindu pupils in the two classes of institutions numbered 874,887 and 126,965, respectively. Thus while the Hindus had a marked superiority in numbers in schools for males, in schools for females they were greatly out numbered by the Moslems. **Hindu and Muhammadan pupils.**

3. The year under review closed with 346 madrasas—14 senior and 332 junior, which had 26,156 pupils on their rolls. In the previous year there were 335 madrasas with 25,036 pupils. Pupils reading in these institution increased by 4·47 per cent. during the year under report. The total direct expenditure on all madrasas amounted to Rs. 6,64,675 of which Rs. 3,39,981 was met from public funds. **Madrasas.**

4. The number of maktabs—recognised and unrecognised—fell from 14,673 to 14,303 of which 9,715 were for boys, and 4,588 for girls. This decrease in number is said to be due to the closing of some weak and inefficient maktabs. The number of pupils attending these institutions, however, rose slightly from 401,764 to 402,449. Of the pupils 293,566 were boys and 108,883 were girls, as compared with 292,793 boys and 108,971 girls in the preceding year. The total direct expenditure on maktabs rose from Rs. 9,90,484 to Rs. 11,09,071 to which public funds contributed Rs. 5,89,287, as compared with Rs. 5,63,273 in 1921-22. The arrangements referred to in previous reports for the inspection of maktabs by Muhammadan Sub-Inspectors of Schools in certain districts were continued during the year 1922-23. **Maktabs.**

Recognition of reformed course Madrasa.

5. During the year under review the Serajganj Madrasa applied for recognition as an Islamic Intermediate College, which was granted.

Maintenance grants for madrasas.

6. No funds were available during the year under review for giving additional maintenance grants to madrasas under the reformed scheme.

Junior Madrasa examination.

7. In the Junior Madrasa examination, which was held in October 1922, 611 boys appeared, of whom 477 or 78 per cent. were successful.

Islamic Matriculation and Islamic Intermediate examinations.

8. Eighty-two candidates sat for the special Islamic Matriculation examination and 16 for the Islamic Intermediate examination—both of which were conducted by the Board of Secondary and Intermediate Education, Dacca; the numbers of successful candidates in the two examinations were 61 and 13, respectively.

Calcutta Madrasa.

9. The committee appointed by Government in 1921 to enquire into the general condition of the Calcutta Madrasa and to make proposals for its improvement submitted their report in October 1922. The report is now under the consideration of Government.

Special facilities for Muhammadans.

10. Muhammadan pupils continued to enjoy, during the period under review, the special concessions referred to in previous reports, viz., reservation of seats in Government and aided schools; grant of special stipends and scholarships, and of free studentships to the extent of 15 per cent. of the total enrolment.

Special scholarships for Muhammadans.

11. In February 1923 the Government of Bengal in the Ministry of Education sanctioned for the benefit of Moslem students the creation of the following scholarships tenable in various educational institutions in the province :—

(*i*) Three junior scholarships of the value of Rs. 10 per mensem, each, tenable for two years in any Intermediate College within the Dacca University area.

(*ii*) Nine junior scholarships of the value of Rs. 10 per mensem, each tenable for two years in any college affiliated to the Calcutta University.

(*iii*) Six senior scholarships of the value of Rs. 10 per mensem, each tenable for three years in the Dacca University.

(*iv*) Six senior scholarships of the value of Rs. 10 per mensem, each tenable for two years in any college affiliated to the Calcutta University.

(*v*) Two graduate scholarships of the value of Rs. 25 per mensem each tenable for one year in the Dacca University.

(*vi*) Two graduate scholarships of the value of Rs. 25 per mensem, each tenable for two years in the Calcutta University.

(*vii*) Two scholarships of the value of Rs. 25 per mensem, each tenable for three years in the Mechanical and Electrical Engineering classes of the Bengal Engineering College, Sibpur.

(*viii*) Two scholarships of the value of Rs. 25 per mensem, each tenable for three years in the Mining classes of the Bengal Engineering College, Sibpur.

(*ix*) Four scholarships of the value of Rs. 15 per mensem, each tenable for two years in the Sub-Overseer classes of the Ashanulla School of Engineering, Dacca.

CHAPTER XI.

Education of special classes.

Education of Chiefs and Nobles.

There are special arrangements in the Nawab Bahadur's Institution at Murshidabad for educating the boys of the Nizamat family. The Institution is a high school open to all, but at the head of it there is a European officer

and special residential arrangements are made for boys of the Nizamat family. Twenty-six boys of the Nizamat family received instruction in the Institution during 1922-23 as compared with the same number in 1921-22. The cost of these arrangements to Provincial Revenues amounted during the year to Rs. 6,531 against Rs. 4,400 in the year preceding.

Education of aborigines and the children of depressed classes.

2. Among the depressed classes the Namasudras have taken up education as a means of advancement with real earnestness, and are showing commendable progress year after year. The following table shows the total number of depressed classes pupils under instruction in the various stages during the year 1922-23 :—

	Boys.	Girls.	Total.
In Primary stage	106,138	11,926	118,064
In Secondary "	5,125	176	5,301
In College "	268	...	268
In Professional Colleges ...	58	...	58
In special schools	5,135	18	5,153
Total ...	116,724	12,120	128,844

The corresponding figures for the preceding year were 85,159 ; 11,393 ; and 96,552, respectively. In the paragraphs below an account is given of the progress made by pupils of backward classes in each division of the Presidency during the year under review.

Calcutta.

There were 9 primary and 2 special schools in Calcutta with 401 pupils altogether. of whom 331 were Domes, Muchis, Dosads and Pods. In addition to these 1,185 pupils of depressed classes were educated in ordinary schools along with pupils belonging to other grades of society.

Presidency Division outside Calcutta.

In the year under report 44,453 boys and 2,547 girls of the depressed classes were under instruction. In the districts of Jessore and Khulna the Namasudras and Pods are said to have started 1 High and 6 Middle Schools for their children. Pupils of the backward classes won 7 Middle and 5 Upper Primary scholarships. The Society for the Improvement of Backward classes in Bengal aided 69 primary schools ; 3 schools were also maintained for the benefit of the depressed classes out of the contribution paid from the Sussex Trust Fund. Two special schools in the colonization area of the 24-Parganas which exist for the children of settlers were encouraged with liberal grants from Provincial Revenues.

Burdwan Division.

The number of aboriginal pupils under instruction increased from 7,351 to 7,791 and of depressed Hindus from 11,950 to 12,300. There were 210 primary schools for Sonthals. The American Baptist Mission managed one Middle English School for Sonthal boys, and one Middle Vernacular School for Sonthal girls at Bhimpur in Midnapore. The Wesleyan Mission also managed one Middle Vernacular School for boys, besides a Training School for Sonthal Teachers at Sarenga in Bankura. Eight Lower Primary scholarships were awarded to Sonthal pupils. As previously, special endeavours were made to encourage the children of depressed classes to join primary schools by admitting them as free pupils and by reserving Lower Primary scholarships for them. The Society for the Improvement of Backward classes subsidized 17 schools including a Middle English School in Burdwan.

Dacca Division.

Of the 49,840 pupils of aboriginal and backward classes under instruction in the division, 41,269 were Namasudras. In the district of Dacca there were 10 schools for fishermen's children (three of which were aided by the Education Department), 5 for Muchis and 21 for Namasudras. Mymensingh had 3? schools chiefly intended for Garos and other aboriginal races Faridpur had 2 primary schools—one for boys and one for girls—for Buna pupils. The District Board of Bakarganj managed 11 free Primary Schools for Magh boys and 1 for Magh girls in the colonization area of the Sundarbans. Eight Middle and 10 Upper Primary scholarships were awarded to pupils of the depressed classes.

Chittagong Division.

In the Chittagong Division 4,382 aboriginal pupils and 6,841 pupils of the depressed classes were under instruction. The Hill Tracts had 1 High, 2 Middle English, 1 Industrial, 159 Primary and 38 Indigenous schools besides 2 Training classes for Chakmas, Maghs and Tipras. Tippera had 1 Middle English, 11 Primary and 33 Kyang schools. Eight Upper Primary and 16 Lower Primary scholarships were won by aboriginal pupils. Pupils of the depressed classes were awarded 5 Middle English, 2 Middle Vernacular, 4 Upper Primary and 5 Lower Primary scholarships during the year under review.

Rajshahi Division.

The Rajshahi Division had 2,458 boys and 26 girls of aboriginal races under instruction. The Board of Sonthal Edcation in Dinajpur is reported to be doing good work. The work of the Salvation Army at Syedpur for the education of the Nutts—a criminal tribe—is laudable. A scheme for the education of the Sonthals, who have settled in Malda, has been under consideration.

Education of defectives.

3. The Children's House, Kurseong, alluded to in Chapter IX, is reported to have made satisfactory progress, and had 11 pupils under training on 31st March 1923. The Deaf and Dumb School and the school for blind children at Calcutta had altogether 125 children on the rolls and cost Rs. 34,149. Dacca, Barisal and Faridpur had each a school for the education of deaf and dumb children ; altogether the schools had 41 (including 7 girls) pupils and cost Rs. 5,084. There is a weaving class attached to the Barisal school in addition to the primary classes. A school for deaf and dumb children was started at Chittagong with 6 pupils including 2 girls during the year under report. As previously, various District Boards provided special stipends for the benefit of defective children who were under training at the Calcutta schools.

Tea-garden schools.

4. Darjeeling had 76 schools with 1,238 pupils for the education of the children of tea-garden employees, and Jalpaiguri had 37 schools with 512 pupils. The total cost of the tea-garden schools was Rs. 12,419 including Rs. 7,177 from Provincial Revenues.

Education of factory children.

5. For the children of the employees of mills and factories, as well as artisans, there were three special schools—one at Titagarh with two sections (one Hindi and another Urdu) to suit Hindu and Muhammadan pupils, respectively, and two at Ichapur. The school at Titagarh is a free Primary School ; Government contributes Rs. 60 a month towards its up-keep. A building has also been provided for the school at Government cost. Of the two schools at Ichapur, one received Rs 1,680 from Provincial Revenues during the year for its maintenance. Both schools have been provided by the managers with decent buildings. The children of millhands also attend various Maktabs and Hindi Primary Schools, which exist in the mill areas of 24-Parganas. There is no provision at present for the education of the children of labourers employed in the silk and indigo factories in Murshidabad.

Additional grant.

6. An additional grant of Rs. 20,000 has been made available since the year 1922-23 for the improvement of education among backward classes ; the amount was distributed during the year under review in the following way :—

(*i*) In affording greater facilities for the training of aboriginal teachers.

(*ii*) In giving additional recurring grant (besides a capital grant of Rs. 12,329) of Rs. 3,250 to the Society for the Improvement of Backward classes in Bengal.

(*iii*) In the creation of the undermentioned special scholarships :—

2 Graduate scholarships of Rs. 30 per mensem.

4 Junior	,,	,,	,,	10	,,

CHAPTER XII.

Unrecognised Institutions.

There were 1,298 institutions with 44,704 pupils against 1,840 with 55,437 pupils last year. As mentioned in the previous reports, schools teaching advanced courses in Arabic or Sanskrit, the Koran, and giving elementary instruction in the vernacular belong to this category. A decrease in the number of unrecognised schools means, as a rule, their transfer to the class of recognised institutions and is not therefore necessarily a cause for regret. Their disappearance is sometimes due, however, to perfunctory teaching and unsatisfactory discipline which causes a lack of public confidence. Of the 44,704 pupils reading in these schools on 31st March 1923, 19,129 were Hindus and 24,065 Muhammadans; the rest, viz., 1,510 belonged to various other communities.

CHAPTER XIII.

Physical and Moral Training.

Hostels and Messes.

Of the 25,721 boarders residing in hostels at the end of the year under review 21,056 were Indians and 4,665 Europeans and Anglo-Indians; the figures for the preceding year were 26,350, 21,680 and 4,670, respectively. Of the Indians 18,538 were males and 2,518 females. The European and Anglo-Indian boys and girls numbered 3,077 and 1,588 respectively. The decline in the number of boarders is attributed generally to the higher cost of living in hostels.

Two blocks of the new Hindu hostel attached to the Rajshahi College with accommodation for 50 students in each were opened during the year under review; the remaining blocks are under construction. As a measure of retrenchment, proposals were submitted to Government in March 1923 for a revision of the scales in accordance with which the allowances of superintendents of hostels are paid. The revised rules reduce the allowance of the superintendent of a college hostel by one-third, and that of a school hostel by one-half of the present rates. The proposals were under the consideration of Government at the end of the year under review.

A house known as "Ramna House" was adapted, at the beginning of the session for the purpose of a hostel for 12 Anglo-Indian students in connexion with the Dacca University; unfortunately the hostel remained unoccupied during the session.

2. As in previous years the mess schemes at Calcutta and Dacca were managed by the local standing committees through the inspectors of messes with assistance from Provincial Revenues. The students' residence scheme at Dacca provides accommodation for college students as well as for pupils of recognized high schools and madrasahs in the town. To ensure the financial stability of the Dacca messes reserve funds have been started in connexion with most of them.

Physical Training.

3. A temporary post of Physical Adviser was created in the Bengal Educational Service for 2 years for the present with effect from 1st August 1922, to which Mr. N. Ghosh, B.A., who qualified in Physical Education at Sheffield (England) has been appointed. Mr. Ghosh is general adviser to the Education Department in all matters connected with Physical Education. His chief duty is to visit schools and colleges (with the exception of European schools) all over the Presidency, giving demonstrations on modern methods of physical training or educational gymnastics, and helping in the organisation of athletics and games. Owing to financial stringency the Gymnastic Teachers' Annual Training Class, last held in February 1919, could not be revived, though short courses were conducted at the more important educational centres. There is a crying need for the training of teachers who are

entrusted with the physical education of students. An endeavour was made to equip aided institutions with play-grounds and sports materials to the extent of Rs. 15,000 and Rs. 6,250, respectively by a supplementary budget grant, but the provision was retrenched later in the year.

A course of lectures was given by Mr. Ghosh to the pupils of the David Hare Training College, practical work being done in the Young Men's Christian Association gymnasium. Satisfactory work is reported to have been done at the Rajshahi, Chittagong and Dacca Intermediate Colleges. Some form of physical exercise is compulsory in the Rajshahi, Chittagong and Krishnagar Colleges; other Government Colleges are handicapped for want of adequate play-ground facilities. Outdoor English games have taken a firm hold of the Bengali student, but the numbers actually taking part in them are proportionately small. Mr. Barrow says with reference to the Presidency College, "The utility of trying to encourage English games in Indian Colleges is a point about which I feel increasingly sceptical". In St. Paul's C. M. S. and the Scottish Churches Colleges the staff and the students have cooperated in ensuring attendance at their play-ground which has been fairly busy, and have given a good lead to private colleges. In some places in East Bengal, which are submerged during the rains, boat-races are held, as no other games are then practicable.

Drill. 4. Drill forms a part of the curriculum in a few of the colleges, for example the Chittagong and St. Paul's C. M. S. Colleges and in all schools, though limited in some to the fourth class downwards. The Bakarganj District Board continued the arrangement of training primary school teachers in drill by a peripatetic drill master.

Indigenous games are popular in Eastern Bengal, knock-out tournaments and leagues attracting large entries. Football is the most popular of all games.

In connexion with physical education and hygiene teaching in girls' schools, the Inspectress of Schools, Presidency and Burdwan Divisions, reports that most valuable work is being done in this direction by the Girl Guides Association and St. John's Ambulance Association respectively, but much has not been done, so far owing to prejudice against physical exercises. She pertinently observes, "It is extremely interesting to compare the physique of Brahmo and Christian girls, that is non-pardah girls, with that of Hindu and Muhammadan girls. The contrast is in most cases striking, for the latter are smaller in every way."

Religious and Moral Instruction. 5. Moral instruction is given, but there are no special arrangements anywhere for imparting religious instruction except in certain denominational schools, viz., tols, maktabs, madrasahs, and mission and Brahmo schools.

Discipline. 6. Discipline is now understood generally in the negative sense of absence of open disorder rather than in its positive sense of manifestation of right conduct. No serious breaches of discipline came to notice during the year under review; the cases reported were mostly concerned with violation of inter-school rules, or use of unfair means by boys during examinations, which were suitably dealt with. Political agitation among students has apparently subsided for the time being at any rate. Schools and colleges have not, however, fully recovered yet from the effects of the disturbances of preceding years, which were in essence economic rather than political. "A tone of listlessness," the Principal of the Narail Victoria College remarks, "is however more distinctly perceptible among the boys than before. It is difficult to diagnose its causes—how far it is the effect of the last political unrest, and how far it is due to a clearer recognition of the unremunerative nature of school work." Dr. Dunn, Inspector of Schools, Presidency Division, sums up the situation thus "If we could find a definite goal for the unquestioned ability and powers of application possessed by the Bengali student, the whole educational problem would be solved."

National Schools. 7. During the year ending 31st December 1922 there were 175 National schools in the Presidency with 12,791 pupils as against 170 schools with 13,468 pupils in the preceding year. But these statistics do not appear to be wholly accurate, as the authorities of the schools often refuse to supply the necessary information. The number includes High and Middle English schools, Technical schools, Madrasahs, Primary schools and a National College

at Dacca. These schools do not follow any uniform curriculum, but all of them provide for the teaching of Spinning and Weaving as compulsory subjects. There is no regularity in attendance and the schools are gradually losing influence over the public on whose charity their existence depends. The Inspectors of Schools are of opinion that the schools will collapse sooner or later chiefly through financial weakness

CHAPTER XIV.

Conferences.

A conference presided over by Mr. W. W. Hornell, Director of Public Instruction, Bengal, was held at the Calcutta Free School on 21st March 1923 to consider changes in the European Schools Code for Bengal. Conferences of Educational Officers were also held at the headquarters of the Presidency, Burdwan and Chittagong Divisions, in which matters of general importance were discussed. No similar conference was, however, held at the headquarters of the Dacca and Rajshahi Divisions, the chief consideration against holding a conference being financial. The Chairman of the Chittagong District Board held a conference of inspecting officers to discuss how the expansion of primary education could be effected in the district.

CHAPTER XV.

Text-Book Committees.

There are still two separate Text-Book Committees in the Presidency—one at Calcutta and the other at Dacca.

2. The special feature of the year 1922-23 was the introduction of the revised curriculum for primary schools; the curriculum has been prescribed for primary schools in all the districts except six. The object of this arrangement is to enable a comparison to be made between the old and the new curricula with a view to ascertaining the suitability or otherwise of the new.

3. In terms of notification No. 1 T.B., dated the 31st January 1923, all text-books for primary schools prepared according to the revised syllabus are to be received, considered, and disposed of by the Calcutta Text-Book Committee. Two additional non-official Muhammadan members from East Bengal have been appointed to help the Secretary, Calcutta Text-book Committee, in the matter. During the year under report, four vacancies occurred in the memberships of the Calcutta Committee.

4. Out of 888 books considered by the Calcutta Text-Book Committee during the year 296 were approved. The Dacca Text-Book Committee approved 285 books out of 796 considered.

CHAPTER XVI.

Education in the Legislative Council.

All phases of education, primary, secondary, collegiate and technical received the due share of attention in the Bengal Legislative Council. As before the annual budget debate provided ample opportunities to the members of Council for discussing the scope, aims and methods of the present system of education, and showed the importance, which the public attached

to the subject. Numerous questions were asked, and resolutions were moved. The revision of the scale of salaries for ministerial officers employed in the Education Department formed the subject of repeated interpellations in the Council. A lively debate ensued on the motion for giving an additional grant of Rs. 2½ lacs to the University of Calcutta to enable the University authorities to pay up a part of the outstanding deficits. The conditions attached to the grant were adversely criticised by some members; some again reproached the University with reckless expenditure in connection with the maintenance of the Post-graduate Department. In the end a settlement was reached, and the grant was paid.

2. Towards the close of the year two Bills—one framed by Mr. J. M. Bose and the other by Mr. S. N. Mallik were introduced into the Council mainly with a view to the reconstitution of the Calcutta University on popular basis (the object of Mr. Mallik's Bill was further to improve the financial administration of the University). Both the Bills were, however, withdrawn.

DRAFT RULES.

PRELIMINARY.

Short title.

1. These rules may be called the Indian Workmen's Compensation Rules, 1924.

(*a*) "the Act" means the Workmen's Compensation Act, 1923.
(*b*) "Form" means a form appended to these rules.
(*c*) "section" means a section of the Act.

PART I.

REVIEW OF HALF-MONTHLY PAYMENTS AND COMMUTATION THEREOF.

When application may be made without medical certificate.

3. Application for review of a half-monthly payment under section 6 may be made without being accompanied by a medical certificate—

(*a*) by the employer, on the ground that since the right to compensation was determined the workman's wages have increased ;
(*b*) by the workman, on the ground that since the right to compensation was determined his wages have diminished ;
(*c*) by the workman, on the ground that the employer, having commenced to pay compensation, has ceased to pay the same, notwithstanding the fact that there has been no change in the workman's condition such as to warrant such cessation ;
(*d*) either by the employer or by the workman on the ground that the workman has ceased since the right to compensation was determined to be a minor, provided that a certificate of the nature referred to in section 18 or any other certificate of a qualified medical practitioner is produced in support of the application ;
(*e*) either by the employer or by the workman, on the ground that the determination of the rate of compensation for the time being in force was obtained by fraud or other unlawful means.

Procedure on application for review.

4. If, on examining an application for review by an employer in which the reduction or discontinuance of half-monthly payments is sought, it appears to the Commissioner that there is ground for believing that the employer has a right to such reduction or discontinuance, he may at any time issue an order withholding the half-monthly payments in whole or in part pending his decision on the application.

Procedure on application for commutation.

5. (*1*) Where application is made to the Commissioner under section 7 for the redemption of a right to receive half-monthly payments by the payment of a lump sum, the Commissioner shall award such sum as is sufficient, with simple interest at the rate of one per cent. per mensem, to provide the total of the half-monthly payments which would be payable for the period during which he estimates that the disablement will continue.

(2) When in any case to which sub-rule (1) applies, the Commissioner is unable to form an approximate estimate of the probable duration of the disablement, he may from time to time postpone a decision on the application for a period not exceeding two months at any one time.

PART II.

(3) The statement of disbursements to be furnished on application by the employer under sub-section (4) of section 8 shall be in Form C.

Procedure where amount deposited insufficient.

7. If it appears to the Commissioner that a sum deposited under sub-section (1) of section 8 is less than the amount of compensation payable under sub-section (1) of section 4, he may at any time before completing the distribution of the sum so deposited, either on his own motion or otherwise, require the employer to deposit such further sum as will, with the sum previously deposited, make up the amount so payable.

Procedure where no compensation deposited.

8. (1) Where a dependant of a deceased workman claims that compensation is payable in respect of the death of the workman, and no compensation has been deposited in accordance with sub-section (1) of section 8 in respect thereof, the dependant may apply to the Commissioner for the issue of an order requiring the employer to deposit compensation in accordance with the said sub-section :

Provided that no such application shall be entertained unless the applicant certifies therein that he has requested the employer to deposit compensation and that the employer has refused or omitted to do so.

(2) The Commissioner shall dispose of such application in accordance with the provisions of Part V of these rules : Provided that—

(a) the Commissioner may, at any time before issues are framed, cause notice to be given in such manner as he thinks fit to all or any of the dependants of the deceased workman who have not joined in the application, requiring them, if they desire to join therein to appear before him on a date specified in this behalf ;

(b) any dependant to whom such notice has been given and who fails to appear and to join in the application on the date specified in the notice shall not be permitted thereafter to claim that the employer is liable to deposit compensation.

(3) If, after completing the inquiry into the application, the Commissioner issues an order requiring the employer to deposit compensation in accordance with sub-section (1) of section 8, nothing in sub-rule (2) shall be deemed to prohibit the allotment of any part of the sum deposited as compensation to a dependant of the deceased workman who failed to join in the application.

Deposit under section 8 (2).

9. An employer depositing compensation in accordance with sub-section (2) of section 8 shall furnish therewith a statement in Form D and shall be given a receipt in Form E.

PART III.

Procedure in connection with local inspection.

34. (1) If the Commissioner proposes to conduct a local inspection with a view to examining on the spot the circumstances in which an accident took place, he shall give the parties or their representatives notice of his intention to conduct such inspection unless in his opinion the urgency of the case renders the giving of such notice impracticable.

(2) Such notice may be given orally or in writing, and, in the case of an employer, may be given to any person upon whom notice of a claim can be served under sub-section (2) of section 10, or to the representative of any such person.

(3) Any party, or the representative of any party, may accompany the Commissioner at a local inspection.

(4) The Commissioner, after making a local inspection, shall note briefly in a memorandum any facts observed, and shall show the memorandum to any party who desires to see the same, and, on payment of the prescribed fee, shall supply any party with a copy thereof.

(5) The memorandum shall form part of the record.

Power of summary examination.

35. (1) The Commissioner during a local inspection or at any other time, save at a formal hearing of a case pending before him, may examine summarily any person likely to be able to give information relative to such case whether such person has been or is to be called as a witness in the case or not and whether any or all of the parties are present or not.

(2) No oath shall be administered to a person examined under sub-rule (1).

(3) Statements made by persons examined under sub-rule (1), if reduced to writing, shall not be signed by the person making the statement, nor shall they, except as hereinafter provided, be incorporated in the record or utilized by the Commissioner for the purpose of arriving at a decision on the case.

(4) If a witness who has been exmined under sub-rule (1) makes in evidence any material statement contradicting any statement made by him in such examination, the Commissioner may call his attention to such statement, and shall in that case direct that the parties be furnished with the relevant part of such statement for the purpose of examining or cross-examining the witness.

(5) Any statement or part of a statement which is furnished to the parties under sub-rule (5) shall be incorporated in the record.

(6) Where a case is settled by agreement between the parties the Commissioner may incorporate in the record any statement made under sub-rule (1) and may utilize such statement for the purpose of justifying his acceptance of, or refusal to accept, the agreement reached.

Agreement to abide by Commissioner's decision.

36. (1) If an applicant states in his application his willingness to abide by the decision of the Commissioner, the Commissioner shall, before commencing the hearing of the case, inquire whether the opposite party is willing to abide by his decision.

(2) If the opposite party agrees to abide by the Commissioner's decision, the fact of his agreement shall be recorded in writing and signed by him.

(3) If the opposite party does not agree to abide by the Commissioner's decision, the party filing the application shall not remain under an obligation so to abide.

Procedure where indemnity claimed under section 12 (2).

37. (1) Where the opposite party claims that if compensation is recovered against him he will be entitled under sub-section (2) of section 12 to be indemnified by a person not being a party to the case, he shall, when first called upon to answer the application, present a notice of such claim to the Commissioner accompanied by the prescribed fee and the Commissioner shall thereupon issue notice to such person in Form G.

(2) If any person served with notice under sub-rule (1) desire to contest the applicant's claim for compensation or the opposite party's claim to be indemnified, he shall appear before the Commissioner on the date fixed for the hearing of the case or on any date to which the case may be adjourned and, if he so appears, shall have all the rights of a party to the proceedings; in default of so appearing he shall be deemed to admit the validity of any award made against the opposite party and to admit his own liability to indemnify the opposite party for any compensation recovered from him.

(3) In any proceeding in which a notice has been served on any person under sub-rule (1) the Commissioner shall, if he awards compensation, record in his judgment a finding whether the person against whom such claim is made is or is not liable to indemnify the opposite party.

Procedure in connected cases.

38. (1) Where two or more cases pending before a Commissioner arise out of the same accident, and any issue involved is common to two or more such cases, such cases may, so far as the evidence bearing on such issue is concerned, be heard simultaneously.

(2) Where action is taken under sub-rule (1), the evidence bearing on the common issue or issues shall be recorded on the record of one case, and the Commissioner shall certify under his hand on the records of any such other case the extent to which the evidence so recorded applies to such other case, and the fact that the parties to such other case had the opportunity of being present, and, if they were present, of cross-examining the witnesses.

Certain provisions of Code of Civil Procedure, 1908, to apply.

39. Provided that—

(a) for the purpose of facilitating the application of the said provisions, the Commissioner may construe them with such alterations not affecting the substance as may be necessary or proper to adapt them to the matter before him;

(b) the Commissioner may, for sufficient reason, proceed otherwise than in accordance with the said provisions, if he is satisfied that the interests of the parties will not thereby be prejudiced.

PART VI.

40. (1) A Commissioner transferring any matter to another Commissioner for report in accordance with sub-section (2) of section 24 shall, along with the documents referred to in that sub-section, transmit to such other Commissioner a concise statement, in the form of questions for answer, of the matter on which the report is required.

(2) A Commissioner to whom a case is so transferred for report shall not be required to report on any question of law.

Form of memorandum.

43. Memoranda of agreement sent to the Commissioner under sub-section (1) of section 28 shall, unless the Commissioner otherwise directs, be in duplicate and shall be in as close conformity as the circumstances of the case admit with Form H or Form J, as the case may be.

Procedure where Commissioner on receipt of memorandum does not consider that he should refuse to record it.

44. (1) On receiving a memorandum of agreement the Commissioner shall, unless he considers that there are grounds for refusing to record the memorandum, fix a date for recording the same, and shall issue a notice in writing in Form K to the parties concerned that in default of objections he proposes to record the memorandum on the date so fixed:

Provided that the notice required to be communicated by proviso (a) to sub-section (1) of section 28 may be communicated orally to any parties who are present at the time when notice in writing would otherwise issue.

(2) On the date so fixed the Commissioner shall record the memorandum unless, after hearing any of the parties who appear and desire to be heard, he considers that it ought not to be recorded:

Provided that the issue of a notice under sub-rule (1) shall not be deemed to prevent the Commissioner from refusing to record the memorandum on the date so fixed even if no objection be made by any party concerned.

(3) If on such date the Commissioner decides that the memorandum ought not to be recorded, he shall inform the parties present of his decision and of the reasons therefor, and, if any party desiring the memorandum to be recorded is not present, he shall send information to that party in Form L.

(2) If the parties to be informed are not present, a written notice shall be sent to them in Form M or Form N, as the case may be, and the date fixed in such notice shall be not less than seven days after the date of the issue of the same.

(3) If on the date fixed under sub-rule (1), the party or parties desiring the memorandum to be recorded show adequate cause for proceeding to the record of the same, the Commissioner may, if information has already been given to all the parties concerned, record the agreement. If information has not been given to all such parties, he shall proceed in accordance with rule 44.

(4) If on the date so fixed the Commissioner refuses to record the memorandum, he shall send notice in Form L to any party who did not receive information under sub-rule (1).

(3) Where the agreement is for the redemption of half-monthly payments by the payment of a lump sum and the Commissioner considers that the memorandum of agreement should not be recorded by reason of the inadequacy of the amount of such sum as fixed in the agreement, he shall record his estimate of the probable duration of the disablement of the workman together with his reasons for the estimate.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February 1924:—

No. 1 OF 1924.

A Bill further to amend the Indian Penal Code for certain purposes.

WHEREAS it is expedient further to amend the Indian Penal Code for certain purposes hereinafter appearing; It is hereby enacted as follows:— XLV of 1860.

Short title and commencement.

1. (*1*) This Act may be called the Indian Penal Code (Amendment) Act, 192 .

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Amendment of sections 361, 372 and 373, Act XLV of 1860.

2. In sections 361, 372 and 373 of the Indian Penal Code, for the word "sixteen" the word "eighteen" shall be substituted. XLV of 1860.

STATEMENT OF OBJECTS AND REASONS.

In 1923 the Indian Legislature passed an Act to give effect to certain Articles of the International Convention for the suppression of the traffic in women and children, namely, Act XX of 1923. Section 3 of this Act inserted a new section—366A—in the Indian Penal Code, prescribing an age-limit of eighteen years in respect of the offence of procuration of minor girls. The Act was not brought into force immediately on its being assented to by the Governor General, as it was considered that Local Governments should be consulted on the advisability of retaining the age of 18 years in the new section 366A in view of the age-limits laid down in the Code for more serious kindred offences. After considering the opinions received, the Government of India have decided to bring forward the present Bill with the object of raising the age-limit in sections 361, 372 and 373 of the Code from sixteen to eighteen years. It is proposed to bring Act XX of 1923 into force simultaneously with the present Bill, if it is passed into law.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 6th February 1924 :—

No. 8 OF 1924.

A Bill to amend the Indian Passport Act, 1920, for certain purposes.

WHEREAS it is expedient to amend the Indian Passport Act, 1920, for certain purposes hereinafter appearing; It is hereby enacted as follows:— XXXIV of 1920.

Short title.

1. This Act may be called the Indian Passport (Amendment) Act, 192 .

Amendment of section 3, Act XXXIV of 1920.

2. In sub-section (*2*) of section 3 of the Indian Passport Act, 1920 (hereafter referred to as the said Act), the word "and" at the end of clause (*b*) shall be omitted, and after that clause the following clause shall be inserted, namely :— XXXIV of 1920.

"(*bb*) prohibit any person, who has entered British India under a passport authorising such entry for a specified temporary purpose only, from remaining in British India after the expiry of such period as is reasonably sufficient for such purpose, or from going to any place in British India otherwise than for such purpose ; and ".

Amendment of section 5, Act XXXIV of 1920.

3. In section 5 of the said Act, for the words "in contravention of any rule made under section 3 prohibiting entry into British India without passport, has entered therein," the following shall be substituted, namely :—

"has entered, or remained in, or gone to any place in, British India in contravention of any rule made under section 3."

STATEMENT OF OBJECTS AND REASONS.

The attention of the Government of India has been drawn to the fact that there is no provision at present in the Rules framed under the Indian Passport Act, 1920, imposing a penalty for a breach of the conditions of a trans-shipment or transit visa which require the holder to leave India by a specified date. In a few cases recently *ex*-enemy aliens have come to India with a trans-shipment visa and have stayed in the country longer than was necessary for the purpose of trans-shipment, but could not be dealt with under the Act, which provides a penalty for entering India without a passport, but not for remaining in India. It is considered that the provision of a penalty clause in the Indian Passport Act, 1920, itself should discourage undesirables from disregarding the terms of their visa. To meet this object the Government of India have decided to bring forward the present Bill amending the Indian Passport Act, 1920.

DELHI,

(2) Nothing in section 552B or this section shall affect any power exerciseable under the law for the time being in force by any Civil Court or Court of Wards in respect of the appointment or declaration of a guardian of the person of a minor, and, if an order under section 552B or section 552C is made in respect of any female and a guardian of the person of such female is subsequently appointed or declared by any Civil Court or Court of Wards, the order and any bond taken under section 552C shall be deemed to have been cancelled and the female shall be made over to the guardian so appointed or declared.

(3) Save as expressly provided by section 552C or this section, no Court shall entertain any suit or other legal proceeding to enforce any right or power which would interfere with the control of the custodian over the female as provided for by or under sub-section (1)."

STATEMENT OF OBJECTS AND REASONS.

In September 1912, Mr. (now Sir) M. Dadabhoy introduced in the Indian Legislative Council a Bill for the protection of women and girls and other purposes. In the light of the opinions received from Local Governments on that Bill, the Government of India considered that, while Sir M. Dadabhoy's measure, in the form in which it was introduced, was not altogether suitable, nevertheless the degree of acceptance which was accorded to the principle underlying it, namely, the desirability of strengthening the Law for the safeguarding of minor girls and affording some facilities for the rescue of children from undesirable surroundings, justified a cautious advance in this direction. In September 1913, Government accordingly introduced a Bill to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, with that object in view. The Bill was circulated for the opinion of Local Governments, and when these opinions were received, it was referred to a Select Committee whose report was presented in March 1914. The Committee made material alterations in the Bill and recommended its republication. The Local Governments were again consulted on the Bill as amended by the Select Committee, but further consideration was postponed owing to the outbreak of the War. Since then, however, some local legislatures have enacted laws dealing with the protection of children and the suppression of brothels and prostitution.

2. On the 27th February 1922, Dr. H. S. Gour moved, and the Legislative Assembly adopted, a Resolution recommending to the Governor-General in Council that a law be enacted prohibiting the wholesale traffic in minor girls for immoral purposes ostensibly intended as *devadasis* but in reality used for indiscriminate immoral purposes. The present Bill is the outcome of the discussion on that Resolution, and it reproduces the provisions of the Bill of 1914 as amended by the Select Committee, with certain modifications which have been introduced in view of the opinions of Local Governments collected in 1914, and the provisions of the Indian Penal Code (Amendment) Act, 1923 (XX of 1923), and of the local laws enacted for the protection of children. The main provisions of the Bill fall within two categories: one part is designed to remedy defects in the provisions of sections 372 and 373 of the Indian Penal Code and the other part provides a procedure for the rescue of girls living in circumstances calculated to lead to prostitution which will be capable of adoption in cases in which there is suitable custody to which the girl can be committed. The purport of the principal clauses is given in the notes below.

Notes on Clauses.

Clause 2.—The amendment is designed to make it clear that an offence is committed under section 372 or 373 of the Indian Penal Code, when the minor is either disposed of or procured for the purpose of being sexually known either before or after attainment of the age of eighteen years, and whether she is made over to a life of immorality or merely subjected to an isolated act of carnal intercourse. In either case the child is equally deserving of protection. The age of eighteen years has been fixed with reference to the provisions of the Indian Penal Code (Amendment) Act, 1923.

Clause 3.—The first Explanation provides that if a minor girl is disposed of to a prostitute or a brothel-keeper or manager, the person so disposing of her shall be presumed to have done so with the improper intent mentioned in section 372 of the Indian Penal Code.

The second Explanation defines the offence of illicit intercourse as sexual intercourse between persons not united by marriage or by any union or tie which, though not amounting to a marriage, is recognised by the personal law or custom of the community concerned, as constituting between them a *quasi*-marital relation.

Clause 4.—The amendments are consequential to the Explanations added by clause 3.

Clause 5.—Under the provisions of section 552 of the Code of Criminal Procedure a Magistrate may compel the restoration of abducted females, if their age is less than fourteen years. The clause increases the age to sixteen years. It is not proposed to increase the age further, as it is considered that it is most suitable to fix sixteen years as the age under which a girl may be restored to her husband, parent, guardian or other person having lawful charge of her.

Clause 6.—Empowers a Presidency or District or Subdivisional Magistrate, or a Magistrate of the first class specially empowered by the Local Government in this behalf, upon knowledge obtained in the course of an inquiry into or trial of an offence under section 372 or 373 of the Indian Penal Code, or on information received from any person not being a police officer of lower rank than an Inspector, to take proceedings for the protection of females under the age of eighteen years or such less age as the Local Government may specify in this behalf, and to commit such females to suitable custody. Local Governments are empowered to make rules for the determination of the suitability of custodians, but such rules must not be inconsistent with any directions contained in the local Children Acts in regard to such matters. The Sessions Judge is empowered to cancel or vary an order of committal to suitable custody on application made within 3 months. The powers of guardians appointed by Civil Courts are safeguarded.

Election Case No. 8 of 1924.

Amulya Dhone Addy

versus

Mr. Byomkesh Chakravarty.
Raja Reshee Case Law, C.I.E.
Mr. Murali Dhar Roy.

Report.

This election petition concerns the Bengal National Chamber of Commerce Special Constituency. It appears that a number of firms are members of the Bengal National Chamber of Commerce. When the electoral roll of this special constituency was prepared, 118 firms or companies were placed on the roll out of a total of 180. Sixty-two persons were entered by their names as electors. There were four candidates on the date of the election to the Bengal Legislative Council. Mr. Byomkesh Chakravarty and Raja Reshee Case Law obtained a majority of votes and were declared elected. The petitioner was an unsuccessful candidate. He filed the present application making the other three candidates parties. There was no allegation against Raja Reshee Case Law and Mr. Murali Dhar Roy, the respondents Nos. 2 and 3. Mr. Murali Dhar Roy did not appear. Raja Reshee Case Law appeared on the first date, but as the petition was not pressed against him he was allowed to depart.

The petition proceeded only against Mr. Byomkesh Chakravarty. The main contention raised by the petitioner is that Mr. Chakravarty is not entitled to be a candidate by reason of the fact that his name does not appear on the electoral roll, though the Bengal National Bank, Limited, of which he is a director, is on the roll. The petitioner also pleaded that firms and companies are not entitled to be registered as electors in the electoral roll and all votes purporting to have been exercised on their behalf ought to be rejected. Certain other allegations were made; but it is not necessary to mention them as they were not pressed. The reply of Mr. Byomkesh Chakravarty is that the petition is out of time, that the petitioner, not having objected to his nomination at the scrutiny of the nomination papers, has waived his right to question the nomination and election, that the Bengal National Bank, Limited, is an ordinary member of the constituency known as the Bengal National Chamber of Commerce Constituency and is therefore rightly registered as an elector and that he as director of the aforesaid bank is duly qualified to be nominated and elected and returned as member of the Bengal Legislative Council. It was mentioned that in other Commerce and Industry Constituencies firms and companies are registered as electors in the rolls of such constituencies. The following issues were framed by us:—

(1) Is the petition barred by time?

(2) Was Mr. Byomkesh Chakravarty properly nominated in view of the fact that his name does not appear in the electoral roll?

(3) Were there any votes improperly received—

(*1*) either because they were votes given by firms and companies, or

(*2*) because the votes were tampered with?

(4) Was Regulation LVI complied with? If not, was the result of the election materially affected thereby?

At the time of the hearing the petitioner gave up issues 3 (*2*) and 4, but an additional issue was framed as follows:—

(5) Has the petitioner waived his right, if any, to question the nomination, election and return of the respondent?

Has he acquiesced in the correctness of the electoral roll, and is he precluded from now questioning its correctness?

Issue No. 1.—The election petition was filed on 2nd January 1924. Mr. Chakravarty filed the return of his election expenses on the 14th December 1923. It appears that the intervening days between the 28th December 1923 and 2nd January 1924 were notified by the Local Government as days to be observed as holidays in Government offices. We have examined the notification and we have no hesitation in holding that the petition is in time.

Issue Nos. 2 and 3.—Rule 8 (*2*) of the Bengal Electoral Rules states that the qualifications of an elector for a special constituency shall be the qualifications specified in schedule II in the case of that constituency. Turning to the Schedule II, 13 (*2*) we find that "*life* and *ordinary members* of the Bengal National Chamber of Commerce.........shall be qualified as electors for the Constituency comprising.........the Chamber of which they are members".

Provided *that no person shall be* so qualified *who has not a place of residence* in India.

There is an explanation which runs :—

"Explanation—Member, life member, ordinary member include—

(*a*) in the case of a firm, any one partner in the firm, or if *no such partner is present in Calcutta at the date fixed for the election*, any one person empowered to sign for such firm, and

(*b*) in the case of a company or other corporation any one manager, director or secretary of the company or corporation."

These qualifications are not enough to get the elector on the electoral roll. To be entitled to have his name registered "the person" must have the above qualifications and must not be subject to the disabilities of minority, lunacy and so on. Rule 7 (*1*) governs rule 8 (*2*). Rule 10 again lays down that the person registered on the electoral roll shall be entitled to vote, but not if he is subject to the disabilities mentioned in rule 7. Rule 6 (*b*) says that no person shall be eligible for election as a member of the Council to represent a special constituency *unless his name is registered on the electoral roll* of the constituency and to be fit for election under rule 5 he must be a British subject, not a female nor a lunatic nor a bankrupt nor an unpardoned *ex*-convict and so forth. Various other rules and regulations including Regulation XV have been referred to and have been considered by us. We cannot but come to the conclusion that the legislature intended that it was a natural person who should have the right to be on roll and to be entitled to vote or nominate or be a candidate. We had the advantage of hearing the learned Advocate-General in the case and he has admitted that if the word "person" is construed strictly the idea of a firm being on the electoral roll must be discarded. We cannot go to the General Clauses Act or the English Interpretation Act for the proposition that a person includes an association. It is our duty to construe the law in question here. It is an accepted canon of construction that unless there is something in the context to the contrary, the same word has the same meaning. The explanation in the schedule means no more than that a firm must exercise the franchise through a partner or representative. It seems that by the constitutions of these chambers and associations firms and companies can be members of these bodies; but we do not consider that the legislature intended to put firms and companies on the electoral roll.

Learned Counsel Mr. H. D. Bose appearing for Mr. Chakravarty wished us to lay stress on the Schedule II, paragraph 13, and he contended that firms and companies can come in He argued that since firms can be on the electoral roll the persons who make up the firm are on the electoral roll and that therefore a partner can be eligible for election.

The learned Advocate-General confessed that the rules were not very clear but wished us to adopt a view, if we could, which would reconcile the law to the existing state of things. He urged that the legislature must have been aware of the constitutions of these associations and chambers and that the draftsman who drew up the rules made the mistake of not making things clear. It was argued by him that since firms can only work through a representative it might be taken that the disabilities which can be predicated only of a natural person were meant to apply only to the representative of the firm. It was pointed out that in these Commerce and Industry Constituencies there is no ballot and the electors need not appear in person, and that the voting papers are sent to them and returned by them to the returning officer.

There is nothing necessarily unreasonable in firms being put on electoral rolls, being allowed to vote and nominate and being even candidates for election; but we venture to think that if this was the intention of the legislature, the legislature would have made rules to carry out the idea. Firms being artificial persons can only act through a natural person. The question is, did the legislature intend that the representative of a firm should be allowed to vote and stand for election without being on the electoral roll? Learned Counsels are really assuming that, by rule 8 read with Schedule II, firms were meant to be electors and then asking us to interpret the other rules in this light. But if we consider the rules and the schedule, the qualifications with their provisos and explanations, the disabilities which electors must not be subject to, and the rule that no votes shall be received by proxy, there is no escape from the conclusion that it is the partner or representative of the firm who should be on the roll and be able to stand for election.

We must not be led into absurdities. Females, lunatics, minors and aliens cannot be electors; but we are to hold that if they join with one another they should be "deemed" as electors. It was suggested by Mr. Bose that they may remain on the electoral roll thus joined as firms; but the disabilities might be considered when they exercise their right to vote. The disabilities have to be taken into account under rule 7 when persons are to be put on the roll or during the period allowed for objections thereto.

Consider for a moment again where the proposition that a firm can be a voter, will lead us. It is the elector eventually who becomes a member of the Council. Does the

firm become member of Council? Certainly not. The candidate has to give the name of his father and his age and, if elected, he is to take the oath. If he dies, resigns or goes away, etc., the constituency is called upon to elect another person. If the argument be that a firm is an elector then the firm is eventually the elected person and there is nothing to prevent the different members A, B, C of a firm sitting in the Council on different dates Learned Counsel will not face the logical conclusion. It was argued by Mr. Bose that once elected the member is not bound to obey the commands of his constituency. That is so; but if you say the firm is the elected person, then why should not the firm exercise its right in Council through different representatives? Very likely in these associations and chambers firms act in this fashion. Different partners might vote on different dates. That is not possible in the Bengal Legislative Council. The elected person is there for the life of the Council. He has years and he has a father and he has to take the oath. Learned Counsels are therefore forced to admit that when it comes to the question of election to the Council the candidate must be a natural person. If we follow the rules down to the election the conclusion is that that candidate must be on the electoral roll. The question of an elector or a proposer or a seconder stands on the same footing.

With great respect to the learned Advocate-General we cannot follow him in his contention. We cannot add and subtract to bring the law into conformity with the way the electoral roll has been prepared. "We are not entitled," said Lord Loreburn (Vickers and Evans 79 L. J. K. B955), "to read words into an Act of Parliament unless clear reason for it is to be found within the four corners of the Act itself." The learned Advocate-General wishes us to leave out the proviso clause about residence in the schedule and leave out the disqualifications as affecting firms and add that this proviso and these disqualifications refer to a representative of the firm who is not himself on the roll. "Nothing is to be added to or to be taken away from a statute, unless there are adequate grounds to justify the inference that the legislature intended something which it omitted to express" (Tindal C. J. in Everett v. Wells, 2 M & Gr. 277 and Lord Eldon in Davis v. Marlborough, 53 R. R 29).

It was mentioned that the contention of the petitioner, if given effect to, will cause great hardship. The hardship consists in the fact that in these Commerce and Industry Constituencies firms have been put on the electoral roll. We learn that there are only three individuals on the roll of the Bengal Chamber of Commerce and none on the roll of the Trades Association. The electoral rules seem to provide for a revision when the roll is very defective. The argument of hardship is a dangerous one to listen to. Courts ought not to be influenced or governed by any notions of hardship. "They must look hardships in the face rather than break down the rules of law" (Jessel in Ford v. Kettle, 9 Q. B. D., p. 139). Even if there were anything to suggest *aliunde* that it was the intention of the legislature to put firms on the electoral rolls we are not at liberty to speculate. Our business is to construe not what the legislature meant but what its language means. We expound but we do not improve the statute. We are to remember, as Lord Bacon said, that our office is "*jus dicere*", not "*jus dare*." The law as laid down in these rules is not unreasonable nor inconsistent nor unjust and the natural construction cannot be departed from, merely because it may operate with hardship or injustice in some cases.

There is one sentence in the explanation to paragraph 13 of Schedule II which has been made much of. Let us repeat it. "Members, etc., include (*a*) in the case of a firm any one partner in the firm, or if no such partner *is present in Calcutta at the date fixed for the election*, any one person empowered to sign for such firm." It looks at first sight as if the legislature contemplated a fluctuating body. Mr. Bose argues that it gives power to a firm to put up a representative for election if a partner is absent from Calcutta. Logically it follows that even though someone else has been nominated, if he is absent on the date of election, the firm might put up another person for election. The learned Advocate-General thinks that this would be going too far and that at the date of the election, as only the right to vote is left, the firm might exercise the right to vote by a representative other than a partner. The meaning of the sentence has not been very clearly expressed; but we have to look to the rest of the statute to construe it. If the firm has already put forward a candidate who has been nominated but who has had to leave Calcutta, it cannot be that the firm can say that it will have some other representative in his place. The returning officer will, under the rules, reject him at once as not having been nominated at all. We have seen and it is conceded that when it comes to election the candidate must be an individual. The date of final publication of the electoral roll is not very long ahead of the election that is going to take place, and the date for lodging claims can be extended by Regulation XI, and our interpretation is that the sentence means that the firm would know beforehand if the partners are going to be away and they can put forward a person empowered to sign for such firm as the elector in the electoral roll. The word "include" only enlarges the meanings of phrases and words, and here it only extends the power of the firm to put forward a representative other than a partner. The very explanation, if considered along with the rules, shows that it is not the firm which is to be on the electoral roll but the partner or the representative. If the contention of the learned Counsel be correct the explanation was unnecessary.

We are fortified in this view by a consideration of the electoral rules in the other Provinces. We take them from Mr. Hammond's book. Take Bombay: The rule for the

local Council is that "a person shall be qualified as an elector for a Commerce and Industry Constituency whose name is entered in the list of members, for the time being in force of the association forming such constituency or who is entitled to exercise the rights and privileges of membership on behalf of and in the name of any firm or company or corporation entered in such lists of members." The Assam and Central Provinces Rules are precise and lay down that the person is to be authorised by the firm as well. It is clear that a natural person is meant. An examination of the Council of State rules leads us to the same conclusion. In the Indian Commerce Constituency of Madras the rule is, "every Indian and one *duly authorised representative* of every Indian partnership shall be qualified............if such person *has* resided in the Presidency, etc." Clearly a natural person is meant.

In the very Schedule II of the Bengal Electoral Rules in the earlier part a distinction is drawn between a person and a firm, and in cases of joint families it is laid down that the person qualified is the manager of the family. All throughout therefore it is the individual who can vote and who can stand for election. We hold therefore that the petitioner's contention must prevail. Mr. Chakravarty's name not being in the electoral roll he was not properly nominated. We hold that the election of Mr. Byomkesh Chakravarty was null and void and that it should be set aside. We are of opinion that a fresh election should be held to fill the vacancy so caused.

No evidence has been produced before us as to the actual votes given, and we are therefore not in a position to hold that any votes should be rejected because such votes were given by companies and firms. It has transpired, however, that the Bengal National Bank, Limited, nominated Mr. Chakravarty to contest the seat and empowered Mr. B. N. Banerjee to vote for the Bank. Mr. Bose argues that there is nothing to prevent a firm from exercising these separate rights. It is sufficient to say that in the view we come to the person who can exercise the right to vote must be on the roll and the procedure was incorrect.

Issue No. 5.—It was pointed out that the electoral rolls were prepared some time ago. The rules contemplate the filing of objections. No objection was taken by the petitioner then or before the returning officer. All parties proceeded upon the basis that there was a valid nomination paper. The petitioner courted the election and has now come forward with his objection only after he has been unsuccessful. However morally wrong he may be, it cannot be said that there is any waiver. There is no question of estoppel. The petitioner does not seem precluded from raising his present objection. It is an objection which could be taken by any elector of that constituency. The objection goes to the very root of the matter. The electoral roll is final in certain matters, *e. g.*, qualifications; but the question whether there is any disenfranchisement by the statute itself is one which can be raised before the Election Court (Stowe *v.* Joliffe, 1874 L. R. 9 C. P., p. 750). The issue is therefore decided in favour of the petitioner and against the respondent.

It was suggested that in the event of our coming to the conclusion that firms cannot be electors the whole election should be set aside. We are unable to accede to this request. As stated before the case was not pressed against Raja Rishee Case Law and we do not think that we should touch his case. We think that on the pleadings and the facts placed before us the election of Mr. Byomkesh Chakravraty only should be set aside.

In the circumstances of the case we recommend that the parties do bear their own costs.

Election case No. 10 of 1924.

Nawab Mirza Shujaat Ali Beg Khan Bahadur, *petitioner*

versus

Maulvi Mahboobul Haq.

Report.

This is a petition by Nawab Mirza Shujaat Ali Beg Khan Bahadur against the election of Maulvi Mahboobul Haq from the 24-Parganas Municipal (Mahomedan) constituency to the Bengal Legislative Council. The petitioner and the respondent were the

only two candidates for election. The 1st of December 1923, 8 A.M., was fixed for counting of votes. The parties with their agents attended, and the counting was done in their presence. The Returning Officer announced the result of the poll and declared the respondent duly elected. The petitioner obtained 911 votes and the respondent 936 votes. There were 48 rejected votes. Soon after when the verification statement required by Regulation XLVIII was being prepared, it was discovered that one ballot box from this constituency had not, by mistake, been opened. It appears that in its place a ballot box of the Hindu constituency had been opened, but the Hindu votes had been rejected. The unopened ballot box was of the Baduria Municipality. The Returning Officer sent for the candidates at once. The respondent was not found. The petitioner turned up and an agent of the respondent also came and the contents of the ballot box were counted in their presence. Two hundred and four ballot papers were found in the box. Eighty-one votes were in favour of the respondent, while 123 votes were for the petitioner. One ballot paper was rejected. The total votes for each candidate thereupon stood, for the petitioner 1,034 and for the respondent 1,017. There were 38 rejected votes. Eleven of the votes given by Hindus for the Non-Mahomedan constituency were taken out as they did not concern this constituency. This result reversed the decision arrived at when the votes were first counted and Maulvi Mahboobul Haq was declared elected. The Returning Officer thought that his first declaration was invalid, but he was not sure if he could make a second declaration and he thereupon submitted his report to Government for instructions. We do not know what the instructions were, but Maulvi Mahboobul Haq's name was published in the *Calcutta Gazette* as that of the elected candidate. The petitioner thereupon filed his present application.

These facts are not challenged in the written statement filed by the respondent. The respondent made a grievance that he was not present at the second counting of the votes and he submitted that the Returning Officer should not have opened and counted the votes in the unopened ballot box after announcing the result of the poll and pleaded that the Returning Officer was functus officio.

Mr. Lindsay, the District Magistrate of the 24-Parganas, who was the Returning Officer, was examined in the case and he corroborated the petitioner's case and explained how the papers of the ballot boxes had been mixed up and counted and the result declared and how the mistake was subsequently discovered when the return required by Regulation XLIX was being prepared and how the parties were sent for and the ballot papers in the Baduria box counted. It appears from Mr. Lindsay's evidence that the result of the second counting was declared by him to the people present. The result of Mr. Lindsay's counting is not challenged.

The learned pleader for the respondent contends that the Returning Officer was functus officio after he made the first declaration. It is argued that the Returning Officer should not have touched the unopened box. Certain English cases have been cited. They are mentioned in Parker, page 385. The English rule is that if a mistake is discovered after the Returning Officer has declared the result, "the mistake can only be rectified by filing an election petition praying a recount." It seems to us that this is the procedure which has been followed in this case. The Returning Officer having made his declaration, he was not entitled to reverse his decision. The English cases cited do not show that the Returning Officer cannot ascertain his mistake. Turning to our Rules and Regulations, it cannot be said that the Returning Officer was functus officio. He had still to make the return mentioned in Regulation XLIX and the report to the Secretary to the Council under Rule 14 (9). It may be even said that the first declaration was a void declaration as it was made on an incomplete counting. Rule 14 (7) states that "when the counting of the votes *has been completed*, the Returning Officer shall forthwith declare the candidate, to whom the largest number of votes has been given, to be elected." The counting of the votes had not been completed inasmuch as the contents of the Baduria box had not been taken into account. The Returning Officer was not, therefore, functus officio. Even if he was, it is open to us to take into account the contents of this box.

A complaint was made that the respondent was not present and had no opportunity to examine the box and that, therefore, he was prejudiced. Rule 14 (6) had been quoted. It says :—"Votes shall be counted......................................and each candidate, the election agent of each candidate, and one representative of each candidate, authorised in writing by the candidates shall have a right to be present at the time of counting." It is proved that the respondent was sent for. He was away and could not be found, but his agent Mohammad Fakiruddin turned up and the counting was done in his presence. It is now said that Mohammad Fakiruddin was not authorised in writing by the respondent to be present at the counting.

The respondent admits that in the morning he took Mohammad Fakiruddin and another gentleman with him to be present at the counting. He admits that Mohammad Fakiruddin was one of his polling agents. It is too late to say that Mohammad Fakiruddin was not his agent and had no written authority. The Returning Officer is not bound to admit an agent to be present at the counting unless he is authorised in writing by the candidate, but when the candidate takes an agent of his to be present at the counting and the same agent is present at the second counting, it would seem that the requirements of the law have been fulfilled. If Mohammad Fakiruddin was good enough to be his polling agent, he was good enough to watch the counting on his behalf. The respondent is obviously trying to disown his own representative. As we have said before the counting

by Mr. Lindsay is not challenged. It seems ridiculous to us for the respondent to complain of any hardship. The hardship was on the other side since the petitioner was not declared elected in spite of the fact that he had a majority of the votes.

The learned pleader for the respondent contended that the petition was not maintainable inasmuch as the petitioner had not asked for a recount. Rule 33 (*1*) states that "the petition shall contain a statement in concise form of the material facts on which the petitioner relies" and Rule 34 says that "the petitioner may, if he so desires, in addition to calling in question the election of the returned candidate, claim a declaration that he himself has been duly elected". The petitioner has done this and has asked that on the votes ascertained by the Returning Officer, he should be declared and returned as duly elected since he obtained the largest number of votes. If the learned pleader means that all the ballot papers should be recounted, all we need say is that this is unnecessary. It is common ground that up to the declaration made by the Returning Officer on the first count, the counting is correct. The only question therefore before us is whether the contents of the box which was subsequently found should be taken into account or not. The petitioner is entitled to proceed on the figures ascertained by the Returning Officer. The Returning Officer has deposed that had he made the discovery earlier, he would have declared the petitioner as elected. He stayed his hand because he had already made the declaration. The learned Vakil for the petitioner has quoted a case which is apposite: *in re* North-Eastern Derbyshire Election Holmes *versus* Lee reported in 39 Times Law Reports, 1923, page 423. It appears that in this case three ballot papers at a Parliamentary Election were found in different ballot boxes after the declaration of the poll: one which was for the petitioner on the date of the declaration and two which were for the respondent after a lapse of 11 days; it was held that as these papers had been inadvertently left in the boxes, in the particular circumstances of the case the three votes must be allowed. We hold that the ballot papars in the Baduria box must be taken into account.

Our conclusion therefore is that the respondent Maulvi Mahboobul Huq was not duly elected and that this election and return should be set aside and that it should be declared that the petitioner was duly elected from this constituency.

Since the respondent was not responsible for the mistake which has resulted in this election petition, we recommend that the parties should bear their own costs.

No. 2562For.—*The 14th March 1924.*—The following regulations issued by the Government of India, Department of Education, Health and Lands, are republished for general information.

M. C. McALPIN,

Secretary to the Government of Bengal.

Regulations for the appointment, in India, of probationers for the Imperial Forest Service in 1924.

Applications are invited from natives* of India and Burma for probationerships for the Imperial Forest Service. Candidates of European or Anglo-Indian descent must be unmarried and, if appointed as probationers, must remain unmarried until completion of the prescribed course of training and their return to India.

2. Applicants, who should not be more than 23, nor less than 19, years of age on 30th June 1924, must possess an *Honours* or a first class, degree in Science or an M. Sc. degree of any class of University incorporated by law in India or the qualifications required of candidates applying for appointment in England.†

3. Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Testimonials or other recommendations should not be attached to the applications.

4. Applications from officers already in the public service, whether as probationers or on a permanent establishment, will not be entertained.

5. Applications from residents in Ajmer, Baluchistan, Coorg, Delhi and North-West Frontier Province should be addressed to the Secretary to the Government of India, Department of Education, Health and Lands, through the Chief Commissioners of those Administrations, and from residents in Indian States through the Political officer or Agent *in time to reach the Government of India not later than the 1st May 1924.* Applications from residents in other territories should be addressed to the Revenue Secretary of the local Government concerned *in time to reach him not later than the 1st May 1924.* The applications must be in the form attached to these regulations. Copies of the regulations and of the forms of application may be obtained from the Secretary to the Government of India, Department of Education, Health and Lands, the Revenue Secretaries to the Governments of Bombay, Madras, Assam, Bengal, Bihar and Orissa, Burma, Central Provinces, the Punjab, the United Provinces; the Chief Commissioners of Ajmer, Coorg and Delhi; the Chief Commissioner and Agent to the Governor-General in the North-West Frontier Province; the Agent to the Governor-General and Chief Commissioner in Beluchistan and Political Officers of Indian States.

6. Applications must be accompanied by a preliminary medical certificate of fitness for service in the Forest Department, signed by a Presidency Surgeon or the Civil Surgeon of the district or agency in which the applicant resides. This certificate is intended to prevent applications from candidates who are obviously physically unsuited for the Forest Service and will not exempt candidates from appearance before the final Medical Board.

7. Candidates who from their applications and from any further enquiries that may be considered necessary appear to the Government of India or to the local Government concerned to be *primâ facie* suitable will be summoned to appear before a Medical Board to undergo a strict medical examination in which particular stress will be laid on good vision and hearing. Each candidate appearing before the Board will pay a fee of Rs. 16 for his medical examination which will not be refunded whether the candidate is passed as fit or rejected as unfit. If passed as fit for the work of the Forest Department, they will then be interviewed by a Selection Board appointed by the Government of India or by the local Government concerned as the case may be.

8. Candidates summoned by the Government of India to appear for the medical examination and interview referred to in paragraph 7 will not be paid any travelling allowance.

Candidates summoned by local Governments for similar purposes may be paid travelling allowance under such conditions and at such rates as the local Government concerned may specify.

* "Native of India" means any person born and domiciled within the dominions of His Majesty in India or within the territory of the Indian Princes tributary to or in alliance with His Majesty, of parents habitually resident in India and not established there for temporary purposes only.

† Candidates must have obtained a degree with *Honours* in some branch of Natural Science ‡ in a University of England, Wales or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.§ A degree in Applied Science will not be considered as fulfilling these conditions. Candidates are required to produce evidence that they have a fair knowledge of either German or French. Weight will be attached to the possession of a diploma or degree in Forestry.

* * * * * * *

‡ A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

§ Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of this paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science

No allowance for board and lodging will be made in connection with the journeys mentioned above and candidates will make their own arrangements in this respect.

9. Those finally selected as a result of the interview prescribed in paragraph 7 will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. A free second class passage to England will be provided, but neither the cost of travelling to the port of embarkation, nor the cost of the overland journey from Marseilles will be paid to candidates selected for training unless they are expressly instructed to travel overland and provided with steamer tickets to Marseilles only. In the latter event the High Commissioner for India will refund the rail and baggage expenses if directed to do so.

10. *Period of Probation.*—Before appointment to the Imperial Forest Service a probationer will be required—

(1) to have undergone and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;

(2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;

(3) to have passed an examination in forest engineering and, if required in certain other special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law and Indian Working Plans;

(4) to have undergone a final competitive examination in Forestry;

(5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

11. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursions to forest centres in the United Kingdom while at the University and on practical instruction.

12. *Allowances.*—The Secretary of State for India in Council makes payment to each probationer at the rate of £350* per annum, not exceeding a total of £700.

These payments are ordinarily made on the following dates:—

First year—

on the 15th October	75
on the 15th December	100
on the 15th March	75
on the 1st July	100
	350

Second year—

on the 15th December	100
on the 15th March	75
on the 1st July	100
on the 15th October	75
	350

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent, under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials at the centres visited will also be paid by the Secretary of State.

The grant of allowances is subject to the following conditions:—

(a) that the progress of the probationer in his studies is satisfactory;

(b) that the probationer gives security† to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 15 or failing to join the Indian Forest Service at the end of the period of probation;

(c) that the probationer undertakes to refund in proportions fixed under the terms of his agreement, the payments, together with the cost of his first-class passage to India, in the event of his leaving the Service during the first five years from the date of his appointment.

* The Secretary of State for India gives notice that the amount of these allowances will be reconsidered in 1924 with a view to possible reduction with effect from the instalment payable in October 1925.

† Probationers will be required to give security to the local Government or Political Officer, through whom they submitted their applications. If this condition is not satisfied, they will not be permitted to leave for England.

13. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

14. *Appointment and seniority.*—Probationers who comply with the requirements of paragraph 10 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationer will be confirmed as a member of the Imperial Forest Service who fails to profit by the course of training, or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. Officers promoted from the Provincial to the Imperial Service will take rank according to their pay in the latter service. Probationers recruited under these regulations must consequently be prepared to find their names placed below those of officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council and no guarantee can be given that probationers will, on appointment, be posted to their own provinces. Indians will not, however, be required to serve in Burma and Burmans will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. *Articles of agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free first-class passage to India.

17. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

18. *Promotion and Pension.*—Promotion and pension are governed by the regulations laid down by the Secretary of State for India in Council, and applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by him and their interpretation in case of any doubt arising being left to that authority.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and a summary of information regarding pensions is contained in Appendix III.

APPENDICES.

A list of the probationers in order of merit is prepared by adding together (*a*) the marks obtained at the final examination, and (*b*) the marks obtained during the course of practical training in forestry under the control of the Director of Indian Forest Studies. RESOLUTION ON THE REPORT ON THE WORKING OF CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR ENDING 30TH JUNE 1923.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

CALCUTTA, THE 18TH MARCH 1924.

RESOLUTION—No. 1375 Co-op.

Minister in charge: The Hon'ble Hadji Mr. Abdul Karim Abu Ahmed Khan Ghuznavi.

READ—

The report on the working of Co-operative Societies in Bengal for the year ending 30th June 1923.

Rai J. M. Mitra Bahadur filled the post of the Registrar, Co-operative Societies, and Mr. M. Thorp, I.C.S., that of the Deputy Registrar, Co-operative Societies, Bengal, throughout the year under report. An important change of policy in the administration of the department was effected during the year in that the Government of India was moved to obtain the sanction of the Secretary of State to exclude the two superior posts, viz., those of Registrar,

Co-operative Societies, and Deputy Registrar, Co-operative Societies, from the provincial cadre of Indian Civil Service, subject to the proviso that it was left open to the Local Government to appoint to either post a member of the Indian Civil Service or the holder of a listed post should it be found desirable at any time to do so in the interests of public service. The Secretary of State's orders sanctioning the proposal were received shortly after the close of the year. The Bengal Retrenchment Committee, which submitted their report during the year under review, recommended many drastic changes both in the organisation and activities of the department. Most of these proposals, however, did not meet with the approval of Government. The only suggestion of consequence which has been accepted is the abolition of the post of Deputy Registrar, Co-operative Societies. The decision has been enforced from the 11th January 1924. The question whether the inspecting staff consisting of Sub-Deputy Collectors and outsiders should continue to depend upon the Subordinate Civil Service came up for consideration during the year. It was decided that, in the interest of the department, some Sub-Deputy Collectors were necessary, and it was considered that six would suffice. Orders have accordingly issued as a result of which all except six of the Sub-Deputy Collectors serving in the department reverted to the general line.

2. The number of Societies of all kinds increased from 6,679 to 7,822 or by 17·1 per cent. against an increase in the preceding year of 4·9 per cent., membership from 260,142 to 292,981 or by 12·6 per cent. against 7·4 per cent. in the preceding year, and working capital from 3·68 to 4·33 crores or an increase of 17·6 per cent. against 10·6 per cent. in the preceding year. These figures indicate beyond doubt that the public realise the great importance of the co-operative movement in solving such vital problems as agricultural indebtedness, agricultural improvements, revival of cottage industries and the like. It is also interesting to note that while the actual cash employed in the movement increased from 2·39 crores to 2·82 crores, the percentage thereof contributed by outsiders continues on the decrease. The development towards connecting rural finance in the co-operative societies with trade and commerce in the towns, especially Calcutta, has manifested itself more clearly, and though still of no great magnitude it reveals considerable possibilities. At the other end of the scale from the complicated transactions which this suggests is the reversion to the distribution of home-safe boxes among members of primary credit societies in the hope that, although the same process produced little or no result when first it was tried at the inception of the co-operative movement in Bengal, it may now, when the people have had 20 years' experience of societies, be more successful in encouraging thrift. As indicative of the advance that is being made the departure is noteworthy by which well-managed societies are permitted to open accounts with Central Banks on which the members of the societies may operate by means of cheques. Government hope with the Registrar that the distribution of home-safe boxes will result in an increase of thrift and that the other departures will escape the dangers which lie across the path of such innovations and will result in better business.

3. As hitherto the predominance of credit societies continues, their number being 90 per cent. of the total number of societies. Their number rose from 6,047 to 7,011, membership from 170,067 to 186,944, working capital from Rs. 1,30,80,811 to Rs. 1,48,62,021, share capital from 4·68 lakhs to 7·03 lakhs, deposits from members from 6·39 lakhs to 6·98 lakhs, and reserve fund from 18·32 lakhs to 21·63 lakhs. The collections amounted to 36·12 lakhs or 33·9 per cent. of the amount due at the beginning of the year. Government notice with alarm that repayments overdue are still so heavy and emphasize the urgent necessity of taking every possible step to reduce them.

4. The financial condition of the Central Banks as a whole is reported to have been quite sound. The tendency to convert mixed-type banks gradually into pure-type ones still prevails. Excluding the Anti-malarial

Society, Calcutta Milk Union and five industrial unions the number of Central Banks rose from 70 to 82, affiliated societies from 6,023 to 7,082, working capital from Rs. 1,30,55,375 to Rs. 1,51,25,775, deposits from non-members from Rs. 84,87,916 to Rs. 97,78,036, and reserve and other funds from Rs. 7,17,328 to Rs. 8,65,684, the proportion of fluid resources of these banks being 52·2 per cent. It is satisfactory to note that the Central Banks are gradually realising the necessity of having salaried officers in their superior executive staff. Government trust that experience will abundantly testify that the expenditure insolved in such a measure is amply covered by the better working of the societies. The deplorable events connected with the misappropriation of a large sum of money by the late Honorary Secretary of the Kushtia Central Bank brought matters to such a pass that the collapse of the bank was imminent. Prompt measures were taken by the department which have averted the danger, at any rate for the present. The circular drafted by the Registrar dealing with frauds that have been detected over several years in the societies has issued none too soon, but the living interest of members in their societies is an essential in the opinion of Government to the prevention of frauds such as occurred in Kushtia.

5. The advance made during the year by the Bengal Provincial Federation, now called the Provincial Co-operative Bank, is satisfactory. Membership rose from 77 to 89, working capital from Rs. 25,41,391 to Rs. 34,73,386, reserve and other funds from Rs. 37,167 to Rs. 66,238, share capital from Rs. 3,14,925 to Rs. 3,59,900, and deposits from the public from Rs. 38,30,130 to Rs. 87,29,542, and this even though rates were reduced. Apparently the deposits received were in excess of the Bank's requirements and the surplus was invested in other Provincial Co-operative Banks. The rates on deposits are certainly not excessive, and the policy of the Bank as explained in the report appears to Government to be sound. In particular the policy of catering only for short-term loans to Central Banks and leaving them to find their long-term loans locally appears to be a wise change. The endeavour to use the Bank as a link between commercial and agricultural finance cannot but prove an interesting experiment, but it will need careful watching in its initial stages. The acknowledgments of Government are due to Raja Rishee Case Law, C.I.E., who had to retire from the Chairmanship of the Bank owing to ill-health; and to Mr. S. R. Das, the Advocate-General, who has succeeded him.

6. While the increase in the number of agricultural purchase and purchase and sale societies from 15 to 21 is certainly an indication of perseverance, with its suggestion of a promise of eventual success, Government can not share the Registrar's satisfaction at the fact that the total profits of these societies amounted to Rs. 5,910 against a loss of Rs. 326 in the preceding year, for the simple reason that, if we omit the one society in Bakarganj each year, the remainder of these societies will show in 1921-22 a loss of Rs. 2,626 and in 1922-23 a loss of Rs. 4,197. Except in regard to the Bakarganj society, the profit of which in 1921-22 was Rs. 2,330 and in 1922-23 Rs. 10,107, the figures of profit of these societies produce the opposite of a sense of satisfaction. Nor indeed do the dishonesty and violation of bye-laws, and the self-seeking spirit of members, who, learning the shopkeeping business from the store, opened rival shops of their own, and the other faults to which the Registrar refers tend to produce a feeling of satisfaction. Government are well aware of the almost insuperable difficulties that stand in the way of these societies and are pleased to think that these difficulties do not deter the department in its efforts to overcome them, but it would be misleading to express satisfaction at the financial results of 21 societies as a whole when 20 of them are so far failures financially, although one is a brilliant success. Government are glad, too, that the still greater difficulties of organising jute sale societies have not yet disheartened the department. Judging from references in Council there is a strong desire amongst the representatives of the people to see such societies successfully established, and if the department succeeds in overcoming the

peculiar difficulties due to the speculative element in the trade and the fluctuation of prices it will achieve a notable success. The organisation for the purchase of good seeds, especially jute seeds, is another line in which Government think eventual success by the department would be held to be meritorious.

7. Government view with genuine pleasure the striking progress made in the organisation of irrigation societies. The success already attained by some of these in preventing the loss of crops is very gratifying, and Government agree that their possibilities can hardly be exaggerated. The number of these societies increased from 29 to 114, of which 66 are in Bankura and 45 in Birbhum, membership from 1,318 to 4,689 and working capital from Rs. 42,626 to Rs. 77,658. Government are glad to learn from the Registrar that the spread of this movement in Bankura and Birbhum is due largely to the Collectors, Messrs. G. S. Dutt and Blackwood, and their assistants, but they are equally pleased to learn that several non-official gentlemen too rendered invaluable assistance. As an example of self-help these societies stand out by themselves, and the department may rest assured that Government will treat most sympathetically any proposals to render development on these lines more rapid and more secure.

8. It is also a matter of congratulation that some headway has been made in the formation of Co-operative Agricultural Associations with their great possibilities for ameliorating the condition of the cultivating classes. The increase in the number of these societies from 4 to 11 is not unsatisfactory.

9. The solid progress of the Milk Societies reported by the Registrar is very encouraging. The number of these societies increased from 47 to 52. The efforts to extend the field of operations to greater distances from Calcutta and to pasteurise milk locally before bringing it to Calcutta as well as the proposals to maintain pedigree bulls in different centres will be watched with interest.

10. In spite of the devastating flood with which the locality was visited during the year under report, the Naogaon Ganja Cultivators' Co-operative Society, Limited, appears to have maintained its good record, its total membership increasing from 3,021 to 3,221, share capital from Rs. 30,830 to Rs. 33,710, and deposits from non-members from Rs. 70,632 to Rs. 1,08,210. The society is to be particularly congratulated on the continued investment of part of its profits in schemes of public utility, such as charitable dispensaries, veterinary dispensaries, primary and secondary schools, re-construction of embankments and roads, etc. Government join with the Registrar in his expression of regret at the loss of the services of Khan Bahadur Ata-ur-Rahman who was the first Deputy Chairman of the society and had conducted its affairs with conspicuous success.

11. It would appear from the report that the stores and supplies societies are steadily on the decline, and Government consider that the Registrar's analysis of the situation is quite correct and that the societies are finding it increasingly difficult successfully to compete with professional traders, as pre-war conditions are gradually re-establishing themselves. Yet since stores and supplies societies do succeed in other countries it cannot but be probable that the real cause of failure is the disloyalty of the members, which the Registrar emphasizes, and the dishonesty of the staff which he is taking measures to correct. Government earnestly trust that the Stores Manual now under preparation will indicate with success the necessary safeguards against dishonesty.

12. The capitalistic spirit of certain of its members which has forced the Registrar to cancel the registration of the Dacca conch-shell workers is greatly to be deplored. Apparently the society's financial success—profits

rising from Rs. 481 to Rs. 18,024—induced its members to become exclusive, and the society acted towards the numerous *bona fide* and eligible conch-shell workers who wished to join somewhat as a mahajan wishing to retain all profits for himself. It is to be hoped that the society will be reconstructed satisfactorily.

13. The number of weavers' societies rose from 120 to 142, membership from 1,677 to 1,882, and working capital from Rs. 54,629 to Rs. 62,754. The question of supplying cheap electric power to weaving centres in rural areas is being investigated by the departments of co-operation and of industries. Bagerhat Weaving Union at Kandapara is a society the working of of which will be watched with great interest.

14. Government are awaiting the Registrar's report on the reorganisation of the Bengal Co-operative Organisation Society so as to extend its scope and utility.

15. It is disappointing to note that, while considerable headway has been made in other provinces in initiating co-operative housing schemes, nothing has yet been done in this direction in Bengal. In view of the housing difficulty in Calcutta, the problem is becoming more and more important. It is hoped that Rai J. M. Mitra Bahadur, who has studied the problem in Bombay, may, on his return from England, be able to contribute to the solution of this problem.

16. The thanks of Government are due to Rai J. M. Mitra Bahadur for his efficient administration of the department and his interesting report. Government join with the Registrar in acknowledging the services of Mr. Thorp. The names of the other officers of the department commended for good work are noted with pleasure. Government are also grateful to the district officers who are reported to have helped the movement in their respective jurisdiction.

DACCA, *the 22nd March 1924.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for February 1924.

I. **Character of the season.**—The weather continued to be dry and the rainfall during the month was too light and scattered to be of any material benefit to the standing crops. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of the early spring crops was completed and that of the late varieties continued. Preparation of fields for jute and paddy and their sowings were proceeding in the low-land tracts of Eastern Bengal, but the progress of the operations was slow for want of rain.

III. **State of standing crops.**—The standing vegetables and other spring crops were in fair condition. Some rain at this stage would benefit their growth.

IV. **Prospects and probable outturn.**—The prospects of the different spring crops were not reported to be hopeful owing to protracted drought and their outturn including wheat appears to be below the normal.

V. **Damage to standing crops.**—Considerable damage was done to the standing spring crops by continued drought throughout the province.

VI. **Condition of agricultural stock.**—The condition of agricultural stock was reported to be fair. Sporadic cases of cattle-disease were, however, reported from ten districts.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the province with the exception of Nadia.

VIII. **Prices of food-grains.**—During the second fortnight of the month under review the prices of common rice of the cheapest varieties rose in two districts, fell in two and remained stationary in the rest. It ranged from 9 seers per rupee at Jessore, Burdwan, Midnapore and Bakarganj to 6½ seers at Rangpur.

IX. **Condition of agricultural population.**—The condition of agricultural population continued to be fair.
